Martin Luther King and Malcolm X. Differences and the Role of the Media, 2015-12-28 Seminar paper from the year 2013 in the subject English Language and Literature Studies - Literature, grade: 2,0, , course: The 1960s, language: English, abstract: Malcolm X and Martin Luther King, Jr. are two of the most important leaders in the black freedom movement of the 1950s and 1960s. Their contributions are highly valued until today, although people's opinions on the two leaders vary: some support the one and disapprove of the other. Furthermore, during their lifetime and even after their death, both were perceived as having followed two different ideologies. Their differing opinions on violence and non-violence, integration and separatism were regarded as preventing the two from moving closer to each other. Therefore, people regarded and portrayed them as adversaries since their images arouse controversial feelings, admiration and disapproval, among black and white people. On the bright side, Martin Luther King, Jr. the well-educated, peaceful promoter of love and hope in contradistinction to Malcolm X, on the dark side, the autodidact, radical Black Muslim extremist. Apparently this seemed to be the two poles in public imagination which the American mass media had contributed to. Where might these differences come from, are they justified and what impact did the media play in the process of creating these public images? In order to address these questions, this work is going to examine the two men's life, thought, and work in more detail.

**Media Scandals** Alan Bisbort, 2008-09-30 This fascinating volume offers an overview of the most influential and notorious media scandals, from newspaper publisher John Peter Zenger's groundbreaking 1735 trial for printing and publishing false, scandalous, malicious and seditious statements to Dr. Phil McGraw's 2008 thwarted attempt to force his television cameras inside Britney Spears' hospital room, from the attempts to ban literature by the likes of D.H. Lawrence, James Joyce, Henry Miller, and Allen Ginsberg to the excesses of gossip mongers like Walter Winchell, Hedda Hopper, Geraldo Rivera, and Matt Drudge. It delves into the tabloid press and walks through the minefields of political opinion shapers, the shouters, the muckrakers and whistleblowers. America's obsession with scandal and the media's boundless capacity to report and sometimes even create it did not start with O.J. Simpson, Rush Limbaugh, or Britney Spears. It was ingrained in the fabric of our nation even before Paul Revere made his famous ride. Indeed, our media's cherished right to

free expression was hard-won and is now protected by the First Amendment to the U.S. Constitution, but it comes with responsibilities and is fraught with peril. The tension between the two forces of free expression and permissible subject matter has, throughout American history, caused media scandals-public outcries, legal proceedings, denunciations, violence and, in the case of Salman Rushdie's 1988 novel *The Satanic Verses* deaths. The early battles by the print media-newspapers, magazines, books-over censorship, book banning, book burning, obscenity, blasphemy and libel set the groundwork for even greater battles as the media expanded into radio, television and the Internet. This fascinating volume offers an overview of the most influential and notorious media scandals, from newspaper publisher John Peter Zenger's groundbreaking 1735 trial for printing and publishing false, scandalous, malicious and seditious statements to Dr. Phil McGraw's 2008 thwarted attempt to force his television cameras inside Britney Spears' hospital room, from the attempts to ban literature by the likes of D.H. Lawrence, James Joyce, Henry Miller, and Allen Ginsberg to the excesses of gossip mongers like Walter Winchell, Hedda Hopper, Geraldo Rivera, and Matt Drudge. It delves into the tabloid press and walks through the minefields of political opinion shapers, the shouters, the muckrakers and whistleblowers. *Media Scandals* examines this fascinating, troubled and sometimes inspiring subject from two different perspectives. First, through its recurrent themes, which reach across all media: politics; censorship; race and religion; sex and morals. The second half of the volume then examines each industry in more detail: book publishing; newspapers and magazines; radio and television, and the Internet. Augmenting this invaluable resource is a detailed timeline to help students put the wide-ranging scandals into historical perspective, and a thorough bibliography to encourage further research.

*Media Culture* Douglas Kellner, 2020-05-05 In this thorough update of one of the classic texts of media and cultural studies, Douglas Kellner argues that media culture is now the dominant form of culture that socializes us and provides and plays major roles in the economy, polity, and social and cultural life. The book includes a series of lively studies that both illuminate contemporary culture and society, while providing methods of analysis, interpretation, and critique to engage contemporary U.S. culture. Many people today talk about cultural studies, but Kellner actually does it, carrying through a unique mixture of theoretical analysis and concrete discussions of some of the most popular and influential forms of contemporary media culture. Studies cover a wide range of topics including: Reagan and Rambo; horror and youth films; women's films, the TV series *Orange Is the New Black* and Hulu's TV series based on Margaret Atwood's *The Handmaid's Tale*; the films of Spike Lee and African American culture; Latino films and cinematic narratives on migration; female pop icons Madonna, Beyoncé, and Lady Gaga; fashion and celebrity; television news, documentary films, and the recent work of Michael Moore; fantasy and science fiction, with focus on the cinematic version of *Lord of the Rings*, Philip K. Dick and the *Blade Runner* films, and the work of David Cronenberg. Situating the works of media culture in their social context, within political struggles, and the system of cultural production and reception, Kellner develops a multidimensional approach to

cultural studies that broadens the field and opens it to a variety of disciplines. He also provides new approaches to the vexed question of the effects of culture and offers new perspectives for cultural studies. Anyone interested in the nature and effects of contemporary society and culture should read this book.

**Media Virus!** Douglas Rushkoff,2010-12-01 The most virulent viruses today are composed of information. In this information-driven age, the easiest way to manipulate the culture is through the media. A hip and caustically humorous McLuhan for the '90s, culture watcher Douglas Rushkoff now offers a fascinating expose of media manipulation in today's age of instant information.

