Fantastic Spiritualities J'annine Jobling, 2010-07-01 In this work Jobling argues that religious sensibility in the Western world is in a process of transformation, but that we see here change, not decline, and that the production and consumption of the fantastic in popular culture offers an illuminating window onto spiritual trends and conditions. She examines four major examples of the fantastic genre: the Harry Potter series (Rowling), His Dark Materials (Pullman), Buffy the Vampire Slayer (Whedon) and the Earthsea cycle (Le Guin), demonstrating that the spiritual universes of these four iconic examples of the fantastic are actually marked by profoundly modernistic assumptions, raising the question of just how contemporary spiritualities (often deemed postmodern) navigate philosophically the waters of truth, morality, authority, selfhood and the divine. Jobling tackles what she sees as a misplaced disregard for the significance of the fantasy genre as a worthy object for academic investigation by offering a full-length, thematic, comparative and cross-disciplinary study of the four case-studies proposed, chosen because of their significance to the field and because these books have all been posited as exemplars of a 'postmodern' religious sensibility. This work shows how attentiveness to spiritual themes in cultural icons can offer the student of theology and religions insight into the framing of the moral and religious imagination in the late twentieth and twenty-first centuries and how this can prompt traditional religions to reflect on whether their own narratives are culturally framed in a way resonating with the 'signs of the times'.

Disturbing the Universe Roberta S. Trites,1998-04-01 The Young Adult novel is ordinarily characterized as a coming-of-age story, in which the narrative revolves around the individual growth and maturation of a character, but Roberta Trites expands this notion by chronicling the dynamics of power and repression that weave their way through YA books. Characters in these novels must learn to negotiate the levels of power that exist in the myriad social institutions within which they function, including family, church, government, and school. Trites argues that the development of the genre over the past thirty years is an outgrowth of postmodernism, since YA novels are, by definition, texts that interrogate the social construction of individuals. Drawing on such nineteenth-century precursors as *Little Women* and *Adventures of Huckleberry Finn*, *Disturbing the Universe* demonstrates how important it is to employ poststructuralist methodologies in analyzing adolescent literature, both in critical studies and in the classroom. Among the twentieth-century authors discussed are Blume, Hamilton, Hinton, Le Guin, L'Engle, and Zindel. Trites' work has applications for a broad range of readers, including scholars of children's literature and theorists of post-modernity as well as librarians and secondary-school teachers. *Disturbing the Universe: Power and Repression in Adolescent Literature* by Roberta Seelinger Trites is the winner of the 2002 Children's Literature Association's Book Award. The award is given annually in order to promote and recognize outstanding contributions to children's literature, history, scholarship, and criticism; it is one of the highest academic honors that can accrue to an author of children's literary criticism.

The fantasy fiction formula Deborah Chester,2016-01-01 There's more to writing a successful fantasy story than building a unique world or inventing new magic. How exactly is a plot put together? How do you know if your idea will support an entire novel? How do you grab reader attention and keep it? How do you create dynamic, multi-dimensional characters? What is viewpoint and do you handle it differently in urban fantasy than in traditional epics? What should you do if you're lost in the middle? How do you make your plot end up where you intend it to go? From the writing of strong, action-packed scenes to the handling of emotions, let award-winning fantasy author Deborah Chester guide you through the process of putting a book together. Convinced there's no need to shroud the writing process under a veil of mystery, Chester supplies tips that are both practical and proven. They are exactly what she uses in writing her own novels and what she teaches in her writing courses at the University of Oklahoma. Along with explaining story construction step-by-step, Chester illustrates each technique with examples drawn from both traditional and urban fantasy. The technique chapters include exercises to assist novices in mastering the craft of writing fantasy as well as suggestions for avoiding or solving plot problems. More

experienced writers will find tips for taking their work to the next level. With an introduction by author Jim Butcher, *The fantasy fiction formula* provides the information you need to gain skill and proficiency in writing fantasy like a pro.

Differently Literate Elaine Millard, 2002-09-26 Presents research into the differences in boy's and girl's experiences of the reading and writing curriculum at home and in school. The book is presented in three sections: an outline of the theoretical debates on gender difference and academic achievement; a description of the research into these issues conducted by the author; and an analysis of the author's findings. In discussing the outcome of her research, the author aims to highlight further areas for more detailed study and makes recommendations for the development of literacy policies, which cross curriculum boundaries in schools.

Island Genres, Genre Islands Ralph Crane, Lisa Fletcher, 2017-02-03 'Island Genres, Genre Islands' moves the debate about literature and place onto new ground by exploring the island settings of bestsellers. Through a focus on four key genres—crime fiction, thrillers, popular romance fiction, and fantasy fiction—Crane and Fletcher show that genre is fundamental to both the textual representation of real and imagined islands and to actual knowledges and experiences of islands. The book offers broad, comparative readings of the significance of islandness in each of the four genres as well as detailed case studies of major authors and texts. These include chapters on Agatha's Christie's islands, the role of the island in 'Bondspace,' the romantic islophilia of Nora Roberts's Three Sisters Island series, and the archipelagic geography of Ursula Le Guin's Earthsea. Crane and Fletcher's book will appeal to specialists in literary studies and cultural geography, as well as in island studies.

