Cry, the Beloved Country Alan Paton, 2003-11-25 An Oprah Book Club selection, *Cry, the Beloved Country*, the most famous and important novel in South Africa's history, was an immediate worldwide bestseller in 1948. Alan Paton's impassioned novel about a black man's country under white man's law is a work of searing beauty. Cry, the beloved country, for the unborn child that is the inheritor of our fear. Let him not love the earth too deeply. Let him not laugh too gladly when the water runs through his fingers, nor stand too silent when the setting sun makes red the veld with fire. Let him not be too moved when the birds of his land are singing, nor give too much of his heart to a mountain or valley. For fear will rob him of all if he gives too much. The eminent literary critic Lewis Gannett wrote, "We have had many novels from statesmen and reformers, almost all bad; many novels from poets, almost all thin. In Alan Paton's *Cry, the Beloved Country* the statesman, the poet and the novelist meet in a unique harmony." *Cry, the Beloved Country* is the deeply moving story of the Zulu pastor Stephen Kumalo and his son, Absalom, set against the background of a land and a people riven by racial injustice. Remarkable for its lyricism, unforgettable for character and incident, *Cry, the Beloved Country* is a classic work of love and hope, courage and endurance, born of the dignity of man.

Eskom Sylvy Jaglin, Alain Dubresson, 2016-08-16 Africa's leading producer of electricity, Eskom Holdings SOC Ltd, is also a vertically integrated monopoly, owned by the South African state. This national champion was shaken in 2008, when it was obliged to introduce 'load shedding', or rolling blackouts, and again in late 2014. Trying to understand how and why one of the iconic pillars of South African state capitalism is now in distress, the authors of this book argue that the so-called electricity crisis is in fact a public monopoly crisis. Moving beyond technical aspects, they explore the relationship between state power and Eskom before, during and after apartheid. From this perspective, they suggest that the current technical and financial troubles of this public utility are illustrative of the weakening of its technopolitical regime, of how national institutions have governed Eskom's technological development, and of the pursuit of political goals in the production of electrical power. Without a clear industrial strategy during the 2000s, Eskom became a powerful tool of Broad-Black Economic Empowerment as well as a neopatrimonial system which generates profits captured by the ruling party. As a result, crisis in Eskom shakes the whole political edifice. Inefficient and its finances increasingly under scrutiny, this state-owned enterprise's existence as a monopolistic public utility is regularly a subject of debate. The authors discuss the

ambivalent role of Eskom in the national energy transition policy and whether solutions point in the direction of de-integrating this public monopoly and allowing its current technopolitical regime to enter a planned or natural decline.

Interventions E. Castelli, J. Jakobsen, 2004-11-26 This collection brings together top scholars to discuss the significance of violence from a global perspective and the intersections between the global structures of violence and more localized and intimate forms of violence. Activists and academics consider questions such as; are there situations in which violence should be politically supported? Are non-violent or anti-war movements in the US able to effectively respond to violence? Do we need to rethink our understanding of both 'religion' and 'secularism' in light of the current world situation? Have new paradigms been developed in response to violence? The essays in this collection offer inclusive analysis of particular situations and creative alternatives to the omnipresence of violence.

Ronald Harwood's Tragic Vision Ann C. Hall, 2024-11-26 "Art has a lot to answer for." So says Sarah Bernhardt in Ronald Harwood's play *After the Lions*. Harwood's own career can be summarized by that same quote as well. Ronald Harwood's *Tragic Vision* offers the first critical analysis of prolific and award-winning British author Ronald Harwood (1934–2020). Though he received an Oscar for *The Pianist*, a knighthood, and numerous other awards and nominations, Harwood worked as a ghostwriter, script doctor, and veritable unknown for many years. As he became successful, many critics still misread his works and positioned him as a less-fashionable counterpart to his lifelong friend Harold Pinter. This study proposes a conceptual framework to approach his, and others', work based on the genre of tragedy, offering a greater

appreciation for and understanding of the Harwood canon.

