What Is Religious Authority? Ismail Fajrie Alatas,2021-06-22 An anthropologist's groundbreaking account of how Islamic religious authority is assembled through the unceasing labor of community building on the island of Java This compelling book draws on Ismail Fajrie Alatas's unique insights as an anthropologist to provide a new understanding of Islamic religious authority, showing how religious leaders unite diverse aspects of life and contest differing Muslim perspectives to create distinctly Muslim communities. Taking readers from the eighteenth century to today, Alatas traces the movements of Muslim saints and scholars from Yemen to Indonesia and looks at how they traversed complex cultural settings while opening new channels for the transmission of Islamic teachings. He describes the rise to prominence of Indonesia's leading Sufi master, Habib Luthfi, and his rivalries with competing religious leaders, revealing why some Muslim voices become authoritative while others don't. Alatas examines how Habib Luthfi has used the infrastructures of the Sufi order and the Indonesian state to build a durable religious community, while deploying genealogy and hagiography to present himself as a successor of the Prophet Muḥammad. Challenging prevailing conceptions of what it means to be Muslim, What Is Religious Authority? demonstrates how the concrete and sustained labors of translation, mobilization, collaboration, and competition are the very dynamics that give Islam its power and diversity.

'Fragile States' in an Unequal World Isabel Rocha de Siqueira,2022-10-26 This is a book about people. 'Fragile States' in an Unequal World: The Role of the g7+ in International Diplomacy and Development Cooperation introduces the members of the g7+, a group formed by 20 conflict-affected states: why they came to believe in politics and policy; how they feel about their work, their family and their communities; and what they want to leave behind for the next generations. It is the story of their personal and collective values, their mistakes, and the challenges they faced, and it will resonate with anyone who has tried to organize and work with a group of very different people. This book is also a contribution for those seeking to influence international policy, especially from a disadvantageous position. It explores how to find your voice, use your survival skills, work with passion, decide how much to concede and act responsibly. Together, these lessons illuminate the paths that individual members have walked as they found their own voices, as well as how the g7+ fights to speak

collectively. The book ends with a glimpse of the way forward, as Isabel Rocha de Siqueira encourages younger generations to engage with politics and policy generously, with hope for the future. Combining literature and hard facts – along with other elements such as illustrations, cartoon strips and photographs to tell the previously untold stories of public servants in poor, conflict-affected countries, the book offers an original (and very human) micro and macro perspective on the politics of development. It will be of interest to professionals in major development organisations, students and professors in development courses, policymakers, public servants, civil society, activists working for major international NGOs, and journalists who report on the development industry, as well as those with a general interest in international development cooperation, international diplomacy and other related fields.

They soon discover they must fight for their lives against the aliens and the Government forces.
