Perturbation Theory James Wollrab,2011-04-12 Two Russian scientists in an underground laboratory in Saint Petersburg and American scientists aided by robots onboard an orbiting laboratory named Spacelab are racing to develop a class of virus capable of reading the memories locked in the brains of newly dead humans. In the course of the highly classified American effort, a former student of the lead American researcher discovers that certain of these viruses are capable of communicating with each other over great distances. Serious problems begin when the brains of living humans on both sides including two Russian cosmonauts, the lead American scientist and a United States senator are voluntarily and involuntarily exposed to the research viruses. They begin to hear unexplained voices communicating in their heads. After a Russian cosmonaut is observed onboard Spacelab and subsequently disappears, the Russians and Americans are forced to combine forces when it appears that an alien presence on the moon might be the root of all of their problems.

The West Versus the Rest and The Myth of Western Exceptionalism Imad A. Moosa,2023-02-28 In this book, the

author attempts to debunk some myths about Western exceptionalism and to evaluate critically the characteristics that make the West superior to the Rest. The author suggests that the West does not represent a homogenous group of countries and that the most common characteristic of the core Western countries is imperialism. The author goes on to provide a detailed critique of the proclaimed characteristics of Western countries, including democracy, human rights, judicial independence, transparency, the rule of law, and exclusive contribution to science and technology. A critique is presented of the views expressed by Samuel Huntington, Francis Fukuyama, and Niall Ferguson, arguing that they do not recognize the historical fact that civilizations rise and fall. It is argued that the Western economic system, which is based on neoliberalism, has adverse consequences for democracy, morality, and peace, as well as inequality, poverty, and homelessness. Written in a simple but powerful language, this book is a must read for those interested in international relations and anyone interested in current affairs.

Great Lost Albums Mark Billingham, David Quantick, Martyn Waites, Stav Sherez, 2014-09-25 We can all name the classic rock and pop albums of the last fifty years. But what about the great lost albums? The albums that fell behind the back of the musical sofa? The albums that, in a very real sense, have been completely made up by the authors of this book? It took a bestselling crime writer or three to hunt down these fifty lost classics, and an award-winning TV comedy scriptwriter to buy them a pint and make them write it. From the 60s to the 00s, with track listings and full histories, Great Lost Albums reveals the recordings that - just perhaps - never existed, but really should have done. Albums include: · Bob Dylan's legendary collaboration with Liberace · Joy Division's 'musical theatre' period · Coldplay's IKEA Sessions, including 'Conscious Uncoupling (See Leaflet for Details)' and 'In my Place (There's a Lovely HEMNES Shelving System)' · The Who's magisterial, abandoned rock opera 'Bingo Wizard' · Kraftwerk's hastily deleted Christmas album, featuring the melancholic classic 'I Wish to Return this Item' ...and many, many more.

Movies of the '90s Riley Webster, 2023-10-19 The 1990s was an amazing decade for movies, witnessing the release of dozens of incredible films, including *The Matrix*, *The Shawshank Redemption*, *Pulp Fiction*, *Goodfellas*, *Fargo*, *Jurassic Park*, and so many more. Despite this embarrassment of riches, author Riley Webster believes this decade has never received as much praise or as many kudos as it deserves—until now. Hollywood Virgin Jason Felts, 2025-02-04 Hollywood Virgin is more than a tell-all memoir about the business of show business from the founder and CEO of Virgin's entertainment company—it's about hustle, risk-taking, sudden success, insider realizations, self-discovery, breakdowns, and walking away before you lose everything... alongside plenty of behind-the-screen shockers, celebrity stories, and yes, a bathrobe or two. Growing up in small-town Texas, Jason Felts dreamed of being in Hollywood. He made his way to California, started his own production company at 23, was named to *Variety's* "Top 10 to Watch" list, rubbed elbows with famous faces daily, and rose quickly to build and lead a multi-million dollar entertainment company for Virgin, one of the world's most respected brands—so why did he walk away at such a young age? Jason recounts how he diligently pursued opportunities in the entertainment industry, quickly working his way up from small-time, thankless jobs serving the most powerful, to becoming a key industry player himself, making incredible things happen behind the scenes that no one ever knew—until now. Join him as he spills never-told-before tea, sharing how he lost his Hollywood virginity by: Creating and producing the first show that put a Kardashian on TV Turning access into authentic relationships and partnerships with stars such as Jessica & Ashlee Simpson, will.i.am, Justin Berfield, among many others The origin story behind founding and running an award winning Virgin branded company—and having Sir Richard Branson as a mentor Pitching films and shows with names such Halle Berry, Courteney Cox, and Oliver Stone Being tapped as the youngest CEO (only after Branson himself) to ever run a Virgin company Coming out of the closet to take action publicly as a founding board member of the PULSE foundation in the aftermath of the Orlando nightclub shooting Planning and joining the Obama's on their first post-presidency vacation the day they left the White House, and taking the former President's life changing advice Alongside more misadventures, hijinks, hits and flops, and hiding from bad headlines... Hollywood Virgin is Jason's

