

Why Is Surrogacy Illegal In Spain

Joseph G. Schenker, Andrea R. Genazzani, John J. Sciarra, Liselotte Mettler, Martin H. Birkhaeuser

A Critical Evaluation of Legal & Social Aspects of Surrogacy in India Dr. Manpreet Kaur Rajpal, 2022-08-30 Surrogacy is an arrangement, often supported by a legal agreement, whereby a woman agrees to delivery/labour for another person or people, who will become the child's parent(s) after birth. People may seek a surrogacy arrangement when pregnancy is medically impossible, when pregnancy risks are dangerous for the intended mother, or when a single man or a male couple wish to have a child. Surrogacy is considered one of many assisted reproductive technologies. In surrogacy arrangements, monetary compensation may or may not be involved. Receiving money for the arrangement is known as commercial surrogacy. The legality and cost of surrogacy varies widely between jurisdictions, sometimes resulting in problematic international or interstate surrogacy arrangements. Couples seeking a surrogacy arrangement in a country where it is banned sometimes travel to a jurisdiction that permits it. In some countries, surrogacy is legal only if money does not exchange hands.

Fundamental legal problems of surrogate motherhood. Global perspective. Piotr Mostowik, Marta Soniewicka, Nathalie Baillon-Wirtz, Mirosław Boruta, Justyna Holocher, Błażej Kmiecik, Ewa Kozerska, Tomasz Scheffler, Katażyna Mikša, Natalja Žitkevič, Avishalom Westreich, Andrea Nicolussi, Andrei A. Novikov, Carlos Martínez de Aguirre, Monika Wałachowska, Alla Anatoliivna Herts, Witold Borysiak, Agnieszka Czubik, Łukasz Mirocha, Agata Niżnik-Mucha, Aleksandra Dębowska, Marcin Sokołowski, Agnieszka Wedeł-Domaradzka, Olga Bobrzyńska, Dita Frintová, Ondřej Frinta, Janusz Gajda, Rafał Łukasiewicz, Elena Júdová, Martin Píry, Wojciech Lis, Piotr Telusiewicz, Michał Wojewoda, Edyta Figura-Góralczyk, Radosław Flejszar, Piotr Rodziewicz, Konrad Burdziak, Łukasz Pohl, Wojciech Górowski, Agnieszka Laber, Dominik Zając, Karolina Sęk, 2019-07-01 The observation that mater semper certa est remains accurate under most legal systems in the world. Maternity is defined as the personal status (filiation) of a woman who gave birth to a child. It is typically complemented by the fatherhood of the man from whom the child biologically originates (often quem nuptiae demonstrant). However, in some states, a kind of competitive way of acquiring the legal status of mother and father (or “homosexual parents A and B”) has been introduced via concluding a contract with a surrogate mother. Usually with a woman coming from poorer societies and with the assistance of professional intermediaries and organizers. The postulates to change substantive family law, or at least to recognize the effects of foreign law and procedures (a kind of “procreative tourism”), appear nowadays also in states

generally prohibiting surrogate motherhood. The issues discussed in this volume concern both national law and international court cases. Recent examples include the opinion of the European Court of Human Rights of 10 April 2019 initiated by the French Cour de cassation, the judgement of the German Bundesgerichtshof of 20 March 2019, and dilemmas of Polish administrative courts. Focusing on the international perspective, the present volume as well as an accompanying book in Polish are the results of the international cooperation of over 30 experts from both member states and observer states of the Council of Europe. The monograph is structured “from the general to the detail” and includes a comprehensive view as well: from the issues of philosophy and sociology of law, to human rights standards of national constitutions and international agreements, to principles of ordre public of forum and their protection with measures of private, public, and penal law. This allows readers, including legislators and judges, the better understanding of the fundamental legal problems that surrogate motherhood brings, both in states where law creates them in a narrower or wider extent, and in other countries of the world, to which these problems can be imported with the movement of people and with de lege lata and de lege ferenda postulates.

