Paul and the Meaning of Scripture Matthew L. Halsted,2022-08-23 One exciting area of study is Paul's use of the Old Testament. The apostle routinely appeals to Scripture to support his arguments and to persuade his readers. One gets the impression that Paul has a high respect for Scripture and that his knowledge of it is broad and comprehensive. And yet, there is something enigmatic about his use of the Old Testament at the same time—something elusive and even puzzling. His interpretations can appear strained, sometimes going beyond the text's original context. Is Paul a poor reader of Scripture? Is there genuine tension between Paul's interpretations and the original context of his quotations? In this riveting study, Matthew L. Halsted takes readers through Romans to explore these and related questions. In the end, he argues that such tension does exist and that the solution is not to ignore it or view it as a liability, but rather to preserve it by adopting a hermeneutic that can sufficiently account for it as an integral element for each and every act of interpretation. Following the insights of philosopher Hans-Georg Gadamer (1900-2002), Halsted describes Paul's use of Scripture as dialogical re-authoring—a term that captures the dynamic relationship between the apostle and the Jewish texts that were so important to him.

Hosea 2 Brad E. Kelle,2005 The complex and, at times, violent metaphorical discourse of Hosea 2 has elicited a variety of interpretive approaches. This study explores the text from the perspective of rhetorical criticism. The classical conception of rhetoric as the art of persuasion and the function of metaphor within persuasive discourses and social settings correlate with the oracular characteristics of Hosea 2 and illuminate its use of specific metaphors. A reading of Hosea 2 from this perspective proposes that the prophets of Israel may have functioned in a manner similar to the orators of ancient Greece, who delivered extended rhetorical discourses designed to discern meaning in contemporary events and to persuade audiences. This study offers a distinctively political reading of Hosea 2 that explores the text as a metaphorical and theological commentary on the political and religious dynamics in Israel at the close of the Syro-Ephraimitic War (731-730 BCE). Paperback edition is available from the Society of Biblical Literature (www.sbl-site.org)

The Meaning of the Pentateuch John H. Sailhamer,2010-06-18 Persuaded of the singular vision of the Pentateuch, Old Testament professor John Sailhamer searches out clues left by the author and the later editor of the Pentateuch that will disclose the meaning of this great work. By paying particular attention to the poetic seams in the text, he rediscovers a

message that surprisingly brings us to the threshold of the New Testament gospel.

Paul and the Hermeneutics of Faith Francis Watson, 2015-11-19 In recent years, scholars from both Christian and Jewish backgrounds have tried to rethink the relationship between earliest Christianity and its Jewish milieu; and Paul has emerged as a central figure in this debate. Francis Watson contributes to this scholarly discussion by seeing Paul and his Jewish contemporaries as, above all, readers of scripture. However different the conclusions they draw, they all endeavour to make sense of the same normative scriptural texts - in the belief that, as they interpret the scriptural texts, the texts will themselves interpret and illuminate the world of contemporary experience. In that sense, Paul and his contemporaries are standing on common ground. Far from relativizing their differences, however, it is this common ground that makes such differences possible. In this new edition Watson provides a comprehensive new introduction entitled 'A Response to My Critics' in which he directly engages with the critics of the previous edition. There is a substantial new Preface and two new Appendices, and the text has been fully revised throughout.

The Portrayals of the Pharisees in the Gospels and Acts Mary Marshall, 2014-11-19 The first five books of the New Testament contain a large proportion of all uses of the term Farisai/oj in extant literature. In the light of growing scepticism among historians of Judaism over the accuracy and legitimacy of reconstructions of the Pharisees of history, Mary Marshall sets aside the quest for the historical Pharisees and instead offers an analysis of the portrayal of the Pharisees by each evangelist. The author adopts a redaction critical approach which incorporates narrative critical observations where appropriate. Her examination of the texts demonstrates the particularity of each book and its portrayal of the Pharisees. The five books do not portray a monolithic body of evidence but each has its own style, occasion and purpose(s). All New Testament portrayals of the Pharisees occupy a good deal of common ground and yet the pictures they produce are not identical. Every one of the evangelists integrates the Pharisees into his own presentation of the gospel, emphasising those aspects of the Pharisees' portrayal which serve his own particular concerns. This study of material from the gospels and Acts yields multi-faceted portraits of the Pharisees and discloses the variety of christological, soteriological, ecclesiological and ethical concerns with which they are associated. It alerts the exegete both to the nuances within a given New Testament book and to the subtle differences between books. It demonstrates the combination of fidelity and freedom with which the

evangelists regarded their inherited tradition and sources. The way the Pharisees are portrayed in each text is particular to that text and its purposes, and therefore consideration of the Pharisees' portrayal is able to enrich our understanding of the gospels and Acts more generally.