journey of discovering what happens when you achieve more than you imagined and find that the excess isn't enough. With no stone unturned, this raw and real insider look provides a peek behind the scenes of an industry very few really know. Jason elegantly removes the concealer off the powerful, fake, and dishonest power players at the same time he equally shines light on the authentic, selfless, or lesser known stories in Hollywood. For all those working hard towards fulfilling their dreams, learn and be inspired from his anything-but-straightforward career.

Plateaus of Freedom Mark Kristmanson, 2003-12-15 'Canadians are not accustomed to thinking of censorship, secret intelligence, and propaganda as a single entity. Much less do they consider that these covertly militaristic activities have anything to do with culture.' So writes Mark Kristmanson in this important study of the intertwining activities and careers of those involved in Canada's security agencies and in the state-sanctioned culture industry during the height of the Cold War. The connections between secret intelligence and culture might appear to be merely coincidental. Both the spies and the arts people worked with words, with symbols and hidden meanings, with ideas. They had regular informal luncheons together in Ottawa. Some members of the intelligence community even found careers in the arts. Less than a decade after defecting, the Russian Igor Gouzenko wrote a pulp fiction Cold War spy novel- for which he received a Governor General's award. And Peter Dwyer, Britain's top security official in North America during World War II, was a playwright who after the war worked in Canada's intelligence community before drafting the founding for the Canada Council and becoming its first director. But Plateaus of Freedom details much more than a casual relationship between security and the arts. As Kristmanson demonstrates, 'the censorship-intelligence-propaganda complex that proliferated in Canada after World War II played a counterpoint between national culture and state security, with the result that freedom, especially intellectual freedom, plateaued on the principle of nationality.' The security and cultural policy measures examined here, from the RCMP investigations at the National Film Board that led to numerous firings, to the harassment of the extraordinary African-American singer and Soviet sympathizer Paul Robeson, 'attest to the fragility and the enduring power of art to effect social

change'.

Desperate Times Hildred Billings,2019-12-21 Is it possible to be so much alike that you're completely incompatible? Tess and Sidney have both committed the greatest online dating faux pas possible: uploading old pictures. When the two tough butches meet at a small town bar, they think they're getting the femmes of their dreams. So begins the awkward - yet sordid - acquaintance of the only two lesbians in town. Local rancher Tess doesn't have time for women who aren't her type, and new-girl-in-town Sidney isn't interested in someone who only sees her as a piece of fresh meat. Yet they keep bumping into each other... is it fate, or just small town karma? A bad date turns into a one-night stand. A one-night stand turns into a casual relationship. A casual relationship becomes Sidney's greatest amusement, and Tess's biggest nightmare as she's slowly forced out of the closet in conservative River Rock. Desperate times are afoot in the sleepy, gossipy hamlet of rural America. It's going to take more than nerves of steel to survive the isolationism and people with nothing better to do than ruin their neighbors' lives. It's going to take a whole lotta introspection - and love. (And no-holds-barred carnality. Let's be real.)
