Quotes by John Milton Lilith Regan,2020-04-10 Better to reign in Hell than serve in Heaven.A mind not to be changed by place or time. The mind is its own place, and in itself Can make a heav'n of hell, a hell of heav'n.They also serve who only stand and wait.Awake, arise or be for ever fall'n.A good book is the precious lifeblood of a master spirit, embalmed and treasured up on purpose to a life beyond life.Yet from those flames No light, but rather darkness visible.So farewell hope, and with hope farewell fear, Farewell remorse: all good to me is lost; Evil, be thou my good.Long is the way And hard, that out of hell leads up to light.The stars, that nature hung in heaven, and filled their lamps with everlasting oil, give due light to the misled and lonely traveller.The childhood shows the man, As morning shows the day.

**Common and Uncommon Quotes: A Theory and History of Epigraphs** Jared A. Griffin, 2023-03-07 'Common and Uncommon Quotes: A Theory and History of Epigraphs' is a prolegomenon to the study of epigraphic paratextuality. Building on the work of Gerard Genette's paratextual studies, this volume contextualizes and traces the practice of epigraphy in Anglophone literary history, from the fifteenth to the early twentieth century. This study explores how epigraphs are used by author-functions as a hermeneutic for their text and to establish ethos with their audience, and how that paratextual relationship changed as publishing opportunities and literacy rates grew over four centuries. The first broad-reaching study of this kind, 'Common and Uncommon Quotes' seeks to understand how epigraphs work: through their privilege on the page, their appeal to conjured ideas of the past, and their calls to citizenship.

*Birds in Eighteenth-Century Literature* Brycchan Carey, Sayre Greenfield, Anne Milne, 2020-09-22 This book examines literary representations of birds from across the world in an age of expanding European colonialism. It offers important new perspectives into the ways birds populate and generate cultural meaning in a variety of literary and non-literary genres from 1700-1840 as well as throughout a broad range of ecosystems and bioregions. It considers a wide range of authors, including some of the most celebrated figures in eighteenth-century literature such as John Gay, Henry Fielding, Laurence Sterne, Anna Letitia Barbauld, William Cowper, Mary Wollstonecraft, Thomas Bewick, Charlotte Smith, William Wordsworth, and Gilbert White.

explores the interconnections between Milton's politics, poetics and prose writings.

**Neville Figgis, CR: His Life, Thought and Significance** ,2021-11-29 John Neville Figgis, CR (1866-1919) was a brilliant Anglican theologian, historian, political thinker and preacher; he was also a monk. This volume of a dozen freshly commissioned essays by eminent scholars retrieves, expounds and critiques his thought and relates it to the culturally pluralist theological, ethical and political situation in which we find ourselves in the twenty-first century. Although Figgis' significance is widely acknowledged by scholars, little has been written about him. Figgis has an uncontested place in Anglican and Episcopal thought and is overdue for a concerted study of the many facets of his work and importance.

**Frankenstein, second edition** Mary Shelley,1999-09-13 Mary Shelley's deceptively simple story of Victor Frankenstein and the creature he brings to life, first published in 1818, is now more widely read—and more widely discussed by scholars—than any other work of the Romantic period. From the creature's creation to his wild lament over the dead body of his creator in the Arctic wastes, the story retains its narrative hold on the reader even as it spins off ideas in rich profusion. Macdonald and Scherf's edition of Frankenstein has been widely acclaimed as an outstanding edition of the novel—for the general reader and the student as much as for the scholar. The editors use as their copy-text the original 1818 version, and detail in an appendix all of Shelley's later revisions. They also include a range of contemporary documents that shed light on the historical context from which this unique masterpiece emerged. Macdonald and Scherf have now revised and updated their introduction, notes and bibliography, and have added new documents (including a review of Frankenstein by Percy Shelley).

*The Columbia Dictionary of Quotations* Robert Andrews,1993 Over 11,000 of these 18,000 quotations have never before appeared in a quotation book. Chosen not for their familiarity but for their quality and their relevance in the 1990s, these provocative quotations cover subjects from adolescence and adoption to yuppies and zoos.
