The Gap in God's Country Laurie M. Johnson,2024-10-18 Laurie M. Johnson argues that America's culture wars may seem to have erupted in the past couple of decades, but they go back centuries. For those who think that Christian nationalism (or right-wing populism) is the problem to be solved, that some people simply need to understand Christianity or politics better and become reasonable, read on. Christian nationalism and other ideological extremes are symptoms of major economic, technological, spiritual, and psychological shifts that have left too many people uprooted, disenchanted, and precarious. There are no easy answers, but Johnson tries to show a path out that enlists not only individuals, but also church and state. Without leadership and structure provided at the levels of the church and state, Christians, and those impacted by them, will remain part of the problem and not the solution. Johnson says to Christians: change is not talk, it's action, and Christian action can only happen with leadership that creates a context where we can work together, rather than wasting our time in culture wars.

Inside Marine One Col. Ray L'Heureux, Lee Kelley,2014-05-27 Col. Ray Frenchy L'Heureux always dreamed of bring a

pilot. Growing up, he built airplane models and dreamed about soaring over the earth. When he was twelve, his mom treated him to a flying lesson at the local airfield. Taken on a short flight by an instructor and allowed to operate the controls for part of the flight, he was hooked forever. It wasn't until he was running low on college funds and saw a recruiter at his college that he joined the Marines and began the journey towards his dream from Parris Island to Bravo Company and, then, officer training school. One day at an airfield when President Reagan landed on this way to a fundraiser, Frenchy's life changed forever when encountered HMX1, the squadron that flies the President in Marine One. When he saw the white-topped Sea King and White Hawk helicopters, he was determined to become part of that elite group. Inside Marine One is Col. L'Heureux's inspiring story of a young man who dreamed of flying, trained, studied and worked hard to become the pilot who ended up serving four US Presidents - George H.W. Bush, Bill Clinton, George W. Bush and Barack Obama. It's also a personal guided tour inside the world's most famous helicopter by a man who knows that flying machine better than any other. Inside Marine One is a great American success story of a young boy who dreamed big, worked hard and finally flew the President of the United States as his number one passenger.

Anti-american Terrorism: From Eisenhower To Trump - A Chronicle Of The Threat And Response: Volume Ii: The Reagan

And George H.w. Bush Administrations Dennis A Pluchinsky, 2020-06-18 Volume I examined the policies and actions in the Eisenhower, Kennedy, and Johnson administrations that contributed to the creation of anti-American grievances which in turn fueled the rise of anti-American terrorism overseas and domestically during the Nixon, Ford, and Carter administrations. Volume II chronicles the high-water mark of anti-American terrorism overseas that occurred during the Reagan administration. The litany of terrorist attacks on US targets overseas during this period is well known and unmatched in American history: 1983 suicide attack on US Embassy Beirut, 1983 suicide attack on US Marine Barracks Beirut, 1983 suicide attack on US Embassy Kuwait, 1984 suicide attack on US Embassy Beirut, 1985 assault on the TWA counter at Rome airport, 1985 hijacking of TWA 847, 1986 mid-air bombing of TWA 840, 1988 mid-air bombing of Pan Am 103, and the 1982-1988 kidnappings of 18 Americans in Lebanon. This wave of anti-American terrorist attacks demanded an appropriate response. The Reagan administration proceeded to construct the most ambitious and costly counter-terrorism program in the pre-9/11 era. Although the terrorist threat was perceived to be in decline during the George H W Bush administration, it still had to deal with the potential terrorist threat emanating from the first Gulf War in 1990-1991, two assassination attempts on the president, and the ramifications of the Pan Am 103 bombing.

Letters to a Recruit Mark Phillips, 2008-11-16 You are going to join what! That was my reaction to my son AJ's announcement that he intended to join the United States Marine Corps by going to recruit training at Parris Island. In Letters to a Recruit, I wanted to help other parents understand and deal with the honorable decision their son or daughter has made. I decided, after permission from AJ, to share the actual letters that I sent to him at boot camp. He often times would write back and tell me how the letters would help him and his platoon during the tough aspects of training.

UNIFORMS David G. Duchesneau, 2014 This book, *Uniforms*, spans an era in a boy's life that tells about his experiences growing up in a small New England town, from his childhood years, attending parochial school, to his adolescent years, continuing parochial school and becoming an active member of a drum and bugle corps for ten years. The story continues into early adulthood when he enlisted into the United States Marine Corps, through boot camp, and then serving two tours of duty, 1969 through 1970, in Vietnam. It is a factual description of his life as he grew up and through his experiences of wearing many uniforms, which shaped his life and future forever. The language used in this book is sometimes graphic, with four-letter expressions. However, it is the exact language that was so commonly used during that era. The author does his best at explaining what it was like to grow up in the late 1950s and the 1960s, attending school taught only by nuns. Then while still attending school, joining a drum and bugle corps and all his experiences traveling around New England and Canada, performing in parades and field competitions. At eighteen years old, he enlisted into the Armed Forces, United States Marine Corps, and explains what life was like at eighteen years old in 1968 to go through boot camp at Parris Island in South Carolina. As his marine infantry training continued, the author describes, in detail and in his own words, what it was

like as the Marine Corps prepared him and many others like him for combat in Vietnam. the author then describes, to the best of his recollection and ability, what life was like in Vietnam in 1969 while he was attached to a marine combat unit in Quang Tri Province of Southern Vietnam. the book goes on to describe how, at the end of 1969, he was redeployed to another combat unit south of Da Nang. the author stayed in Vietnam until mid-August of 1970 and then was released from active duty and returned home at the age of twenty-one. This book speaks from the heart and mind of everyone who has ever had the experience of attending a Catholic school with nuns, all those who were ever so fortunate to be a member of a drum and bugle corps, and all those combat veterans who served in Vietnam and experienced the rigors and sorrows of that war.

