Breaking the Sequence Ellen G. Friedman,Miriam Fuchs,2014-07-14 These nineteen essays introduce the rich and until now largely unexplored tradition of women's experimental fiction in the twentieth century. The writers discussed here range from Gertrude Stein to Christine Brooke-Rose and include, among others, Virginia Woolf, Jean Rhys, Jane Bowles, Marguerite Young, Eva Figes, Joyce Carol Oates, and Marguerite Duras. Friedman and Fuchs demonstrate the breadth of their research, first in their introduction to the volume, in which they outline the history of the reception of women's experimental fiction, and analyze and categorize the work not only of the writers to whom essays are devoted but of a number of others, too; and second in an extensive and wonderfully useful bibliography.--Emma Kafalenos, *The International Fiction Review* After an introduction that is practically itself a monograph, eighteen essayists (too many of them distinguished to allow an equitable sampling) take up three generations of post-modernists.--American Literature The editors see this volume as part of the continuing feminist project of the `recovery and foregrounding of women writers.' Friedman and Fuchs's substantive introduction excellently synthesizes the issues presented in the rest of the volume.--Patrick D. Murphy, *Studies in the Humanities* Originally published in 1989. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

A Deeper Grave Debra Webb, 2017-05-30 A vigilante teams with a cop to stop a copycat killer in this romantic suspense thriller by the USA Today–bestselling author of *No Darker Place*. Serial-killer hunter Nick Shade built his legendary career chasing monsters—sadistic criminals with a gruesome thirst for death. When he rescued Montgomery detective Bobbie Gentry from horrific captivity and helped her reclaim her life, he didn't intend to be a hero. Or a target. But now a copycat murderer haunts him, and reuniting with Bobbie is his best chance at neutralizing the threat. Bobbie can't forget the nightmares of her trauma—or the man who saved her. Working with Nick to outmaneuver the person behind a deadly vendetta feeds her hope that there's more to her world than ghosts and destruction. Maybe joining Nick's search for a killer is about gratitude. Maybe it's nothing more than cold revenge. But the only way they can protect themselves is to trust each other. Praise for *No Darker Place* "A dark, twisted game of cat and mouse! Debra Webb mines our innermost fears as a police detective takes on a serial killer with help from an unexpected ally—or is he the bigger threat? You will fly through the pages of this action-packed thriller!" —Lisa Gardner, #1 New York Times Bestseller

Mortality and Causes of Death in 20th-Century Ukraine France Meslé, Jacques Vallin, 2012-01-08 The Ukraine faced two very different kinds of health crises during the twentieth century. First, in the 1930s and 1940s, famine, war and political upheaval caused massive population losses. Previous evaluations of overall losses have given an idea of the scale of these catastrophes but do not distinguish between crisis mortality, birth shortfall and loss through emigration. Based on a painstaking work of reconstitution, this study is the first to provide a detailed estimation of the hecatomb in terms of number of deaths and life expectancy. The famine of 1933 was alone responsible for the deaths of 2.6 million Ukrainians and reduced male and female life expectancies to 7 and 11 years respectively. Once the crises of the 1930s and 1940s were over, the earlier trend in health resumed and mortality declined steadily until the 1960s. At this point, however, a new type of crisis appeared that caused a sustained reversal in the existing trends. Life expectancy for women stopped increasing altogether, while that for men began a relentless year on year regression. Notwithstanding the confusing picture created by the fluctuations of the 1980s and 1990s, the long-term trend is to further deterioration. To understand the factors involved, this study analyses in detail the combined effects of different causes of death at different ages.

The Guardian Elicia Hyder, 2019-11-22 The mission was supposed to be simple: Get in. Save the girl. Get the hell out. But Warren Parish knows nothing is simple with demons involved, and storming the gates of Hell will be no exception. An innocent woman is trapped in Nulterra, but this journey is so much more than a rescue mission. Along with his new enchanted sword capable of killing angels, it seems the demons have forged another powerful object... A magical stone that can grant him what he wants most in all three realms—a life on Earth with his daughter.

Wrath E.H. Reinhard,2017-11-21 He'd killed before. Infidelity made him kill again. Now taking the lives of all the women who've wronged him is his only focus. In this tightly plotted thriller, homicide lieutenant Nash Harrington realizes one horrific crime of passion is the beginning of a spree. A misogynistic killer is targeting every woman he believes has wronged him... including one who Harrington loves. *Wrath* is the first novel in the can't-miss, read-all-night, Lieutenant Harrington Series. Believable plots (and that's what's troubling) set the stage for some dark and gritty cop vs. killer action in the streets of Miami. Join Nash and his team as they pursue justice for the innocent and go head to head with some of the most ruthless and homicidal adversaries imaginable.
