

The Most Effective Way To Destroy People

The Critical Flaw Alan P. Chan, 2013-04 In his 2008 Congressional testimony, Dr. Alan Greenspan, Former Federal Reserve Chairman, noted a flaw in the economic model he previously thought defined how the world works. Greenspan was referring to the ability of banks and markets to regulate themselves an ideology he admitted went wrong with the 2008 economic meltdown. The author has a unique perspective from the inside. He covers topics like inflation, quantitative easing, the fiscal cliff, and the global debt crisis with clarity and purpose. Dr. Alan P. Chan is presenting his research as evidence of money's shaky foundation as an economic driver that Dr. Greenspan's critical flaw presents an excellent investment opportunity. Well-argued and ultimately quite persuasive With a straightforward, accessible writing style that conveys his obvious passion for the topic, Chan articulates important points of economic theory without becoming too abstract. Chan's insight is enthralling. ELIZABETH MILLARD, ForeWord Clarion Reviews. Dr. Chan does a great job of taking complicated financial concepts and explaining them in a fresh and clear manner. He also offers up some thoughtful ideas on how to navigate today's volatile financial landscape. BRIAN SAMSON, Founder & CEO, HR for Startups. Dr. Chan's book is needed for today's financial times. His guide will help stop you from making bad investments, avoiding financial debt, and ultimately provide answers to the questions you've been asking for years. What's the real picture? How to invest long term profitably and safely? How to protect my future? What happens in the next crisis? How can I avoid the traps? BILL CHAN, Corporate Advisory Chair of Seine Image International Co. Ltd. The Critical Flaw describes how true and seriously faulty the assumptions on which we built our financial world upon. Brimming with straightforward facts and strategies, anyone can use Dr. Chan's book to overcome the key fears and questions associated with investing in physical gold and silver. ESTHER JIN, MSOD, Private Wealth Manager. If you want to deploy a section of your portfolio into precious metals, then this book is the invaluable tool you'll need in order to capitalize on accurate concepts and helpful tactics which will allow you to protect your assets against the next financial crash and also profit from it. This is a must-read. RALUCA IONITA, Co-Founder and Managing Director AYG Romania. Dr. Chan paints a bleak picture about the current state of a flawed global financial system. Through shrewd investing and economic foresight, he takes us on a journey towards financial independence, free from the control of central banks and governmental monetary policy. CASEY FONG, Founder of Dreaming Emotion. Heartfelt, inspiring, simple and clear. The Critical Flaw reveals a new approach for investors who want to succeed in this new economic

landscape. I loved it SIMEON DACUMOS, CEO & Creative Director of Simeon Dacumos Co.

Making Sense of Somali History Abdullahi, Abdurahman, 2017-09-18 In the last three decades, Somalia has been associated with such horrible terms as 'state collapse', 'civil wars', 'foreign intervention', 'warlordism', 'famine', 'piracy' and 'terrorism'. This depiction was in contradiction to its earlier images as the cradle of the human race, the kernel of ancient civilizations, the land of Punt, a homogeneous nation-state and the first democratic state in Africa. So how did things fall apart in the country? This Volume 1 of a two-volume narrative, Dr. Abdullahi explores the history of the people of Somali peninsula since ancient times, the advent of Islam and colonialism, the rise and fall of Somali nationalism and the perspectives of the Somali state collapse. The book uses a unique thematic approach and analysis to make sense of Somali history by emphasizing the responsibility of Somali political elites in creating and perpetuating the disastrous conditions in their country.

NEW VISION OF ISLAM Moin Qazi, 2023-04-03 This book is a compilation of the author's articles on various facets of Islam, published earlier in various newspapers and journals. It gives an insight into various faiths and how they have influenced the lives of their adherents. Many of these concepts have been examined in the context of Islam and Muslim culture. The purpose of the book is to reinforce the bond of tolerance between people of different faiths, ideas, and philosophies. The author firmly believes this is possible if we all understand and accommodate each other socially, culturally, and ideologically. There are several misconceptions in the minds of people on account of the absence of exposure to the authentic literature of various faiths. Most people learn about different faiths and beliefs not by studying their original literature but by inferring from what is being discussed and commented upon in public discourses. This book is a sincere attempt to encourage the general public and youth to directly understand the values and ideas that underpin all these faiths. Hopefully, this strategy or approach could help resolve several misunderstandings and misperceptions. This is the most sensible way for humanity to come closer and live in peace and harmony.

