**Losing It** Dorothy Chansky, 2023-08-09 This monograph is a study of American (U.S.) stage representations of dementia mounted between 1913 and 2019. Its imbricated strands are playtexts; audiences as both the targets of the productions (artifacts in the marketplace) and as anticipated determinants of legibility; and medical science, both as has been (and is) known to researchers and, more importantly, as it has been (and is) known to educated general audiences. As the Baby Boom generation finds itself solidly in the category of “Senior,” interest in plays that address personal and social issues around cognitive decline as a potentially frightening and expensive experience, no two iterations of which are identical, have, understandably, burgeoned. This study shines a spotlight on eleven dementia plays that have been produced in the United States over the past century, and seeks, in the words of medical humanities scholar Anne Whitehead, to “open up, and to hold open, central ethical questions of responsiveness, interpretation, responsibility, complicity and care.”

**Death of a Salesman: Certain Private Conversations in Two Acts and a Requiem** Arthur Miller, 1949

**The Worm at the Core** Sheldon Solomon, Jeff Greenberg, Tom Pyszczynski, 2015-05-12 A transformative, fascinating

theory—based on robust and groundbreaking experimental research—reveals how our unconscious fear of death powers almost everything we do, shining a light on the hidden motives that drive human behavior. More than one hundred years ago, the American philosopher William James dubbed the knowledge that we must die “the worm at the core” of the human condition. In 1974, cultural anthropologist Ernest Becker won the Pulitzer Prize for his book *The Denial of Death*, arguing that the terror of death has a pervasive effect on human affairs. Now authors Sheldon Solomon, Jeff Greenberg, and Tom Pyszczynski clarify with wide-ranging evidence the many ways the worm at the core guides our thoughts and actions, from the great art we create to the devastating wars we wage. *The Worm at the Core* is the product of twenty-five years of in-depth research. Drawing from innovative experiments conducted around the globe, Solomon, Greenberg, and Pyszczynski show conclusively that the fear of death and the desire to transcend it inspire us to buy expensive cars, crave fame, put our health at risk, and disguise our animal nature. The fear of death can also prompt judges to dole out harsher punishments, make children react negatively to people different from themselves, and inflame intolerance and violence. But the worm at the core need not consume us. Emerging from their research is a unique and compelling approach to these deeply existential issues: terror management theory. TMT proposes that human culture infuses our lives with order, stability, significance, and purpose, and these anchors enable us to function moment to moment without becoming overwhelmed by the knowledge of our ultimate fate. The authors immerse us in a new way of understanding human evolution, child development, history, religion, art, science, mental health, war, and politics in the twenty-first century. In so doing, they also reveal how we can better come to terms with death and learn to lead lives of courage, creativity, and compassion. Written in an accessible, jargon-free style, *The Worm at the Core* offers a compelling new paradigm for understanding the choices we make in life—and a pathway toward divesting ourselves of the cultural and personal illusions that keep us from accepting the end that awaits us all. Praise for *The Worm at the Core* “The idea that nearly all human individual and cultural activity is a response to death sounds far-fetched. But the evidence the authors present is compelling and does a great deal to address many otherwise intractable mysteries of human behaviour. This is an important, superbly readable and potentially life-changing book.”—*The Guardian* (U.K.) “A neat fusion of ideas borrowed from sociology, anthropology, existential philosophy and psychoanalysis.”—*The Herald* (U.K.) “Deep, important, and beautifully written, *The Worm at the Core* describes a brilliant and utterly original program of scientific research on a force so powerful that it drives our lives.”—Daniel Gilbert, Edgar Pierce Professor of Psychology, Harvard University, and author of *Stumbling on Happiness* “As psychology becomes increasingly trivial, devolving into the promotion of positive-thinking platitudes, *The Worm at the Core* bucks the trend. The authors present—and provide robust evidence for—a psychological thesis with disturbing personal as well as political implications.”—John Horgan, author of *The End of War* and director of the Center for Science Writings, Stevens Institute of Technology

*The Sinking Middle Class* David Roediger, 2022-06-21 The Sinking Middle Class challenges the “save the middle class” rhetoric that dominates our political imagination. The slogan misleads us regarding class, nation, and race. Talk of middle class salvation reinforces myths holding that the US is a providentially middle class nation. Implicitly white, the middle class becomes viewed as unheard amidst supposed concerns for racial justice and for the poor. Roediger shows how little the US has been a middle class nation. The term seldom appeared in US writing before 1900. Many white Americans were self-employed, but this social experience separated them from the contemporary middle class of today, overwhelmingly employed and surveilled. Today’s highly unequal US hardly qualifies as sustaining the middle class. The idea of the US as a middle class place required nurturing. Those doing that ideological work—from the business press, to pollsters, to intellectuals celebrating the results of free enterprise—gained little traction until the Depression and Cold War expanded the middle class brand. Much later, the book’s sections on liberal strategist Stanley Greenberg detail, “saving the middle class” entered presidential politics. Both parties soon defined the middle class to include over 90% of the population, precluding intelligent attention to the poor and the very rich. Resurrecting radical historical critiques of the middle class, Roediger argues that middle class identities have so long been shaped by debt, anxiety about falling, and having to sell one’s personality at work that misery defines a middle class existence as much as fulfillment.

