The Wisdom of Groundhog Day Paul Hannam, 2016-01-28 As heard on Chris Evans' Radio 2 Breakfast Show With a foreword by Danny Rubin, screenwriter of *Groundhog Day* Paul Hannam has developed a programme based on the hidden, underlying roadmap to freedom found in the film *Groundhog Day*. Using research-based techniques, you will learn how to take control of your day, remove the blinkers and actually see and experience the real world around you, which will in turn enable you to let go of the past and achieve new levels of success. You will learn how to focus on and appreciate the things that truly matter: time, security, mental health and authentic happiness, and discover a life of joy and fulfilment - rather than just going through the motions. No more cruising on autopilot - make every day amazing. Turn every day into the best day of your life.

American Comics: A History Jeremy Dauber, 2021-11-16 The sweeping story of cartoons, comic strips, and graphic novels and their hold on the American imagination. Comics have conquered America. From our multiplexes, where Marvel and DC movies reign supreme, to our television screens, where comics-based shows like *The Walking Dead* have become among the most popular in cable history, to convention halls, best-seller lists, Pulitzer Prize-winning titles, and MacArthur Fellowship recipients, comics shape American culture, in ways high and low, superficial, and deeply profound. In American

Comics, Columbia professor Jeremy Dauber takes readers through their incredible but little-known history, starting with the Civil War and cartoonist Thomas Nast, creator of the lasting and iconic images of Uncle Sam and Santa Claus; the golden age of newspaper comic strips and the first great superhero boom; the moral panic of the Eisenhower era, the Marvel Comics revolution, and the underground comix movement of the 1960s and '70s; and finally into the twenty-first century, taking in the grim and gritty Dark Knights and Watchmen alongside the brilliant rise of the graphic novel by acclaimed practitioners like Art Spiegelman and Alison Bechdel. Dauber's story shows not only how comics have changed over the decades but how American politics and culture have changed them. Throughout, he describes the origins of beloved comics, champions neglected masterpieces, and argues that we can understand how America sees itself through whose stories comics tell. Striking and revelatory, *American Comics* is a rich chronicle of the last 150 years of American history through the lens of its comic strips, political cartoons, superheroes, graphic novels, and more. **FEATURING...** • American Splendor • Archie • The Avengers • Kyle Baker • Batman • C. A generous mentor.