Interjections, Translation, and Translanguaging Rosanna Masiola, 2018-12-05 This book is about interjections and their transcultural issues. Challenging the marginalization of the past, the ubiquity of interjections and translational practices are presented in their multilingual and cross-cultural aspects. The survey widens the field of inquiry to a multi-genre and context-based perspective. The quanti-qualitative corpus has been processed on the base of topics of relevance and thematization. The range of examples varies from adaptation of novels into films, from Shakespeare, from Zulu oral epics to opera, from children's narratives to cartoons, from migration literature to gangster and horror films and their audiovisual translation. The use of American Yiddish, Italian American, South African English, and Jamaican account for the controversial aspects of interjections as a universal phenomenon, and, conversely, as a pragmatic marker of identity in (post)colonial contexts.

Globalization and Democracy Stephen J. Rosow, Jim George, 2014-07-22 Combining theory with compelling case studies, this book examines the globalizing world of democracy. Noted critical scholars Stephen J. Rosow and Jim George argue that democracy must be understood not as a unified concept but as a diversity of political responses to specific conditions and political struggles. Doing so reveals how democracy is taking multiple forms around the world in response to neoliberal globalism and the increasing pace and complexity of everyday life. The authors show how the current phase of globalization is destabilizing the dominance of Western democracy promotion as resisters challenge common understandings and forms of democracy. Explaining the theory behind neoliberal globalization and democracy promotion, they consider its impact and struggles against it in South Africa, post-Soviet Russia, India, and Venezuela and other "pink tide" states in Latin America. Rosow and George also examine how digital communications networks, the centralization of security, and the fluid movements of people and ideas are destabilizing traditional democratic theories. At the same time, they give rise to concepts of democracy that focus on new forms of citizenship and democratic participation, a cosmopolitan democratic constitutionalism, cross-boundary political activism, and local and community-based economic and democratic practices.

The Untold Story of Zama Zama Miners in South Africa Vidette Bester, 2025-04-30 This book results from a decade of in-depth research on the complexities of Zama Zama mining in South Africa, which has become a pressing issue of late. It critiques the overly simplistic portrayal of the miners negatively and as illegal immigrants. Through a sociological lens, this book explores the broader socio-economic conditions, the profound impact of South Africa's mining history, particularly the migrant labor system, on today's Zama Zama miners, and the role of women in the sector. This book is not just about mining; it interrogates issues around language, poverty, and power. It challenges dominant societal narratives and examines how labels can further marginalize vulnerable groups. Inspired by the works of Pierre Bourdieu and Michel Foucault on classification and language, the book questions who holds the power to label and shape mainstream discourses. Amplifying the voices of the Zama Zamas themselves, the book transforms the conversation around Zama Zama mining in South Africa

and beyond, providing fresh insights into this complex and marginalized sector. This book is more than an original and insightful study on informal mining – it offers practical initiatives for businesses, government, and civil society to engage with and address this marginalized sector more sustainably.

Hindu Nationalism in India and the Politics of Fear D. Anand, 2016-04-30 The representation of the Muslims as threatening to India's body politic is central to the Hindu nationalist project of organizing a political movement and normalizing anti-minority violence. Adopting a critical ethnographic approach, this book identifies the poetics and politics of fear and violence engendered within Hindu nationalism.

Teaching, Bearing the Torch Pamela J. Farris, Patricia L. Rieman, 2013-12-12 Teachers are torchbearers—leaders who impart knowledge, truth, or inspiration to others. Pamela Farris, joined by Patricia Rieman in the latest edition of this exceptional foundations text, clearly demonstrates how teachers bear the torch. The authors' well-researched approach provides both positive and negative aspects of education trends. Their generous use of examples shows how teaching and schooling fit into the broader context of U.S. society and how they match up with other societies throughout the world. Farris and Rieman's lively writing style instills teacher education candidates with a lucid understanding of such topics as philosophy and history of education, national trends, requirements of becoming a teacher, teachers' salaries, how schools are governed and funded, demographic changes and expectations for the future, differences in rural and urban schools, and use of technology. Detailed lists of a variety of websites provide additional resources. Anecdotes of professionals in the field—authentic-voice narratives with frank insights into real-world teaching experiences—punctuate the text. Boxed scenarios concentrate on important issues and educators, energize readers' interest, and stimulate proactive thinking. Other outstanding features are the book's affordability and versatility. Instructors can easily assign all or a portion of the chapters to fit course needs.