A Critical Examination of the Recent Evolution of B2B Sales Cohn, Joel G., 2024-02-27 The seismic shifts in B2B selling brought about by the recent global pandemic have left scholars grappling with the fundamental question of permanence. As the traditional face-to-face dynamics of B2B sales stand challenged, academic minds seek answers: Are these changes enduring, or will we revert to the familiar norms of in-person interactions? A Critical Examination of the Recent Evolution of B2B Sales is a groundbreaking exploration designed for academic scholars seeking clarity in these uncertain times. In the pursuit for understanding, scholars encounter a myriad of questions. What truly transpired in sales activities during the pandemic? Does the surge in virtual selling signify a lasting transformation, or is it merely a temporary adaptation? Critical thinking becomes paramount, necessitating a deep dive into published ideas to discern the strength of conclusions drawn. The academic community grapples with the challenge of scrutinizing the landscape to determine if the changes are indeed permanent and if so, how B2B sales forces can effectively adapt.

The most significant change for this edition is the addition of Critical Race Theory (CRT) as an analytical lens. CRT offers teachers fresh opportunities for interdisciplinary planning and teaching, as it lends itself to lessons that encompass a variety of disciplines such as history, sociology, psychology, and science. As with the previous edition, each chapter concludes with a list of suggested nonfiction pieces that work well for the particular lens under discussion. This popular text provides a comprehensive approach to incorporating nonfiction and informational texts into the literature classroom with new and revised classroom activities appropriate for today's students. Book Features: Helps both pre- and inservice ELA teachers introduce contemporary literary theory into their classrooms.Offers lucid and accessible explications of contemporary literary theory.Provides dozens of innovative and field-tested classroom activities.Tackles the thorny issue of Critical Race Theory in helpful and practical ways. Praise for the Third Edition "What a smart and useful book! It provides teachers with a wealth of knowledge and material to help their students develop critical perspective and suppleness of thought." —Mike Rose, University of California, Los Angeles "This Third Edition proves that Appleman still has her hand on the pulse of the rapidly changing landscape of education." —Ernest Morrell, Teachers College, Columbia University "This new edition of Deborah Appleman's now classic book demonstrates even more dramatically than previously how the critical theories she so skillfully teaches serve not only as lenses for the reading of literature, but as tools for discovering, interrogating, and challenging injustice, hypocrisy, and the hidden power relations that students are likely to encounter." —Sheridan Blau, Teachers College, Columbia University

**The Prime of Life** Steven Mintz,2015-04-07 Steven Mintz reconstructs the emotional interior of a life stage too often relegated to self-help books and domestic melodramas. He describes the challenges of adulthood today and puts them into perspective by exploring how past generations achieved intimacy and connection, raised children, sought meaning in work, and responded to loss.

**American Drama in the Age of Film** Zander Brietzke,2007-06-28 Is theater really dead? Does the theater, as its champions insist, really provide a more intimate experience than film? If so, how have changes in cinematic techniques and technologies altered the relationship between stage and film? What are the inherent limitations of representing three-

dimensional spaces in a two-dimensional one, and vice versa? American Drama in the Age of Film examines the strengths and weaknesses of both the dramatic and cinematic arts to confront the standard arguments in the film-versus-theater debate. Using widely known adaptations of ten major plays, Brietzke seeks to highlight the inherent powers of each medium and draw conclusions not just about how they differ, but how they ought to differ as well. He contrasts both stage and film productions of, among other works, David Mamet's *Glenngarry Glen Ross*, Sam Shepard's *True West*, Edward Albee's *Who's Afraid of Virginia Woolf*, Margaret Edson's *Wit*, Tony Kushner's *Angels in America*, Tennessee Williams's *Cat on a Hot Tin Roof*, Arthur Miller's *Death of a Salesman*, and August Wilson's *The Piano Lesson*. In reading the dual productions of these works, Brietzke finds that cinema has indeed stolen much of theater's former thunder, by making drama more intimate, and visceral than most live events. But theater is still vital and matters greatly, Brietzke argues, though for reasons that run counter to many of the virtues traditionally attributed to it as an art form, such as intimacy and spontaneity. Brietzke seeks to revitalize perceptions of theater by challenging those common pieties and offering a new critical paradigm, one that champions spectacle and simultaneity as the most, not least, important elements of drama.

Identity and Theatre Translation in Hong Kong Shelby Kar-yan Chan, 2015-04-14 In this book, Shelby Chan examines the relationship between theatre translation and identity construction against the sociocultural background that has led to the popularity of translated theatre in Hong Kong. A statistical analysis of the development of translated theatre is presented, establishing a correlation between its popularity and major socio-political trends. When the idea of home, often assumed to be the basis for identity, becomes blurred for historical, political and sociocultural reasons, people may come to feel homeless and compelled to look for alternative means to develop the Self. In theatre translation, Hongkongers have found a source of inspiration to nurture their identity and expand their home territory. By exploring the translation strategies of various theatre practitioners in Hong Kong, the book also analyses a number of foreign plays and their stage renditions. The focus is not only on the textual and discursive transfers but also on the different ways in which the people of Hong Kong perceive their identity in the performances.

