Our Social World: Condensed Jeanne H. Ballantine,Keith A. Roberts,Kathleen Odell Korgen,2019-07-09 Our Social World: Condensed, by Jeanne H. Ballantine, Keith A. Roberts, and Kathleen Odell Korgen, inspires you to develop your sociological imaginations, to see the world and personal events from a new perspective, and to confront sociological issues on a day-to-day basis. The award-winning author team organizes the text around the Social World model, a conceptual framework that demonstrates the relationships among individuals (the micro level); organizations, institutions, and subcultures (the meso level); and societies and global structures (the macro level). The use of the Social World Model across chapters (represented in a visual diagram in the chapter openers) helps you to develop the practice of using three levels of analysis, and to view sociology as an integrated whole, rather than a set of discrete subjects. The Condensed version is adapted from Our Social World: Introduction to Sociology. The Sixth Edition of the Condensed version is made approximately 30% shorter than the full edition by removing selected boxes, editing the main narrative, and combining four chapters into two (Family/Education, and Politics/Economics).

Family Criminology Amanda Holt, 2021-08-17 This full-colour textbook offers a fresh conceptual approach to understanding the intersections of crime, criminal justice and family life. In doing so, it proposes a brand new sub-discipline of Criminology that places the family at the heart of its analysis, offering a groundbreaking approach to the study of crime and deviance. Adopting an interdisciplinary perspective, this introductory text explores topics from across the spectrum of criminological scholarship, including youth justice, prisons, organized crime, family violence and homicide, and victimology. By drawing together these distinct topics and identifying and discussing their familial connections, this book argues for the

importance of family life in the theory and practice of crime and justice. Key questions discussed throughout the text include: How does the criminal justice system engage with families across different contexts? In what ways do crime and criminal justice processes impact on family life? In what ways can families transform the criminal justice system for the betterment of all? This book challenges commonly-held and simplistic assumptions about what the family is in relation to crime and justice and, by doing so, engages in deeper debates about human rights, social justice and the role of the state in relation to families and crime. It includes pedagogic features including conceptual toolboxes, questions for reflection, textboxes, a glossary and interviews with practitioners.

An Introduction to Multilingualism Florian Coulmas, 2018 This book offers an introduction to the many facets of multilingualism in a changing world. It begins with an overview of the multiplicity of human languages and their geographic distribution, before moving on to the key question of what multilingualism actually is and what is understood by terms such as 'mother tongue', 'native speaker', and 'speech community'. In the chapters that follow, Florian Coulmas systematically explores multilingualism with respect to the individual, institutions, cities, nations, and cyberspace. In each of these domains, the dynamics of language choice are undergoing changes as a result of economic, political, and cultural forces. Against this background, two chapters discuss the effects of linguistic diversity on the integration and separation of language and society, before a final chapter describes and assesses research methods for investigating multilingualism. Each chapter concludes with problems and questions for discussion, which place the topic in a real-world context. The book explores where, when, and why multilingualism came to be regarded as a problem, and why it presents a serious challenge for linguistic theory today. It provides the basic tools to analyse different kinds of multilingualism at both the individual and society level, and will be of interest to students of linguistics, sociology, education, and communication studies.