The South African Short Story in English, 1920-2010 Marta Fossati, 2024-09-05 Through detailed close readings alongside investigations into the history of print culture, Marta Fossati traces the development of the South African short story in English from the late 1920s to the first decade of the twenty-first century. She examines a selection of short stories by important Black South African writers (Rolfes and Herbert Dhlomo, Peter Abrahams, Can Themba, Alex La Guma, Mtutuzeli Matshoba, Ahmed Essop, and Zoë Wicomb) with an alertness to the dialogue between ethics and aesthetics performed by these texts. This new history of Black short fiction problematises and interrogates the often-polarised readings

of Black literature in South Africa that can be torn between notions of literariness, protest, and journalism. Due to material constraints, short fiction in South Africa circulated first and foremost through local print media, which Fossati analyses in detail to show the cross-fertilisation between journalism and the short story. While rooted in the South African context, the short stories considered also hold a translocal dimension, allowing us to explore the ethical and aesthetic practice of intertextuality. These are writings that complicate the aesthetics/ethics binary, generic classifications, and the categories of the literary and the political. Theoretically eclectic in its approach, although largely underpinned by a narratological analysis, *The South African Short Story in English, 1920-2010: When Aesthetics Meets Ethics* offers a fresh perspective on the South African short story in English, spotlighting several hitherto marginalised figures in South African literary studies.

Amy Biehl's Last Home Steven D. Gish, 2018-06-13 In 1993, white American Fulbright scholar Amy Biehl was killed in a racially motivated attack near Cape Town, after spending months working to promote democracy and women's rights in South Africa. The ironic circumstances of her death generated enormous international publicity and yielded one of South Africa's most heralded stories of postapartheid reconciliation. Amy's parents not only established a humanitarian foundation to serve the black township where she was killed, but supported amnesty for her killers and hired two of the young men to work for the Amy Biehl Foundation. The Biehls were hailed as heroes by Nelson Mandela, Desmond Tutu, and many others in South Africa and the United States—but their path toward healing was neither quick nor easy. Granted unrestricted access to the Biehl family's papers, Steven Gish brings Amy and the Foundation to life in ways that have eluded previous authors. He is the first to place Biehl's story in its full historical context, while also presenting a gripping portrait of this remarkable young woman and the aftermath of her death across two continents.

Keep Them Reading ReLeah Cossett Lent, Gloria Pipkin, 2015-04-25 *Keep Them Reading* is a concise handbook for teachers, librarians, administrators, and district personnel about how to prevent censorship in a school or district—and what to do if it happens. Written by two award-winning authors who have devoted much of their careers to anti-censorship work, this book discusses the overall importance of reading in all academic endeavors and demonstrates how challenges and censorship can derail even the best literacy program. Each chapter contains practical tools, advice, and resources for building understanding about issues of intellectual freedom and for creating a plan to help all parties work through challenges before they turn into damaging censorship incidents. The last chapter contains advice from authors who have dealt with censorship, such as Judy Blume, and experts on the subject, such as Joan Bertin, executive director of the National Coalition Against Censorship. Book Features: Procedures for dealing with censorship challenges before they arise. Protocols to help teachers and librarians meet challenges and resist censorship. Samples of actual letters teachers can use to defend their selection of a text. Detailed suggestions for conducting meetings with parents and district personnel. Helpful lists of books dealing with censorship, relevant court cases, and national organizations offering support and resources. "The first

