The World We Make N. K. Jemisin, 2022-11-01 Four-time Hugo Award-winning and New York Times bestselling author N.K. Jemisin crafts a glorious tale of identity, resistance, magic and myth. All is not well in the city that never sleeps. Even though the avatars of New York City have temporarily managed to stop the Woman in White from invading—and destroying the entire universe in the process—the mysterious capital E Enemy has more subtle powers at her disposal. A new candidate for mayor wielding the populist rhetoric of gentrification, xenophobia, and law and order may have what it takes to change the very nature of New York itself and take it down from the inside. In order to defeat him, and the Enemy who holds his purse strings, the avatars will have to join together with the other Great Cities of the world in order to bring her down for good and protect their world from complete destruction. N.K. Jemisin's Great Cities Duology, which began with *The City We Became* and concludes with *The World We Make*, is a masterpiece of speculative fiction from one of the most important writers of her generation. *The Great Cities Duology The City We Became The World We Make*

How to Protect Bookstores and Why Danny Caine, 2023-09-19 Can bookstores save the world? As bastions of culture, anchors of local retail districts, community gathering places, and sources of new ideas, inspiration, and delight, maybe they can. But only if we protect them and the critical roles they fill in our communities. Danny Caine, author of the bestselling sensation *How to Resist Amazon and Why* and co-owner of the Raven Book Store in Lawrence, Kansas, makes a compelling case for the power of small, local businesses in this thoughtful examination of the dynamic world of bookstores. At once an urgent call to action and a celebration of everything bookstores can do, Caine's new book features case-study profiles of a dozen of the most interesting, creative, and progressive bookstores of today, from Minneapolis to Paris. Through a well-informed analysis of these case studies, Caine offers actionable strategies to promote a sustainable future for bookselling, including policy suggestions, ideas for community-based action, and tips on what consumers can do to help. A captivating read for any lover of books, patron of bookstores, or champion of the survival of these vital institutions, *How to Protect Bookstores and Why* makes the strongest possible case for the importance of a resilient, inclusive, and progressive bookstore landscape.

Fluid Futures Steven Shaviro, 2024-08-13 How does science fiction imagine forms of life that are plausible, and yet different from anything that we already know? *Fluid Futures* is about how science fiction imagines an open future. Science

fiction does not claim to predict what will actually happen in times to come. But it offers pictures of potential developments; it narrates the unfolding of possibilities for change that are already implicit, or incipient, in the present moment. As Rod Serling said, science fiction is “the improbable made possible.” The book starts by looking at three tools that are commonly used in science fiction to address futurity: extrapolation, speculation, and fabulation. It goes on to consider concrete examples of how science fiction texts employ these tools to illustrate ways in which the future might be different from – but not entirely discontinuous with – the present-day conditions with which we are familiar. Fluid Futures insists upon the aboutness of science fiction, as it depicts situations and ideas that are at once possible and difficult to grasp. The book then explores how the genre embraces fictionality and narrative, reconceives time, and projects images of possible worlds. The point of the book is not to give a theory of science fiction. Instead, it emphasizes the ways that science fiction texts themselves propose theories, leading readers to reconceive concepts that we have taken for granted.

The World We Make N. K. Jemisin, 2022 Every great city has a soul. A human avatar that embodies their city's heart and wields its magic. New York? She's got six. But all is not well in the city that never sleeps. Though Brooklyn, Manny, Bronca, Venezia, Padmini, and Neek have temporarily managed to stop the Woman in White from invading--and destroying the entire universe in the process--the mysterious capital E Enemy has more subtle powers at her disposal. A new candidate for mayor wielding the populist rhetoric of gentrification, xenophobia, and law and order may have what it takes to change the very nature of New York itself and take it down from the inside. In order to defeat him, and the Enemy who holds his purse strings, the avatars will have to join together with the other Great Cities of the world in order to bring her down for good and

El Mundo Que Forjamos / The World We Make N K Jemisin, 2025-08-19 N.K. Jemisin, la tres veces ganadora del Premio Hugo a la mejor novela y superventas de The New York Times, nos trae un relato glorioso sobre la identidad, la resistencia, la magia y la mitología. La bilogía «Las Ciudades Grandiosas» es una obra maestra de ficción especulativa. Hay cosas que no van del todo bien en la ciudad que nunca duerme. Los avatares de Nueva York han conseguido evitar temporalmente la invasión de la Mujer de Blanco (y de paso la destrucción de todo el universo), pero el misterioso Enemigo con E mayúscula esconde poderes más sutiles bajo la manga. Un nuevo candidato a la alcaldía, experto en el arte de la retórica populista de la gentrificación, la xenofobia y la «ley y el orden», puede llegar a conseguir cambiar la naturaleza de la Gran Manzana. Para derrotarlo a él y al Enemigo que lo controla en las sombras, los avatares deberán unirse con el resto de las ciudades grandiosas. O arriesgarse a la aniquilación completa de su mundo.