America's War for the Greater Middle East Andrew J. Bacevich, 2016-04-05 LONGLISTED FOR THE NATIONAL BOOK AWARD • A searing reassessment of U.S. military policy in the Middle East over the past four decades from retired army colonel and New York Times bestselling author Andrew J. Bacevich From the end of World War II until 1980, virtually no American soldiers were killed in action while serving in the Greater Middle East. Since 1990, virtually no American soldiers have been killed in action anywhere else. What caused this shift? Andrew J. Bacevich, one of the country's most respected voices on foreign affairs, offers an incisive critical history of this ongoing military enterprise—now more than thirty years old and with no end in sight. During the 1980s, Bacevich argues, a great transition occurred. As the Cold War wound down, the United States initiated a new conflict—a War for the Greater Middle East—that continues to the present day. The long twilight struggle with the Soviet Union had involved only occasional and sporadic fighting. But as this new war unfolded, hostilities became persistent. From the Balkans and East Africa to the Persian Gulf and Central Asia, U.S. forces embarked upon a seemingly endless series of campaigns across the Islamic world. Few achieved anything remotely like conclusive success. Instead, actions undertaken with expectations of promoting peace and stability produced just the opposite. As a consequence, phrases like “permanent war” and “open-ended war” have become part of everyday discourse. Connecting the dots in a way no other historian has done before, Bacevich weaves a compelling narrative out of episodes as varied as the Beirut bombing of 1983, the Mogadishu firefight of 1993, the invasion of Iraq in 2003, and the rise of ISIS in the present decade. Understanding what America's costly military exertions have wrought requires seeing these seemingly discrete events as parts of a single war. It also requires identifying the errors of judgment made by political leaders in both parties and by senior military officers who share responsibility for what has become a monumental march to folly. This Bacevich unflinchingly does. A twenty-year army veteran who served in Vietnam, Andrew J. Bacevich brings the full weight of his expertise to this vitally important subject. America's War for the Greater Middle East is a bracing after-action report from the front lines of history. It will fundamentally change the way we view America's engagement in the world's most volatile region. Praise for America's War for the Greater Middle East “Bacevich is thought-provoking, profane and fearless. . . . [His] call for Americans to rethink their nation's militarized approach to the Middle East is incisive, urgent and essential.”—The

New York Times Book Review “Bacevich’s magnum opus . . . a deft and rhythmic polemic aimed at America’s failures in the Middle East from the end of Jimmy Carter’s presidency to the present.”—Robert D. Kaplan, The Wall Street Journal “A critical review of American policy and military involvement . . . Those familiar with Bacevich’s work will recognize the clarity of expression, the devastating directness and the coruscating wit that characterize the writing of one of the most articulate and incisive living critics of American foreign policy.”—The Washington Post “[A] monumental new work.”—The Huffington Post “An unparalleled historical tour de force certain to affect the formation of future U.S. foreign policy.”—Lieutenant General Paul K. Van Riper, U.S. Marine Corps (Ret.)

This volume also considers the ways in which human rights and the law of the sea interact. The forthcoming Volume II will address shipping law; Volume III will provide analysis of marine environmental law and maritime security law. The Trumping of America Pamela Hines,2018-08-02 Trump alone is not to blame... How does it reflect on North American societal values when wealth trumps humanity, selfish individualism trumps compassion, the need to be entertained and to win trumps the truth, and racism and misogyny are rewarded with the most powerful position in the world? The political rise of Donald Trump, from the cutthroat Republican primary process to his move to the White House, has ushered in a new age of politics in the United States. This is a comprehensive analysis of the events surrounding the 2016 presidential election and

the unprecedented first year of Donald Trump's presidency. Pamela Hines highlights the growing distortion of American democracy, which threatens political systems around the world. As a Canadian living just across the border, Hines provides a unique perspective on the international impact of the election; explores the roles of religion, racism, nationalism, and gender bias; and critiques the media and its reckless coverage of Trump's ascension. The Trump presidency is a wake-up call to citizens of the free world. Democracy is at risk, yet power remains in the hands of the people. This assault on democracy can be curtailed only if voters make informed decisions and understand the consequences of their choices—while they still have the right to choose.

Distorting Defense Stephen P. Aubin, 1998-11-30 Using journalists' own standards as the measure, an exhaustive analysis of nearly 3000 network news reports from the Reagan, Bush, and Clinton administrations reveals that the networks may do more to misinform than inform on a whole range of complex issues related to national defense. This study paints a disturbing picture of the inadequate coverage ABC World News Tonight, CBS Evening News, and NBC Nightly News provide to millions of viewers each night. Aubin concludes that network coverage of defense issues was too often tainted by preconceived attitudes and lapses in journalistic standards. While as much as twenty-five cents of every dollar went to the defense budget during some of the periods reviewed, the networks hardly covered the key issues surrounding the Reagan defense buildup or the dramatic cuts that followed the end of the Cold War. In addition to their inadequate coverage, the networks also deprived Americans of balanced coverage of the investments made in high-tech weapons that ultimately prevailed in the Gulf War. Though the networks receive good marks for foreign policy coverage, they need to improve the quality of defense reports. This book provides them with the lessons and prescriptions for doing so, and it serves as a primer for all Americans who want to know just what it was that the networks failed to tell them.