The Lives of Texts Andrzej Kowalczyk, Katarzyna Pisarska, 2014-07-24 *The Lives of Texts: Exploring the Metaphor* examines various instances of "textual subsistence" implied by the title. Drawing on the parallel between a text and a living organism, the contributors analyze various literary texts ranging from the Middle Ages to postmodernity, as well as film adaptations and the graphic novel. Apart from the works of canonical writers, attention is also drawn to some long-forgotten authors, along with the most recent instances of popular literature and culture. The exploration of the title metaphor allows the contributors to trace life-like phenomena (e.g. textual birth, maturation, dissemination, death and resurrection) in the texts of writers so remote from each other as Layamon, Thomas More, Mary Shelley, Charles Williams, Ursula Le Guin, A. S. Byatt, Peter Ackroyd, Iain Banks, J. K. Rowling, or Neil Gaiman.

Science Fiction Literature through History Gary Westfahl, 2021-07-19 This book provides students and other interested readers with a comprehensive survey of science fiction history and numerous essays addressing major science fiction topics, authors, works, and subgenres written by a distinguished scholar. This encyclopedia deals with written science

fiction in all of its forms, not only novels and short stories but also mediums often ignored in other reference books, such as plays, poems, comic books, and graphic novels. Some science fiction films, television programs, and video games are also mentioned, particularly when they are relevant to written texts. Its focus is on science fiction in the English language, though due attention is given to international authors whose works have been frequently translated into English. Since science fiction became a recognized genre and greatly expanded in the 20th century, works published in the 20th and 21st centuries are most frequently discussed, though important earlier works are not neglected. The texts are designed to be helpful to numerous readers, ranging from students first encountering science fiction to experienced scholars in the field.

Studio Ghibli Animation as Adaptations Dominic J. Nardi, Keli Fancher, 2025-05-15 This collection investigates how Hayao Miyazaki, Isao Takahata, and other Studio Ghibli storytellers have approached the process of reimagining literary sources for animation. Studio Ghibli is renowned for its original storytelling in films like *My Neighbor Totoro*, but many of its most famous films, including *Howl's Moving Castle* and *Ponyo*, have their origins in pre-existing novels, manga, or fairy tales. Studio Ghibli's adaptations seldom directly translate source material to animation, but instead transform the works to incorporate themes or imagery central to the studio's sensibilities. *Studio Ghibli Animation as Adaptations* explores how these adaptations often blur genre boundaries and raise questions about what constitutes fidelity to source material. The collection also shows how the studio reinterprets and recontextualizes stories across cultures for Japanese audiences and across mediums like manga.

From Homer to Harry Potter Matthew Dickerson, David O'Hara, 2006-05-01 The allure of fantasy continues to grow with film adaptations of *The Lord of the Rings* and J. K. Rowling's *Harry Potter* series. But how should Christians approach modern works of fantasy, especially debated points such as magic and witches? *From Homer to Harry Potter* provides the historical background readers need to understand this timeless genre. It explores the influence of biblical narrative, Greek mythology, and Arthurian legend on modern fantasy and reveals how the fantastic offers profound insights into truth. The authors draw from a Christian viewpoint informed by C. S. Lewis and J. R. R. Tolkien to assess modern authors such as Philip Pullman, Walter Wangerin, and J. K. Rowling. This accessible book guides undergraduate students, pastors, and lay readers to a more astute and rewarding reading of all fantasy literature.

Choosing and Using Fiction and Non-Fiction 3-11 Margaret Mallett, 2010-07-02 Winner of the United Kingdom Literacy Association's Author Award 2011 for its contribution to extending children's literacy. Praise for the book: 'This book is about making readers. A compact summary of its contents would not do it justice. It is the account of a life's work and it deserves thanks and readers. *****'. - Margaret Meek, Books for Keeps on-line, Number 185, November 2010. 'This book is a cornucopia of varied pleasures, offering something for all tastes, presented with an awareness of the complexities of the field and communicated with commitment, enthusiasm and deep knowledge'. - Eve Bearne, English 4-11, the primary school

journal of The English Association, Number 42, Summer 2011. Choosing and Using Fiction and Non-Fiction 3-11 is a guide to the many kinds of text we want children to encounter, use and enjoy during their nursery and primary school years. So children's non-fiction literature - including autobiography, biography, information and reference texts - is given equal status with fiction - nursery rhymes, picturebooks, novels, traditional tales, playscripts and poetry. The author addresses important issues and allows the voices of teachers, reviewers and children to be heard. The book supports teachers as they help children on their journey to becoming insightful and critical readers of non-fiction and sensitive and reflective readers of fiction. It also contains suggestions for practice which are in the spirit of the more flexible and creative approach to learning towards which primary schools are moving. It includes: help on using criteria to select quality texts of all kinds; annotated booklists for each kind of text for different age groups; suggestions for keeping a balance between print and screen-based texts; case studies showing teachers and children using texts in interesting and imaginative ways to support learning in English lessons and across the curriculum; advice on developing children's visual and multimodal literacy; guidance on using the school library and embedding study skills in children's wider purposes and learning; critiques of key theoretical perspectives and research projects. Although the main readership will be primary and student teachers, it is hoped that the book will be of interest and use to anyone concerned with the role of texts in children's learning.

Deconstructing the Starships Gwyneth Jones,1999-04-01 The subject matter of this collection is varied, but displays Jones' stance as a practising SF writer and a feminist; the writing is characterised by both an incisive engagement with the texts and a refusal to dress that engagement in jargon. This very readable book provides insight into the work of one of our most interesting writers and presents strong - sometimes even subversive - views of a range of modern SF and fantasy.
