Kafir-English Dictionary Johann Heinrich Albert Kropf,Robert Godfrey,1899

Tohono O'odham/Pima to English, English to Tohono O'odham/Pima Dictionary Dean Saxton,Lucille Saxton,Susie Enos,1998-11-01 The language of the Tohono O'odham (formerly known as Papago) and Pima Indians is an important subfamily of Uto-Aztecan spoken by some 14,000 people in southern Arizona and northern Sonora. This dictionary is a useful tool for native speakers, linguists, and any outsiders working among those peoples. The second edition has been expanded to more than 5,000 entries and enhanced by a more accessible format. It includes full definitions of all lexical items; taxonomic classification of plants and animals; restrictive labels; a pronunciation guide; an etymology of loan words; and examples of usage for affixes, idioms, combining forms, and other items peculiar to the Tohona O'odham-Pima language. Appendixes

contain information on phonology, kinship and cultural terms, the numbering system, time, and the calendar. Maps and charts define the locations of place names, reservations, and the complete language family.

Chahta Leksikon Allen Wright, 2018-08-05 Excerpt from *Chahta Leksikon: A Choctaw in English Definition*, for the Choctaw Academies and Schools The demand for the English definition of the Choctaw Language having been great and extensive for a few years past, the Author has undertaken to meet the urgent necessity. Therefore, this volume is now laid before the public as a contribution to the long felt want of the non-english speaking Choctaws, as well as of the non-choctaw speaking people. It is not professed to be a perfect and complete work of the kind. Every effort, however, has been rendered to give as correct a definition as possible; but there being so many particles which cannot be defined by themselves, except in connection with the nouns and verbs, no doubt there will be found, to many, inexplicable prefixes and affixes. But, on the whole, those who only desire to know the meaning of either Choctaw or English, without trying to fully know the roots and all the euphonic changes, will find sufficient for their purpose. A partial help has been secured from an anonymous manuscript Definer and the old Choctaw Definer. If the work supplies that which was desired, the author will deem himself amply paid for long and laborious effort.