Transnational Commercial Surrogacy and the (Un)Making of Kin in India Anindita Majumdar, 2017-06-29 As commercial surrogacy in India dominates public conversations around reproduction, new kinds of families, and changing trends in globalization, its lived realities become an important aspect of emerging research. This book maps the way in which in vitro fertilization (IVF) specialists, surrogacy agents, commissioning couples, surrogate mothers, and egg donors contribute to the understanding of interpersonal relations in the process of commercial surrogacy. In this book, Majumdar draws from a context that is enmeshed in the local-global politics of reproduction, including the ways in which the transnational commercial surrogacy arrangement has led to an ongoing debate regarding ethics and morality in the sphere of reproductive rights. In weaving together the diverse, often conflicting experiences of individuals and families, the transnational commercial surrogacy arrangement comes alive as a process mirroring larger societal anxieties with reference to technological interventions in intimate relationships. It is these anxieties, dilemmas, and their negotiations to which the book is addressed.

SURROGACY IN INDIA SYED M. AATIF, 2025-05-22 Surrogacy is a concept which is still considered taboo in the Indian society. India was emerging as a global leader of Surrogacy until the ban imposed by the government in 2015 which drew in a lot of criticism. Though legislature and judiciary in this country alike have shown a progressive view, religious and traditional institutions have always been against the concept. This book is an attempt to simply the concept of surrogacy which is often criticised en masse.

International Surrogacy Arrangements Katarina Trimmings, Paul Beaumont, 2013-05-17 This book addresses the pressing challenges presented by the proliferation of international surrogacy arrangements. The book is divided into three parts. Part 1 contains National Reports on domestic approaches to surrogacy from Argentina, Australia, Belgium, Brazil,

China, Czech Republic, France, Germany, Greece, Guatemala, Hungary, India, Ireland, Israel, Mexico, Netherlands, New Zealand, Russia, South Africa, Spain, Ukraine, United Kingdom, United States and Venezuela. The reports are written by domestic specialists, each demonstrating the difficult and urgent problems arising in many States as a result of international surrogacy arrangements. These National Reports not only provide the backdrop to the authors' proposed model regulation appearing in Part 3, but serve as a key resource for scrutinising the most worrying incompatibilities in national laws on surrogacy. Part 2 of the book contains two contributions that provide international perspectives on cross-border surrogacy such as the 'human rights' perspective. Part 3 contains a General Report, which consists of an analysis of the National Reports appearing in Part 1, together with a proposed model of regulation of international surrogacy arrangements at the international level written by the two co-editors, Paul Beaumont and Katarina Trimmings. The research undertaken by Katarina Trimmings and Paul Beaumont from 2010 to 2012 was funded by the Nuffield Foundation. This title is included in Bloomsbury Professional's Family Law online service.

Performing Parenthood Heather Jerónimo, 2024-07-05 *Performing Parenthood* reveals different enactments of motherhood and fatherhood in twentieth- and twenty-first-century Spain, showing how the family has adapted, or at times failed to do so, within the context of Spain's changing socioeconomic reality. Through an examination of examples of non-normative parenthood in contemporary Spanish literature and film – including gay literary father figures, subversive physical touch between mother and child, fathers who cross-dress, lesbian maternal community building, non-biological parenting, and disabled bodies – the book argues that current conceptualizations of parenthood should be amplified to reflect the various existing identities and performances of motherhoods and fatherhoods. Connecting canonical works to recent works, the book establishes a unique dialogue that will expand the conversation about the Spanish family beyond the traditional view, bringing visibility to alternative family models. It argues that parental identities exist on a spectrum, enabling many parental figures to disregard heteronormative standards imposed upon the role and allowing them to experience parenthood in meaningful ways. Bringing visibility to literary and cinematic examples of alternative Spanish families, *Performing Parenthood* provides a glimpse into an evolving society influenced by national and global changes.

Adoption - Law and practice under the Revised European Convention on the Adoption of Children G.Shannon, R.Horgan, G.Keehan, C.Daly, Council of Europe, 2014-01-01 The Revised European Convention on the Adoption of Children (RECAC) was introduced by the Council of Europe in 2008, in an effort to provide a modern framework for the adoption of children. It represents an international consensus on acceptable child adoption, reflecting the different views, legal diversity and common heritage of member states. This book provides an in-depth analysis and commentary on each of the 30 articles of the revised convention. It is a comprehensive work which explores the changes and developments that have taken place since the 1967 Convention on the Adoption of Children first emerged. It is a detailed, one-stop source for judges, social workers,

legislatures and adoption practitioners on all aspects of the RECAC. This clear and incisive text is divided into three parts, commencing with an overview of the convention, followed by an examination of the general principles and concluding with the final clauses.

