The Strategic Planning Process Marios Katsioloudes,Arpi K Abouhanian,2016-12-14 Strategic management is a field that has diversity in approach and scope, but relative homogeneity in pedagogy. This book, a refreshed edition of its successful predecessor, brings something different to the field, by concisely introducing it with a focus on doing business in the Middle East and North Africa. Supplemented by online case studies and other resources, the reader is exposed to a plethora of concepts, theories, practical implications, and experiential exercises in the strategic management process. The updated text explores key regional issues, including the Arab Spring, economic recession, corporate social responsibility, the role of women in business and the rise of emerging economies. The reader is encouraged to look at the world in light of the challenges many organizations are facing around the globe. Features like Stop and Think Critically and Focus points throughout each chapter encourage and inspire a thoughtful reading of the text. This is a book designed to aid undergraduate and graduate students, as well as managers in both for-profit and non-profit sectors. The authors guides the reader through both new and ongoing issues in the field of strategic management, and allow them to foster a greater understanding of this ever-developing field.

The Professional Product Owner Don McGreal,Ralph Jocham,2018-06-04 The Professional Product Owner's Guide to Maximizing Value with Scrum "This book presents a method of communicating our desires, cogently, coherently, and with a minimum of fuss and bother." —Ken Schwaber, Chairman & Founder, Scrum.org The role of the Product Owner is more crucial than ever. But it's about much more than mechanics: it's about taking accountability and refocusing on value as the primary objective of all you do. In The Professional Product Owner, two leading experts in successful Scrum product

ownership show exactly how to do this. You'll learn how to identify where value can be found, measure it, and maximize it throughout your entire product lifecycle. Drawing on their combined 40+ years of experience in using agile and Scrum in product management, Don McGreal and Ralph Jocham guide you through all facets of envisioning, emerging, and maturing a product using the Scrum framework. McGreal and Jocham discuss strategy, showing how to connect Vision, Value, and Validation in ROI-focused agile product management. They lay out Scrum best-practices for managing complexity and continuously delivering value, and they define the concrete practices and tools you can use to manage Product Backlogs and release plans, all with the goal of making you a more successful Product Owner. Heartland TV Victoria E. Johnson, 2008-01-01 Winner of the 2009 Society for Cinema and Media Studies Katherine Singer Kovacs Book Award The Midwest of popular imagination is a Heartland characterized by traditional cultural values and mass market dispositions. Whether cast positively —; as authentic, pastoral, populist, hardworking, and all-American—or negatively—as backward, narrow-minded, unsophisticated, conservative, and out-of-touch—the myth of the Heartland endures. Heartland TV examines the centrality of this myth to television's promotion and development, programming and marketing appeals, and public debates over the medium's and its audience's cultural worth. Victoria E. Johnson investigates how the square image of the heartland has been ritually recuperated on prime time television, from The Lawrence Welk Show in the 1950s, to documentary specials in the 1960s, to The Mary Tyler Moore Show in the 1970s, to Ellen in the 1990s. She also examines news specials on the Oklahoma City bombing to reveal how that city has been inscribed as the epitome of a timeless, pastoral heartland, and concludes with an analysis of network branding practices and appeals to an imagined red state audience. Johnson argues that non-white, queer, and urban culture is consistently erased from depictions of the Midwest in order to reinforce its reassuring image as white and straight. Through analyses of policy, industry discourse, and case studies of specific shows, Heartland TV exposes the cultural function of the Midwest as a site of national transference and disavowal with regard to race, sexuality, and citizenship ideals.
