This book provides a timely and thorough reference for educators, students, scholars and activists seeking to better understand the global issue of domestic abuse. Why do some women murder their children? Why do others team up with men in ghoulish killing sprees? What motivates the female serial killer? *When She Was Bad* explores the enigmatic heart of female darkness, drawing into focus such fascinating characters as Dorothea Puente, who murdered several elderly tenants in her boarding house in Sacramento; Mary Beth Tinning, who killed eight of her children in upstate New York; Karla Homolka, who joined forces with Paul Bernardo to abduct, rape and murder school girls in southern Ontario; and Karla Faye Tucker, the born-again Christian who was executed in Texas for having killed two people with a pickax. You will develop a foundational understanding of a variety of topics, for example, domestic and workplace homicide, cult and hate killings, murders committed by juveniles, and serial slayings. You will also examine various criminal justice responses to homicide, including the strategies and tactics employed to apprehend, prosecute, and punish killers. New to the Fifth Edition Up-to-date research and data offers you the latest statistics on homicide patterns and trends in recent years. New illustrative cases cover various forms of homicide, focusing on crimes that drew significant interest from the public and policymakers alike and provide you with unique insights into violent behavior. Updated coverage of recent controversies, legislative changes, and Supreme Court decisions includes heightened concern over mass shootings, hate-motivated homicide and terrorism; new laws, shifting policies, and Supreme Court rulings pertaining to gun rights, juvenile offenders and the death penalty; and advances in surveillance technology, computer-aided investigation, and DNA forensic testing. Early introduction of theories helps you to understand the definition of homicide/homicide laws before developing a theoretical framework to explain violence.

The Canadian Family in Crisis John F. Conway, 2003-08 In this book, sociology professor John F. Conway looks at families past, present and future and examines the changing nature of family. Figures from the first decade of the new millennium tell us that one marriage in two may well end in divorce. Conway considers the implications of divorce, the impact of social changes on men, women and children, and suggests how these issues might be better addressed through family policy. The

new edition addresses the harsh new reality facing Canadian families, especially those most vulnerable as a result of the crisis of the family. The Canadian Family in Crisis is the first book to examine the drastic changes in the Canadian family over the last thirty years.

Justifiable Homicide Dan Brown, 2021-09-07 This book, *Justifiable Homicide*, exams twenty actual criminal cases where a woman has been charged with the crime of murder as the result of a homicide where the victim is a man. Intimate Violence and Abuse in Families Richard J. Gelles, 2017 This Fourth Edition of *Intimate Violence and Abuse in Families* updates a best-selling core text in the field of intimate violence and child maltreatment. New features include: a Global Perspectives call-out box for each of the chapters that explore an aspect of research, policy, and practice globally or in another nation; and a separate chapter that examines forms of intimate partner violence other than male-to-female. Bidirectional intimate partner violence and female-to-male violence remain contentious topics in the field of intimate partner violence and rarely receive extensive coverage in books or texts; Chapter 7 includes a new examination of brain and behavior research and theory as it can be applied to intimate partner violence. Further, Chapter 8 adds a much-expanded examination of the most important federal policies pertaining to child welfare and child maltreatment. The inclusion of all forms of relationship and intimate violence continues to be a distinctive feature of the book, which is a must-have for both undergraduate and graduate students studying social work, family studies, criminology, nursing, sociology, and/or psychology.

The Philosophy Foundation Provocations David Birch, 2014-03-05 This book is ideal for teachers, whether they are P4C trained or just experimenting with philosophy. It will help teachers to present ideas and stimulate discussions which both accommodate and engage adolescent appetites. Are human beings flawed? From the fall of Icarus to the rise of Caesar this practical book draws upon history, philosophy and literature to provoke students to think, question and wonder. Divided into chapters on The World, Self, Society and Others, this resource for secondary school is written to give teachers the means to listen rather than teach and to allow the ideas and thoughts of students to form the centre of the lesson. It raises questions on the nature of evil, belief in God, slavery, consumerism, utopia, the limits of freedom, and a whole lot more. With a clear introductory outline on its use both in and out of the classroom, *Provocations* also contains tips and advice to help guide teachers to span the curriculum. Applicable to History, Geography, RS, Science, Art, English and Citizenship it offers teachers of all subjects the opportunity to introduce a student-centred approach to their lessons. There is also an extensive bibliography for those who wish to explore the topics in greater depth. *Provocations* is a set of philosophy sessions designed for secondary school and predicated

Coercive Control: How Men Entrap Women in Personal Life Evan Stark, 2007-04-16 Despite its great achievements, the domestic violence revolution is stalled, Evan Stark argues, a provocative conclusion he documents by showing that interventions have failed to improve women's long-term safety in relationships or to hold perpetrators accountable. Stark traces this failure to a startling paradox, that the singular focus on violence against women masks an even more devastating reality. In millions of abusive relationships, men use a largely unidentified form of subjugation that more closely resembles kidnapping or indentured servitude than assault. He calls this pattern coercive control. Drawing on sources that range from FBI statistics and film to dozens of actual cases from his thirty years of experience as an award-winning researcher, advocate, and forensic expert, Stark shows in terrifying detail how men can use coercive control to extend their dominance over time and through social space in ways that subvert women's autonomy, isolate them, and infiltrate the most intimate corners of their lives. Against this backdrop, Stark analyzes the cases of three women tried for crimes committed in the context of abuse, showing that their reactions are only intelligible when they are reframed as victims of coercive control rather than as battered wives. The story of physical and sexual violence against women has been told often. But this is the first book to show that most abused women who seek help do so because their rights and liberties have been jeopardized, not because they have been injured. The coercive control model Stark develops resolves three of the most perplexing challenges posed by abuse: why these relationships endure, why abused women develop a profile of problems seen among no other group of assault victims, and why the legal system has failed to win them justice. Elevating coercive control from a second-class misdemeanor to a human rights violation, Stark explains why law, policy, and advocacy must shift its focus to emphasize how coercive control jeopardizes women's freedom in everyday life. Fiercely argued and eminently readable, Stark's work is certain to breathe new life into the domestic violence revolution.
