Travel Medicine - Series I Larry Goodyer, 2019-05-09 This collection of papers describes the recent development of travel health and vaccination services delivered by pharmacists. It is the first dedicated collection of its type and provides a template for the continued growth of pharmacy practice in this area. The articles examine and report on aspects of such services in the UK, US, Canada, Australia, Switzerland, and South Africa, which will provide useful insight for those in other countries developing such pharmacy-based services.

Bipolar II Disorder Gordon Parker, 2012-04-12 The lifetime risk of developing bipolar II disorder is 5-7%, yet the condition is often poorly detected. Mood elevation states are less extreme than in bipolar I disorder although the depressive episodes are usually severe. When correctly treated, the outcome is positive, but bipolar II is often poorly managed, resulting in a high suicide rate. This is the only academic and clinical management review focusing entirely on bipolar II, scrutinizing history, epidemiology, burden and neurobiology and including an extensive clinical debate by international experts about effective management strategies. New chapters cover comorbidity, over-represented personality styles, illness 'trajectories' and distinguishing bipolar II from personality-based emotional dysregulation states. Evidence for different clinical management options is reviewed in detail, two clinical management models are presented and then debated. This book is essential reading for all health professionals managing mood disorders and informative to patients seeking information about their condition and treatment options.

Retirement and the Hidden Epidemic Peter A. Bamberger, Samuel B. Bacharach, 2014-05-07 Evidence from both local

and national surveys suggests that substance misuse and abuse among older adults in the United States is a hidden epidemic that poses a major threat to the welfare and quality of life of older drinkers and their families, and has significant public health implications. Based on their findings from a 10-year, NIH-funded study of retirement, aging, and substance misuse, Peter Bamberger and Samuel Bacharach examine the complex web of factors contributing to the precipitation and exacerbation of substance problems among older adults. They discuss the individual and public health implications of such problems, as well as some of the evidence-based steps that may be taken to prevent their emergence and help those in need of assistance for policy-makers and health practitioners. This book provides a single-source review of the latest research assessing the magnitude and costs of older-adult substance abuse, as well as detailed analysis of the epidemiology of older-adult substance abuse. The authors provide an analysis of the efficacy of alternative prevention and treatment strategies, and present scientific evidence in a user-friendly format, highlighting extensive interview data to accompany their statistical results. The illustrations offered by these real life cases not only provide a sense of richness and understanding to a complex issue, but also offer a fitting reminder to the reader that this is an issue affecting people we know and families like our own.

Theoretical Nursing Afaf Ibrahim Meleis, 2011 An additional assumption was that the processes for theory development were new to nursing and hence, nurses in graduate programs learned strategies for advancing knowledge from other disciplines. This assumption was debunked with the knowledge that nurses were always engaged in knowledge development, driven by their experiences in clinical practice. Because of these assumptions, most of the early writing about theory development was about outlining strategies that should be used, rather than strategies that have already been used in the discipline to develop theories. Theorists themselves did not uncover or adequately discuss ways by which they developed their theories, therefore the tendency was to describe processes that were based on theories developed in other disciplines, mainly the physical and social sciences. And an implicit assumption was made that there should be a single strategy for theory development, some claiming to begin the process from practice, and others believing it should be driven by research-- Provided by publisher.

Handbook of Minority Aging Tamara A. Baker, Keith E. Whitfield, 2013-07-28 The array of topics covered is amazing, making this book a valuable, significant resource for many disciplines... This multidisciplinary review of the literature on minority aging presents the scholarship related to public health and 'social, behavioral, and biological concerns' of aged

minorities like no other publication. Graduate students will certainly be well-served by this book, as would faculty teaching aging at both undergraduate and graduate levels...Highly recommended.--Choice: Current Reviews for Academic Libraries

While practitioners of gerontology, family medicine, and any professional involved in the care of the elderly will find some practical guidance in the second part of the book, it will really earn a place on the bookshelf of anyone and everyone with an interest in US sociology and the development of public policy for the elderly. With the general aging of the population and the book's accentuation of current issues, this outstanding review will become an indispensable tool.

