The Visigoths in Gaul and Iberia Alberto Ferreiro,2006-11-30 The bibliography includes material published from 1984 to 2003. The historical chronology has been expanded to include the fourth century. This includes unlike the first one Iberian Fathers such as Gregory of Elvira, Potamius of Lisboa, Prudentius, and Pacian of Barcelona. As with the first bibliography (Brill, 1988) among the many topics represented are: Archaeology, Liturgy, Monasticism, Iberian-Gallic Patristics, Paleography, Linguistics, Germanic and Muslim Invasions, and more. In addition, peoples such as the Vandals, Sueves, Basques, Alans and Byzantines are included. The book contains author and subject indexes and is extensively cross-indexed for easy consultation. A periodicals index of hundreds of journals accompanies the volume. This collection of nearly 8,000 entries is an attempt to bring up-to-date the scholarship on Iberia and Gaul in Late Antiquity.

Stuart,2005 This encyclopedia provides readers with basic information about the history of social welfare in Canada, Mexico, and the United States. The Functional Perspective on Language and Discourse María de los Ángeles Gómez González,Francisco José Ruiz de Mendoza Ibáñez,Francisco Gonzálvez García,Angela Downing,2014-05-15 Over the last forty years, the functionalist approach to linguistic description and explanation has given rise to several major schools of thought that share two crucial assumptions: (i) form is not independent of meaning/function or language use; and (ii) linguistic description and explanation need to take into account the communicative function of language. This volume offers readers interested in functional linguistics a selected sample of studies that jointly prove the efficacy of the analytical tools and procedures broadly accepted within the functionalist tradition in order to investigate language and discourse, with special focus on key pragmatic/discourse notions such as contextualization, grammaticalisation, reference, politeness, (in-)directness, discourse markers, speech acts, subjective evaluation and sentiment analysis in texts, among others. In addition, this volume offers specific corpus-based techniques for the objective contextualisation of linguistic data, which is crucial given the central role allotted to context in both functional linguistics and pragmatics/discourse analysis.

A Feminist Counter-History of Latin American Documentary Lorena Cervera Ferrer, 2025-08-28 A Feminist Counter-History of Latin American Documentary provides a new lens through which to revisit the history of Latin American cinema and proposes three approximations to the study of women's documentary produced between the early 1970s and the mid-1990s. With a focus on documentaries with clear political intents, this book illustrates some of the thematic interests, authorial modes, production practices, formal devices, and aesthetic strategies employed by women filmmakers. Through analysis of the contexts, processes, and forms of a selection of films, the author shows how these non-fiction films shed light on the precarious conditions that characterised women's greater entry into the workforce, on the circulation of feminist ideas, and on the inevitable questioning of identity that resulted from migration and displacement. This volume will appeal to scholars and students interested in women's and feminist cinema, documentary history, theory, and practice, and Latin American history and culture.