The Eye of Ra David Klooz, 2020-05-29 "...a large planet stood above the North Pole for a very long time." That is what all the mythology throughout the world uniformly states. Mythology from every nation, region, tribe, and period, in thousands of languages, in hundreds of forms, from every continent; they all resound, "a large planet stood above the North Pole for a very long time." Every country is accounted for except those located more than 10 degrees below the equator. The mythology of regions as far removed from each other as Siberia, North Africa, and Guatemala all agree. As others have indicated, I will also suggest that this planet was Saturn and that Saturn was initially a brown dwarf star that created Earth, Mars and later Venus. In order to put the story into context, I will make it abundantly clear that the framework will be based upon plasma physics and the existence of the aether. The Solvay Conference, founded by the Belgian industrialist Ernest Solvay in 1912, was considered a turning point in the world of physics. Located in Brussels, the conferences were devoted to outstanding

open problems in both physics and chemistry. The most famous conference was the October 1927 Fifth Solvay International Conference on Electrons and Photons, where the world's most so-called notable physicists met to discuss the newly formulated quantum theory. The leading figures were Albert Einstein and Niels Bohr. "Settled Science" and "Consensus Science" began at this time and it is also the moment we stopped doing real physics in the 20th and 21st centuries. The bold theoretical and experimental era of physics, by the likes of Maxwell, at the very dawn of science, as we know it, ended abruptly at the start of the 20th Century. That was when our currently accepted, and very different, view of "physics", everything from the "Big Bang" Expanding Universe Cosmology, to Relativistic limitations imposed by "flat" space and non-simultaneous time, complicated by a non-intuitive "Quantum Mechanics" of suddenly uncertain atomic "realities", all took a very different turn from where they had been headed. The quantum theory discarded the basic physics principle of cause followed by effect. Einstein was disenchanted with the Heisenberg Uncertainty Principle and created his own fatal damage when his "thought experiment" made-up the theory of relativity. He isolated his arbitrary observer from the rest of the universe, discarded the absolute standards of length and time, invented an imaginary proper clock that does not exist, removed the aether, and the effect of gravity became an illusion. Make sure you understand this was not done using any scientific method, i.e., observation, experimentation and replication, but by what became known as a "thought experiment". Einstein should have kept his day job in the post office, as he has set physics, the so-called Queen of the Sciences back 100 years. This conference was also the culmination of the struggle between Einstein and the scientific realists, who wanted strict rules of scientific method as laid out by Charles Peirce and Karl Popper, versus Bohr and the instrumentalists, who wanted looser rules based on 'expected' outcomes, regardless of causes and effects. Starting at this point, the instrumentalists won, instrumentalism having been seen as the norm ever since. And that has been the insurmountable problem with science ever since, the loss of the scientific method and accepting causes without effects and conversely. These are all unforgivable losses to the great physicists of the past. We were propelled nearly 2,000 years into past to the Greek Ptolemaic era when geometric symmetry and mathematical beauty dictated that endless the ad-hoc epicycles be added to perfect circular planetary orbits in order to match appearances. That dogma lasted almost 1500 years. How long will we allow relativity dogma and its taboos to persist? It should be no surprise that since that fateful conference in 1927, science has failed to produce any fundamental breakthroughs anything like the 19th century, when some of the finest experimental physicists, such as Ampere, Gauss, Faraday, and Maxwell were discovering the secrets of electricity and electromagnetism. The electric universe and plasma physics and cosmology follows the lead of these experimenting electrical pioneers. According, I will also discard the "thought experiments" of Einstein and defer to real scientists, namely Tesla, Maxwell, Thornhill, and others, who long ago recognized that all perceptible matter comes from a primary substance, of a tenuity beyond conception and filling all space, the Akasha, or luminiferous aether, which is acted upon by the life-giving Prana or