academic freedom book of 2013 . . . an excellent one.” —Read the article on the Huffington Post Education Blog “There are no easy answers, but there are lessons to be learned from the ‘good fight’ of classroom teachers who have been victims of the censorship wars. . . . Keep Them Reading offers sage advice and guidance about what to do when the censor calls.” —From the Foreword by Pat Scales, past president, ALSC American Library Association “Sooner or later every reading and literature teacher will encounter someone who wants to limit students' experiences with a text Keep Them Reading lays out a very common-sense pro-active mechanism that is both respectful of parents and community values and students' and teachers' rights. Every teacher and administrator should read this handbook and then establish the processes that Lent and Pipkin recommend.” —Nancy G. Patterson, co-editor, Language Arts Journal of Michigan, Associate Professor, Literacy Studies, College of Education, Grand Valley State University “The real heroes are the librarians and teachers who, at no small risk to themselves, refuse to lie down and play dead for censors.” —Bruce Coville, bestselling author “The topic of this book—censorship—can strike fear in any educator's heart. So it is a delightful surprise that what seeps through these pages is love: love for the families whose concerns for their children, Pipkin and Lent remind us, are occasions for respectful engagement; and, above all, a deep love for books and the readers who are comforted, challenged, transported, and transformed by them.” —Maja Wilson, author of Rethinking Rubrics in Writing Assessment

Libertarian Mission in Mozambique Robert N. Faris, 2014-08-26 Few people have any extensive knowledge of the life and witness of the Protestant churches in the former Portuguese colonies of southern Africa. Yet these communities of faith played a significant role in the liberation struggles that led to the independence of both Mozambique and Angola and subsequently to the independence of Zimbabwe and the ending of apartheid in South Africa. In Mozambique, Eduardo Mondlane emerged from the Swiss Mission to become the first president of the Mozambique Liberation Front (FRELIMO). This book examines Mondlane's role in challenging the churches both in Mozambique and globally to support the struggle for independence through a renewed understanding of the *missio Dei*, God's liberating mission in the world. Mondlane maintained a strong connection with the World Council of Churches and was a key player in bringing about its Programme to Combat Racism after the 1968 Assembly in Uppsala before his assassination in 1969. This connection was to have important implications for the WCC's complex relationship with Mozambique and its Protestant churches following independence.

In Good Company Dinah Rajak, 2011-11-09 Under the banner of corporate social responsibility (CSR), corporations have become increasingly important players in international development. These days, CSR's union of economics and ethics is virtually unquestioned as an antidote to harsh neoliberal reforms and the delinquency of the state, but nothing is straightforward about this apparently win-win formula. Chronicling transnational mining corporation Anglo American's pursuit of CSR, In Good Company explores what lies behind the movement's marriage of moral imperative and market discipline. From the company's global headquarters to its mineshafts in South Africa, Rajak reveals how CSR enables the

corporation to accumulate and exercise power. Interested in CSR's vision of social improvement, Rajak highlights the dependency that the practice generates. This close examination of Africa's largest private sector employer not only brings critical attention to the dangers of corporate dominance, but also provides a lens through which to reflect on the wider global CSR movement.

The Hidden History of South Africa's Book and Reading Cultures Archie L. Dick, 2013-06-17 The Hidden History of South Africa's Book and Reading Cultures shows how the common practice of reading can illuminate the social and political history of a culture. This ground-breaking study reveals resistance strategies in the reading and writing practices of South Africans; strategies that have been hidden until now for political reasons relating to the country's liberation struggles. By looking to records from a slave lodge, women's associations, army education units, universities, courts, libraries, prison departments, and political groups, Archie Dick exposes the key works of fiction and non-fiction, magazines, and newspapers that were read and discussed by political activists and prisoners. Uncovering the book and library schemes that elites used to regulate reading, Dick exposes incidences of intellectual fraud, book theft, censorship, and book burning. Through this innovative methodology, Dick aptly shows how South African readers used reading and books to resist unjust regimes and build community across South Africa's class and racial barriers.

Extreme Punishment Keramet Reiter, Alexa Koenig, 2015-07-28 This ground-breaking collection examines the erosion of the legal boundaries traditionally dividing civil detention from criminal punishment. The contributors empirically demonstrate how the mentally ill, non-citizen immigrants, and enemy combatants are treated like criminals in Canada, the United Kingdom and the United States.