Healthy Aging Research

This text provides up-to-date, multidisciplinary, and comprehensive information about aging among diverse racial and ethnic populations in the United States. It is the only book to focus on paramount public health issues as they relate to older minority Americans, and addresses social, behavioral, and biological concerns for this population. The text distills the most important advances in the science of minority aging and incorporates the evidence of scholars in gerontology, anthropology, psychology, public health, sociology, social work, biology, medicine, and nursing. Additionally, the book incorporates the work of both established and emerging scholars to provide the broadest possible knowledge base on the needs of and concerns for this rapidly growing population. Chapters focus on subject areas that are recognized as being critical in understanding the well being of minority elders. These include sociology (Medicare, SES, work and retirement, social networks, context/neighborhood, ethnography, gender, demographics), psychology (cognition, stress, mental health, personality, sexuality, religion, neuroscience, discrimination), medicine/nursing/public health (mortality and morbidity, disability, health disparities, long-term care, genetics, dietary issues, health interventions, physical functioning), social work (caregiving, housing, social services, end-of-life care), and many other topics. The book focuses on the needs of four major ethnic groups: Asian/Pacific Islander, Hispanic/Latino, African American, and Native American.

Key Features: Provides current, comprehensive information about minority aging through a multidisciplinary lens Integrates information from scholars in gerontology, anthropology, psychology, public health, sociology, social work, biology, medicine, and nursing Emphasizes the principal public health issues concerning minority elders Offers one-stop shopping regarding the development of a substantial knowledge base about minority aging Includes recent progressive research pertaining to the social, cultural, psychological and health needs of elderly minority adults in the US

Textbook of Interdisciplinary Pediatric Palliative Care E-Book Joanne Wolfe, Pamela Hinds, Barbara Sourkes, 2011-01-26 The Textbook of Interdisciplinary Pediatric Palliative Care, by Drs. Joanne Wolfe, Pamela Hinds, and Barbara Sourkes, aims to inform interdisciplinary teams about palliative care of children with life-threatening illness. It addresses critical domains such as language and communication, symptoms and quality of life, and the spectrum of life-threatening illnesses in great depth. This comprehensive product takes a first-of-its-kind team approach to the unique needs of critically ill children. It shows how a collaborative, interdisciplinary care strategy benefits patients and their families. If you deal with the complex care of critically ill children, this reference provides a uniquely integrated perspective on complete and effective care. - Respect interdisciplinary perspectives, and provide the most comprehensive care. - Use an integrated approach to address the physical, psychological, social, and spiritual needs of children and their families. - Understand and heed your strengths and vulnerabilities in order to provide the best care for your patients. - Recognize the necessity of linking hospital-based palliative care with community resources. - Implement consistent terminology for use by the entire palliative care team. - Access the full text online with regular updates and supplemental text and image resources.

Public Health Nursing Marcia Stanhope, PhD, RN, FAAN, Jeanette Lancaster, PhD, RN, FAAN, 2015-10-07 Prepare for a successful career as a community/public health nurse! Public Health Nursing: Population-Centered Health Care in the Community, 9th Edition provides up-to-date information on issues that impact public health nursing, such as infectious diseases, natural and man-made disasters, and health care policies affecting individuals, families, and communities. Real-life scenarios show examples of health promotion and public health interventions. New to this edition is an emphasis on QSEN skills and an explanation of the influence of the Affordable Care Act on public health. Written by well-known nursing educators Marcia Stanhope and Jeanette Lancaster, this comprehensive, bestselling text is ideal for students in both BSN and Advanced Practice Nursing programs. Evidence-Based Practice and Cutting Edge boxes illustrate the use and application of the latest research findings in public/community health nursing. Healthy People 2020 boxes highlight goals and objectives for promoting the nation's health and wellness over the next decade. Levels of Prevention boxes identify specific nursing interventions at the primary, secondary, and tertiary levels. Practice Application scenarios help you apply chapter content to the practice setting by analyzing case situations and answering critical thinking questions. Linking Content to Practice boxes provide examples of the nurse's role in caring for individuals, families, and populations in community health settings. Unique! Separate chapters on healthy cities, the Minnesota Intervention Wheel, and nursing centers describe different approaches to

community health initiatives. Community/Public Health Nursing Online consists of 14 modules that bring community health situations to life, each including a reading assignment, case scenarios with learning activities, an assessment quiz, and critical thinking questions. Sold separately. NEW! Coverage of health care reform discusses the impact of The Patient Protection and Affordable Care Act of 2010 (ACA) on public health nursing. NEW! Focus on Quality and Safety Education for Nurses boxes give examples of how quality and safety goals, knowledge, competencies and skills, and attitudes can be applied to nursing practice in the community.