Surrogacy, Law and Human Rights Paula Gerber, Katie O'Byrne, 2016-03-03 Surrogacy presents particularly complex questions for human rights law and theory. This book provides a unique and insightful examination into the underexplored issues of how domestic and international law is responding to the sharp increase in the use of surrogacy. The work presents critical analysis of the current regulation of surrogacy via domestic law in Australia, India and the USA, and international law in the form of the UN Convention on the Rights of the Child. Including a wide range of views from academics and practitioners around the world, the contributors consider what could be done to further protect the rights of all persons involved in surrogacy arrangements. This in-depth study of the international and domestic law governing surrogacy provides much needed scholarly knowledge of this contemporary phenomenon, along with recommendations for improvement, regulation and reform. The book will be of great importance to human rights and legal scholars, and well as practitioners in this field.

Clinical Management of Infertility Joseph G. Schenker, Andrea R. Genazzani, John J. Sciarra, Liselotte Mettler, Martin H. Birkhaeuser, 2021-06-30 This new volume in the Reproductive Medicine for Clinicians series focuses on the practical clinical impact of problems linked to infertility, discussing topics such as luteal support in ART cycles, ovulation induction using pulsatile administration of GnRH, how to deal with the metabolic changes in PCOS, treatment to restore fertility in endometriosis and how to improve implantation, which are common aspects of daily clinical practice. It also addresses significant novel areas like the biological clock in human reproduction, reproduction at advanced parental age and medical and social egg freezing, offering valuable insights for patients and their doctors. Further, the book covers various areas of growing importance, such as how to access the uterine cavity; the future of imaging in reproduction; non-invasive prenatal testing; ART and male infertility; as well as breast cancer and fertility preservation. Last but not least, it examines the medical, ethical and legal aspects of a number of challenges for current and future reproductive medicine, including uterine transplantation and human genetic modification. Bringing together updates on some of the most important problems in reproductive medicine and also covering ethical and legal bases, this book offers an overview of potential treatments for infertility. As such, it is a valuable resource for gynecologists, obstetricians, endocrinologists and all specialists dealing with reproductive health.

Assisted Reproductive Technologies in the Global South and North Virginie Rozée, Sayeed Unisa, 2016-07-15 Assisted Reproductive Technologies in the Global South and North critically analyses the political and social frameworks of Assisted Reproductive Technology (ART), and its impact in different countries. In the context of a worldwide social pressure

to conceive – particularly for women – this collection explores the effect of the development of ARTs, growing globalisation and reproductive medicalization on global societies. Providing an overview of the issues surrounding ART both in the Global South and North, this book analyses ART inequalities, commonalities and specificities in various countries, regions and on the transnational scene. From a multidisciplinary perspective and drawing on multisite studies, it highlights some new issues relating to ART (e.g. egg freezing, surrogacy) and discusses some older issues regarding infertility and its medical treatment (e.g. in vitro fertilisation, childless stigmatisation and access to treatment). This book aims to redress the balance between what is known about Assisted Reproductive Technologies in the Global North, and how the issue is investigated in the Global South. It aims to draw out the global similarities in the challenges that ARTs bring between these different areas of the world. It will appeal to scholars and students in the social sciences, medicine, public health, health policy, women's and gender studies, and demography.

Gender and Generational Division in EU Citizenship Trudie Knijn, Manuela Naldini, 2018-07-27 Family law, gender equality, care arrangements and the consequences of demographic change have long been on the agenda of the European Union. However, these are coloured by national and cultural factors more than any other disputes, and form a barrier to the equalising of status for European citizens. Using an interdisciplinary approach, and bringing together law scholars, political scientists and sociologists, this book looks at the implications of the categorisation of identity in the European Union, and what they mean for the realisation of citizens' rights throughout the EU.

