The Temptation to Exist E. M. Cioran, 2013-02-01 This collection of eleven essays originally appeared in France thirty years ago and created a literary whirlwind on the Left Bank. Cioran writes incisively about Western civilizations, the writer, the novel, mystics, apostles, and philosophers. *The Temptation to Exist* first introduced this brilliant European thinker twenty years ago to American readers, in a superb translation by Richard Howard. This literary mystique around Cioran continues to grow, and *The Temptation to Exist* has become an underground classic. In this work Cioran writes about Western civilizations, the writer, the novel, about mystics, apostles, philosophers. For those to whom the very word philosophy brings visions of arduous reading, be assured: Cioran is crystal-clear, his style quotable and aphoristic. "A sort of final philosopher

of the Western world. His statements have the compression of poetry and the audacity of cosmic clowning”—The Washington Post

222 Steven Carter, 2008 222: Aphorisms & Reflections is an attempt to breathe new life into the art of the aphorism and the brief reflection (or meditation), brought to near-perfection in Western culture over the last five centuries by Pascal, La Rochefoucauld, Lichtenberg, Nietzsche, Kafka, E.M. Cioran, Karl Kraus, Fernando Pessoa, and many others. About four in ten of the entries in 222 consist of conversations between Steven Carter and aphorists of the past, including many of the above. In publishing this initial volume of a projected multi-volume work, Carter hopes to join the ranks of current aphorists and anthologists—James Richardson and James Geary, to name two—whose recent works help to further the grand tradition of the aphorism, which began in ancient Greece with Hippocrates, the West's first known aphorist. While 222 is primarily intended for a general college-educated audience, everyone can enjoy a good aphorism—as the Americans Josh Billings, Will Rogers, and especially Mark Twain have shown.

David Foster Wallace and Religion Michael McGowan, Martin Brick, 2019-11-14 In the years since his suicide, scholars have explored David Foster Wallace's writing in transdisciplinary ways. This is the first book of its kind to discuss how Wallace understood and wrote about religion. At present, the scholarly community is sharply divided on how best to read Wallace on religious questions. Some interpret him to be a Nietzschean nihilist, while others see in him a profoundly spiritual, even mystical thinker. Some read Wallace as a Buddhist thinker, and others as a Christian existentialist. Involved at every level of this discussion are Wallace's experiences in Twelve Step recovery programs, according to which only a higher power can help one remove unwanted defects of character. The multifarious essays in this volume by literature, religion, and

philosophy scholars in the Wallace community delve into Wallace's life and writings to advance the conversation about Wallace and religion. While they may disagree with one another in substantial ways, the contributors argue that Wallace was not only deliberate in his writings on religious themes, but also displayed an impressive level of theological nuance.

The Anti-Pelagian Imagination in Political Theory and International Relations Nicholas Rengger, 2017-03-31 This volume draws together some of the key works of Nicholas Rengger, focusing on the theme of the 'anti-Pelagian imagination' in political theory and international relations. Rengger frames the collection with a detailed introduction that sketches out this 'imagination', its origins and character, and puts the chapters that follow into context with the work of other theorists, including Bull, Connolly, Gray, Strauss, Elshtain and Kant. The volume concludes with an epilogue contrasting two different ways of reading this sensibility and offering reasons for supposing one is preferable to the other. Updating and expanding on ideas from work over the course of the last sixteen years, this collection will be of great interest to students and scholars of international relations theory, political thought and political philosophy.

An Infamous Past Marta Petreu, 2005-09-15 A writer who does stupid things in his youth is like a woman with a shameful past-never forgiven, never forgotten. E. M. Cioran, the renowned Romanian-French nihilist philosopher and literary figure, knew this better than anyone. Alongside Heidegger, Sartre, Paul de Mann, and others, Cioran was one of the great scholars of the twentieth century to be seduced by totalitarianism: he experienced a most disturbing intellectual and moral drama. More than any other study of Cioran, Marta Petreu's intensive investigation of his life and work confronts the central problem of his biography: his relationship with political extremism. The scene of Cioran's excesses is Romania and Europe in the 1930s and 1940s, a time of xenophobia, anti-Semitism, racism, Nazism, and Stalinism. In an incendiary book published in the mid-thirties, Cioran openly praised Hitler and Lenin and compared the leader of the fanatical Romanian Iron Guard to Jesus himself. This book, *The Transfiguration of Romania*, is the focal element of Ms. Petreu's analysis, which she carries on to Cioran's posthumously published Notebooks, characterized by the regret and remorse of his twilight years. In straightforward and lucid prose, grounded in a wealth of documentary evidence, she provides the entire history of a painful individual and collective drama. For many of Cioran's yearnings would later be realized in Ceausescu's dictatorship of Romania-to the regret of the Romanian people. Norman Manea's Foreword reminds us of Cioran's stature in Western intellectual circles and explains the critical importance of *An Infamous Past*.