The Oxford Handbook of Hosea Brad E. Kelle, 2024 The Oxford Handbook of Hosea offers 32 essays on the Hebrew Bible prophetic book of Hosea. Following an introductory essay examining the relevance of the study of Hosea, the essays are organized around five nodes: 1, History, Text, and Composition; 2, Key Texts: Established and Emerging Perspectives; 3, Theological and Literary Elements, Themes, and Motifs; and 4, Interpretive Theories and Approaches; and 5, Reception. Each essay examines how its topic has been and is treated within scholarship on the book of Hosea. The essays engage traditional theories and newer updates to the same, and also engage the textual traditions themselves which are what give rise to compositional analyses. Many essays model approaches that move in entirely different ways altogether, however, whether those are by attending to synchronic, literary, theoretical, or reception aspects of the text at hand. Special attention is paid to elements of metaphor, gender, and violence in the book and its interpretation. The contributions range from text-critical and

dialectical issues to ancient historiography, compositional history, religious history, metaphors, feminism, womanism, postcolonialism, masculinity, queer theory, ecology, and reception-among others. Taken together, these essays well represent the variety of options available when it comes to assessing and interpreting this particular biblical book--

God's Enduring Love in the Book of Hosea Joy Philip Kakkanattu, 2006 Joy Philip Kakkanattu provides an exegetical and theological analysis of an important and difficult text of the Old Testament through a synchronic and diachronic reading. Detailed critical notes, which discuss the textual difficulties, accompany the translation of the text from Hebrew. In the detailed exegesis, special attention is given to study of the key terms theologically significant in Hos 11:1-11 against the context of the whole book. The exegesis shows that in Hos 11:8-9 it is not the repentance of Yahweh that causes the withholding of His anger against Israel, but Yahweh's constancy in His election of Israel as His son. More than a change of heart, the decision not to execute the deserved judgement witnesses Yahweh's divine nature. Special attention is dedicated to the parent metaphor employed in Hos 11:1-11. It is concluded that more than expressing the Yahweh-Israel relationship as a father-son relationship, the text speaks of it in terms of parent-child relationship. In the diachronic analysis, the author deals with the origin and formation of Hos 11:1-11.

Hosea's God Mason D. Lancaster, 2023-08-11 The book of Hosea is a labyrinth of juxtaposed images for God and God's people, with such disparate metaphors as God the devouring lion and God the reviving dew. In *Hosea's God: A Metaphorical Theology*, Mason D. Lancaster demonstrates that recent advances in metaphor theory help untangle these divergent portrayals of God. He analyzes fifteen metaphor clusters in Hosea 4-14 individually, then discerns patterns and reversals between the clusters. Finally, respecting the ancient value for emphasizing individual aspects of a depiction over a homogenized picture of the whole, the book identifies five characteristics of God prominent among the metaphors of Hosea.

Based on this analysis, Lancaster asserts that Hosea's metaphorical depiction of Yahweh ultimately derives from the primacy of Yahweh's fidelity to Israel.

End Years Commentary J.E.W., 2022-05-04 End-Years Commentary is not like any other Christian book that has landed on your hands. As the writer puts it, it is strange: Truth is stranger than fiction, so they say. Written in simple, articulate English and never dragging anywhere in this four-hundred-page book, End-Years Commentary will surely pique its readers curiosity and hold their attention from start to finish as it uses the Old Testament against the books of Matthew and Mark and anagrams to prove that Christ is a fake, a sinner, a robber of Solomon's writings, a braggart, a serpent, a liar, an egocentric trickster who did not honor his mother, a plagiarist, and a more repugnant character that you never thought about. It is factually shown that, for two thousand years, the Christians have worshipped a false savior. Would you like to know how Jesus and his disciples added words to the Bible, which was long prophesied in the book of Proverbs? Were you taught of the lie that the New Testament is an improvement of the Old Testament and the Law of Moses? Were you taught to believe the plagiarism that is the New Testament is from God? Do you really believe Christ died for our sins? End-Years Commentary has the answers, and it answers more than satisfactorily.

The Vanishing Hebrew Harlot Irene E. Riegner, 2009 The Vanishing Hebrew Harlot is written with two objectives: First, to recover the core meaning of the Hebrew stem ZNH as a complex of non-Yahwist rituals, deities, institutions and beliefs prevalent in ancient Israel and Judah. With this understanding, the author assigns the translation value «participate in non-Yahwist religious praxis» to ZNH. The second objective is to understand how this core meaning came to be encrusted

with promiscuity, prostitution, and detestable things, and, above all, with adultery, a capital offense, as well as with religious contamination and its destructive consequences. In the biblical texts, the stem ZNH, which encompasses a complex of non-Yahwist religious practices, operates in a powerful, adversarial relationship to the Yahwist complex of religious practices. Since non-Yahwist sacrifices signify the repudiation of Yahweh, non-Yahwist sacrifices arouse fierce opposition. The prophets Hosea and Jeremiah grasp this adversarial relationship and in their advocacy for Yahweh infuse non-Yahwist praxis with images of illicit sexual encounters and with the production of religious contamination that will lead to the devastation of Israel and Judah and to the exile of their inhabitants. The new structure of ZNH that emerges with Hosea and Jeremiah is one that re-visions ZNH activities by incorporating repugnant sexual imagery and devastating theological contamination into the core of non-Yahwist praxis. However, ZNH also has a sexual signification in contexts that are independent of and distinct from cultic contexts. The stem ZNH is examined in its Ancient Near Eastern environment, but the thrust of this research is the analysis of ZNH in its Hebrew textual environment using concepts from cognitive linguistics: network of associations, associated commonplaces, and blending.