Research Handbook on Surrogacy and the Law Katarina Trimmings, Sharon Shakargy, Claire Achmad, 2024-03-14 This essential Research Handbook provides a multifaceted exploration of surrogacy and the law, examining a variety of critical yet under-researched perspectives including globalisation, power, gender, sexual orientation, genetics, human rights and family relations. It covers four distinct topics: surrogacy and rights, the interplay between surrogacy and different areas of the law, cross-border aspects, and regional perspectives.

Gender-Competent Legal Education Dragica Vujadinović, Mareike Fröhlich, Thomas Giegerich, 2023-02-03 Male-dominated law and legal knowledge essentially characterized the whole of pre-modern history in that the patriarchy represented the axis of social relations in both the private and public spheres. Indeed, modern and even contemporary law still have embedded elements of patriarchal heritage, even in the secular modern legal systems of Western developed countries, either within the content of legislation or in terms of its implementation and interpretation. This is true to a greater or lesser extent across legal systems, although the secular modern legal systems of the Western developed countries have made great advances in terms of gender equality. The traditional understanding of law has always been self-evidently dominated by men, but modern law and its understanding have also been more or less “malestreamed.” Therefore, it has become necessary to overcome the given “maskulinity” of legal thought. In contemporary legal and political orders, gender mainstreaming of law

has been of the utmost importance for overcoming deeply and persistently embedded power relations and gender-based, unequal social relations. At the same time and equally importantly, the gender mainstreaming of legal education – to which this book aims to contribute – can help to gradually eliminate this male dominance and accompanying power relations from legal education and higher education as a whole. This open access textbook provides an overview of gender issues in all areas of law, including sociological, historical and methodological issues. Written for students and teachers around the globe, it is intended to provide both a general overview and in-depth knowledge in the individual areas of law. Relevant court decisions and case studies are supplied throughout the book.

Patients with Passports I. Glenn Cohen, 2015 Can your employer require you to travel to India for a hip replacement as a condition of insurance coverage? If injury results, can you sue the doctor, hospital or insurer for medical malpractice in the country where you live? Can a country prohibit its citizens from helping a relative travel to Switzerland for assisted suicide? What about travel for abortion? In *Patients with Passports*, I. Glenn Cohen tackles these important questions, and provides the first comprehensive legal and ethical analysis of medical tourism. Medical tourism is a growing multi-billion dollar industry involving millions of patients who travel abroad each year to get health care. Some seek legitimate services like hip replacements and travel to avoid queues, save money, or because their insurer has given them an incentive to do so. Others seek to circumvent prohibitions on accessing services at home and go abroad to receive abortions, assisted suicide, commercial surrogacy, or experimental stem cell treatments. In this book, author I. Glenn Cohen focuses on patients traveling for cardiac bypass and other legal services to places like India, Thailand, and Mexico, and analyzes issues of quality of care, disease transmission, liability, private and public health insurance, and the effects of this trade on foreign health care systems. He goes on to examine medical tourism for services illegal in the patient's home country, such as organ purchase, abortion, assisted suicide, fertility services, and experimental stem cell treatments. Here, Cohen examines issues such as extraterritorial criminalization, exploitation, immigration, and the protection of children. Through compelling narratives, expert data, and industry explanations *Patients with Passports* enables the reader to connect with the most prevalent legal and ethical issues facing medical tourism today.

Adoptive Migration Jessaca B. Leinaweaver, 2013-09-06 Spain has one of the highest per capita international adoption rates in the world. Internationally adopted kids are coming from many of the same countries as do the many immigrants who are radically transforming Spain's demographics. Based on interviews with adoptive families, migrant families, and adoption professionals, Jessaca B. Leinaweaver examines the experiences of Latin American children adopted into a rapidly multiculturalizing society. She focuses on Peruvian adoptees and immigrants in Madrid, but her conclusions apply more broadly, to any pairing of adoptees and migrants from the same country. Leinaweaver finds that international adoption, particularly in a context of high rates of transnational migration, is best understood as both a privileged and unusual form of migration, and a crucial and contested method of family formation. *Adoptive Migration* is a fascinating study of the implications for adopted children of growing up in a country that discriminates against their fellow immigrants.