Byron and the Politics of Freedom and Terror Piya Pal-Lapinski, 2011-05-27 This interdisciplinary collection explores the divergence or convergence of freedom and terror in a range of Byron's works. Challenging the binary opposition of historicism and critical theory, it combines topical debates in a manner that is sensitive both to the circumstances of their emergence and to their relevance for the twenty-first century.

Spectres of Pessimism Mark Schmitt, 2023-03-15 This book argues that philosophical pessimism can offer vital

impulses for contemporary cultural studies. Pessimist thought offers ways to interrogate notions of temporality, progress and futurity. When the horizon of future expectation is increasingly shaped by the prospect of apocalypse and extinction, an exploration of pessimist thought can help to make sense of an increasingly complex and uncertain world by affirming rather than suppressing the worst. This book argues that a cultural logic of the worst is at work in a substantial section of contemporary philosophical thought and cultural representations. Spectres of pessimism can be found in contemporary ecocritical thought, antinatalist philosophies, political thought, and cultural theory, as well as in literature, film, and popular music. In its unsettling of temporality, this new pessimism shares sensibilities with the field of hauntology. Both deconstruct linear narratives of time that adhere to a stable sequence of past, present and future. Mark Schmitt therefore couples pessimism and hauntology to explore the spectres of pessimism in a range of theories and narratives—from ecocriticism, antinatalism and queer theory to utopianism, from afropessimism to the fiction of Hari Kunzru and Thomas Ligotti to the films of Camille Griffin, Gaspar Noé, Denis Villeneuve and Lars von Trier.

Aftershock Kieran Cashell, 2009-08-30 Accused by the tabloid press of setting out to 'shock', controversial artworks are vigorously defended by art critics, who frequently downplay their disturbing emotional impact. This is the first book to subject contemporary art to a rigorous ethical exploration. It argues that, in favouring conceptual rather than emotional reactions, commentators actually fail to engage with the work they promote. Scrutinising notorious works by artists including Damien Hirst, Jake and Dinos Chapman, Richard Billingham, Marc Quinn, Sally Mann, Marcus Harvey, Hans Bellmer, Paul McCarthy, Tierney Gearon, and Tracey Emin, *Aftershock* insists on the importance of visceral, emotional and 'ethical' responses. Far from clouding our judgement, Cashell argues, shame, outrage or revulsion are the very emotions that such works set out to evoke. While also questioning the catch-all notion of 'transgression', this illuminating and controversial book neither jumps indiscriminately to the defence of shocking artworks nor dismisses them out of hand.

Fanged Noumena Nick Land, 2011-04-01 A dizzying trip through the mind(s) of the provocative and influential thinker Nick Land. During the 1990s British philosopher Nick Land's unique work, variously described as "rabid nihilism," "mad black delezianism," and "cybergothic," developed perhaps the only rigorous and culturally-engaged escape route out of the malaise of "continental philosophy" — a route that was implacably blocked by the academy. However, Land's work has continued to exert an influence, both through the British "speculative realist" philosophers who studied with him, and through the many cultural producers—writers, artists, musicians, filmmakers—who have been invigorated by his uncompromising and abrasive philosophical vision. Beginning with Land's early radical rereadings of Heidegger, Nietzsche, Kant and Bataille, the volume collects together the papers, talks and articles of the mid-90s—long the subject of rumour and vague legend (including some work which has never previously appeared in print)—in which Land developed his futuristic theory-fiction of cybercapitalism gone amok; and ends with his enigmatic later writings in which Ballardian fictions, poetics, cryptography, anthropology, grammatology and the occult are smeared into unrecognisable hybrids. Fanged Noumena gives a dizzying perspective on the entire trajectory of this provocative and influential thinker's work, and has introduced his unique voice to a new generation of readers.

Ian Brady Alan Keightley, 2017-05-22 Since May 1966 when Ian Brady and Myra Hindley were sentenced to life imprisonment at Chester Assizes the British public has been absorbed and horrified by the Moors Murders. Ian Brady has often been aptly described as 'the most evil man alive' or 'the Daddy of the Devils', while Myra Hindley, Britain's first female serial killer, became the most hated woman in Britain. Here is the definitive account, drawing on exclusive, never-before-seen material. It changes forever our understanding of the Moors couple and their heinous crimes. Why did they do it? What actually happened? Unlikely as it may appear to those detectives, psychiatrists, authors, criminologists, journalists and the victims' families, who have all sought in their own ways for decades to discover it, this book is possibly as near as we shall ever get to understanding how the victims died. It proves beyond question that the parents of the victims were right all along in their claims about Hindley's part in the murders. Did Brady give an account to anyone of his life, Myra Hindley and their crimes before he died? Yes, he did - here it is.