The Rhetoric of Intention in Human Affairs Gary C. Woodward, 2013-09-12 The Rhetoric of Intention in Human Affairs is an insightful account of the rhetorical and psychological habits we exhibit when we must explain the reasons others act. The assumption that we can know what motivates another person is fed by more hope than certainty, and yet it is evidence of a very human impulse. Beginning with a clear template for defining various tiers of motives-talk, this innovative and accessible study moves through a series of chapters exploring the unique demands imposed by different circumstances. These sections cut a wide swath of analysis across a diverse range of human actors including: conspiracy theorists who find the designs of coordinated agents behind random events, theater performers creating "backstories" for their characters, journalists grasping to name the motives of newsmakers, prosecutors who must establish another's intent in order to prove a criminal

act, and the devout who grapple with what divine intervention can mean in a cruel world. Readers will recognize themselves in these pages, gaining an appreciation for the rhetorical analysis of human behavior.

John Berger Iona Heath, 2024-07-13 Iona Heath relates the importance that John Berger's work and friendship had on her working life as a GP. It includes extracts from letters that span 20 years of her correspondence with John Berger. In this book, Iona Heath writes about reading John Berger's writing over more than 50 years and her friendship and correspondence with him over the best part of 20 years. Dr Heath found that both of these interacted profoundly with her work as a general practitioner in a deprived urban area in London. For Iona Heath, general practice is a quite extraordinary undertaking: every working day, sitting with a succession of unique individuals, each worried about some aspect of their health or life circumstances, many burdened by unspoken fears, and each seeking some form of answer. Starting with *A Fortunate Man*, when she was an ignorant but hopeful undergraduate medical student, she found reading John Berger on any subject had something new to tell her about the aspirations and detail of her work: clues about how to look and how to listen and much else. Later when they started to correspond, Iona Heath found herself in the privileged position of being able to check her understanding directly with the writer and on each occasion found deeper levels of awareness and insight. She is convinced that reading John Berger made her a better doctor.

*El Curso de la Raza* Thomas Ray Garcia, Aurelio Montemayor, 2023-12-14 *El Curso de la Raza: The Education of Aurelio Manuel Montemayor* tells the story of Chicano activist and self-described *fronterizo* Aurelio Manuel Montemayor, whose dual identities as an educator and political organizer informed his hitherto little-known role in developing a course, or *curso*, that cultivated Chicano leadership from the barrios. This memoir follows Montemayor during the formative periods of his life—his education, his teaching career, his political awakening—to describe the development of his critical consciousness in 1960s America. The book combines the personal and the political, leading readers along a journey of self-discovery that results in Montemayor's most consequential, yet relatively unknown, contribution to *el movimiento*, the *Curso de la Raza*. Along the way, Montemayor grapples with his Mexican and American identities, foregoes his literary pursuits in favor of uplifting *la raza*, and navigates the pitfalls of movement politics. From marching with the Mexican American Youth Organization to cofounding the first independent Chicano college, *Colegio Jacinto Treviño*, he recounts lesser-known events and projects of Chicano activism in South Texas. In doing so, he provides a more complete portrait of the Chicano movement through the lens of an educator-turned-activist from the borderlands. In *El Curso de la Raza*, Montemayor contextualizes his critical consciousness for twenty-first-century audiences. Much like the goals of the *Curso*, the book aims to educate readers about deriving pedagogy from oppression, historicity from personality, and contemporary insights from past shortcomings.

*International Handbook of Threat Assessment* J. Reid Meloy, Jens Hoffmann, 2021 This introductory chapter sets forth three foundations for threat assessment and management: the first foundation is the defining of basic concepts, such as

The goal of our chapter is to introduce the professional reader to the young scientific field of threat assessment and management, and to clarify and guide the seasoned professional toward greater excellence in his or her work--

The Vacuum Cleaner Maud Ellmann, 2024-07-25 This book offers an entertaining study of the facts and fantasies associated with the vacuum cleaner as it evolved from a luxury gimmick to a household necessity. The iconic appliance of twentieth-century domestic revolution, the vacuum cleaner stands at the forefront of radical changes in technology, automation, finance, marketing, hygiene, infrastructure, time-management, domestic labour, and the history of dirt. This appliance also insinuates itself into the dominant phobias of the period, including totalitarianism and nuclear war. Maud Ellmann shows how modern literature, art, and other media have transformed this humble domestic mod con into a curmudgeon, windbag, cannibal, vampire, dictator, infanticidal mother, freedom fighter, mantrap, and lothario.

Psychological Politics of the American Dream Lois Tyson, 1994 While it is reasonable to assume that our national literature would offer a fertile field in which to explore the interaction between the ideological and psychological dimensions of American life, critics generally have kept these two domains separate, and the dominant model has consisted of an archaic notion of the individual in society.