*Media Values* Richard Lance Keeble,2010-12-01 In 1990, Bill Porter set up the International Communications Forum (ICF) as a body to campaign for higher ethical standards in journalism. By his death in April 2009 the ICF had become a major international organisation. Media Values brings together the writings of 27 experienced international journalists and artists to celebrate Bill Porter's life and reflect on the values that he promoted through the ICF. • Bernard Margueritte argues that the moral leadership provided by men such as Bill Porter can inspire us all to work for higher standards in the media • Fabrice Boulé advocates the role of the media in conflict resolution. • Alan Channer stresses the role of the theatre as a force for good • John B Fairfax traces the impact of proprietors on newspaper history • Carol Goar explains how she learned some risks are worth taking • Martyn Lewis promotes solution-oriented journalism • Rafael Marques de Morais assesses media standards in Angola. • Natalya Skvortsova suggests its time for journalists to admit their mistakes • Bob Webb argues that all journalists have a duty to challenge racism. One section of Media Values concentrates on the new ethical dilemmas facing journalists in the age of the internet. Magnus Linklater for instance, argues that, while the advent of the internet and 24/7 news operations are changing the face of journalism, there is no reason why the industry should abandon the principles on which it is founded. Other contributors include John Bond, Małgorzata Bonikowska, John Carlisle, Charles Chasie, Simon Cohen, Gordon Graham, Grigory Gundarin, Henry Heald, Michael Henderson, John Munro, Olga Noskova, Hugh Nowell, Danko Plevnik, Michael Smith, William Stainsby, Faustina Starrett, Tomáš Vrba and Hugh Steadman Williams.

Perspectives on Critical Race Theory and Elite Media Lehner, E. Thomas,2023-04-07 In the modern world, ideology is

prominent in elite educational journalism. Because of this, for many audiences, it is not apparent what is a myth and what is fact. For time immemorial, journalism has striven to reconcile these challenges. Perspectives on Critical Race Theory and Elite Media uses the tools of critical theory and critical race theory to critique how journalism now resides in something other than reporting facts and considers how elite media instantiates a new understanding of a complicated world. Covering key topics such as segregation, equity, media dissemination, and religious language, this premier reference source is ideal for sociologists, industry professionals, researchers, academicians, scholars, instructors, and students.

Inventing the New Dispensation in Zimbabwe Ezra Chitando, Lovemore Togarasei, Joram Tarusarira, 2024-11-14 How does a regime, whose members have been actively involved in the previous one, appropriate and deploy religious ideas and rhetoric to cast itself as 'born-again' and attractive? Exploring intersections between politics, religion and economics, this book examines invention of Zimbabwe's 'New Dispensation,' the regime of Emmerson D. Mnangagwa, and how it has aimed to separate itself from the previous regime of Robert G. Mugabe. Utilizing the concept of 'invention', contributors reflect on how Mnangagwa and his publicists deploy religious ideas, concepts and rhetoric in the quest for legitimacy in a heavily contested political field. The book also reflects on the ways opposing political actors have utilized the same template in their quests to secure power. The contributors interrogate the use of time, theological ideas and religious practices to separate Mnangagwa's regime from Mugabe's. This book provides insight into how religious rhetoric is used not only to gain, but also to contest legitimacy in Zimbabwe's political sphere.

*The Crisis*, 2001-01 The Crisis, founded by W.E.B. Du Bois as the official publication of the NAACP, is a journal of civil rights, history, politics, and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color. For nearly 100 years, The Crisis has been the magazine of opinion and thought leaders, decision makers, peacemakers and justice seekers. It has chronicled, informed, educated, entertained and, in many instances, set the economic, political and social agenda for our nation and its multi-ethnic citizens.

The Civil Rights Movement in American Memory Renee Christine Romano, Leigh Raiford, 2006 The movement for civil rights in America peaked in the 1950s and 1960s; however, a closely related struggle, this time over the movement's legacy, has been heatedly engaged over the past two decades. How the civil rights movement is currently being remembered in American politics and culture - and why it matters - is the common theme of the thirteen essays in this unprecedented collection. Memories of the movement are being created and maintained - in ways and for purposes we sometimes only vaguely perceive - through memorials, art exhibits, community celebrations, and even street names.

**Fashion Cultures** Stella Bruzzi, Pamela Church Gibson, 2013-10-18 From the catwalk to the shopping mall, from the big

screen to the art museum, fashion plays an increasingly central role in contemporary culture. Fashion Cultures investigates why we are so fascinated by fashion and the associated spheres of photography, magazines and television, and shopping. Fashion Cultures: \* re-addresses the fashionable image, considering the work of designers from Paul Smith to Alexander McQueen and Hussein Chalayan \* investigates the radicalism of fashion photography, from William Klein to Corinne Day \* considers fashion for the 'unfashionable body' (the old and the big), football and fashion, and geographies of style \* explores the relationship between fashion and the moving image in discussions of female cinema icons - from Grace Kelly to Gwyneth Paltrow - and iconic male images - from Cary Grant to Malcolm X and Mr Darcy - that have redefined notions of masculinity and cool \* makes a significant intervention into contemporary gender politics and theory, exploring themes such as spectacle, masquerade, and the struggle between fashion and feminism.

Sport, Media, Culture ALINA BERNSTEIN, Neil Blain, 2012-12-06 An examination of the central features of the sport-media phenomenon, focusing on Europe and the USA. The book analyses such issues as new media technology; gender, ethnicity and local dimensions of collective identity; women in American basketball advertising; and cult football radio in Scotland.