creative force, calling into existence, in never ending cycles, all things and phenomena. This primary substance, thrown into infinitesimal whirls of prodigious velocity, becomes gross matter; the force subsiding, the motion ceases and matter disappears, reverting to the primary substance. The structure and nature is most likely a vortex, appearing like a donut from above or below. What I will attempt to present to you in the book, is the real story of our history and the real fact that we, and the universe and everything in it, is electric in nature. I will present facts and evidence that demonstrate that all religions, mystery schools, the Bible, and other religious books are nothing more than a rewritten and edited story of a solar system wide cataclysm. A story that was written, rewritten and edited to make it appear that Jewish people were the 'Chosen People of God', We will see that all the pyramids, especially those on the Giza Plateau were built as an energy gathering, converting and storing machines to try to save the Earth and Mankind from the electromagnetic perturbations caused by the Sirius System (the Sun's binary twin) that occurs approximately every 24,000 years. The Great Pyramid was not a weapon, and certainly not a death star used to explode planets. There has been no atomic wars on Earth and no landings by 'alien' beings on Earth, nor on any other planet in our solar system. There is no Planet X and there is no Nibiru. The so-called 'Planet of the Crossing' is actually the star Sirius, the Sun's binary twin. We will see that all the five visible planets, Saturn, Mercury, Mars, Jupiter, Venus and the two luminaries, the Moon and our current Sun, became the Gods, with several of them, coming down to Earth from the Heavens to write our history only a few thousand years ago. We will also see and understand that the vast amount of cratering and channels on all of the planets in our solar system are not the result of random meteor or comet strikes, wind or water erosion, but are the results of electrical arcing between planets that has scarred the surface of the planets and has been demonstrated and replicated, in exact detail, in plasma laboratories. We will examine the Exodus, within the context of the Earth in upheaval from a natural solar system-wide cataclysm, and how Akhenaton, Moses and the Ark are main characters in the event. We will also examine Mount Sinai and its real identity and location, as well as, the Sacred Stone(s), its use, who stole them, and why. This story does not depend on miracles or faith, but is based upon evidence, both ancient and current. It is our genuine history that has been kept from us in order to maintain control by those in power. If you can not see the truth in this story and you want to believe in religions or the current false, consensus or settled 'science', you must believe them in one of three ways: by faith; by ignorance; or by indoctrination: by faith, because you cannot believe something which does not have adequate scientific evidence except as a philosophical viewpoint; by ignorance, because the only way to be certain in your mind that these theories could work, is because you do not have all the facts; or, if you have been so far indoctrinated you have not made a logical conclusion with your own rational mind, you may have never even tried to question what you have been told to believe. You must decide for yourself what you will believe. If you decide to believe in today's biblical religious myths or "consensus and settled pseudoscience of the quackademics and media", that is fine, just realize that none are supported by true science using the

Scientific Method. They are myths, and not even good ones, at that. Just remember, believing this nonsense and everything else the 'authorities' say is just what they want, i.e., no change in the status quo and leave the thinking to them.

Cover-Ups & Secrets Nick Redfern, 2019-06-01 A compelling look at the misuse of power, lies, corruptions and cover-ups Fake news, alternative facts, outright lies, fears of nuclear war, widespread surveillance of the population, mass shootings, the rise of a totalitarian state and more have led millions of us to distrust the word of government. And with good reason, too. There are countless conspiracy theories in circulation that suggest the world as we see it is not as it really is. Disinformation campaigns try to tell us that up is down and right is wrong. More and more people are beginning to realize that we are being manipulated and lied to. We are denied access to secrets that shouldn't be secrets. Our politicians obfuscate, deny, and outright lie. No one knows whom to trust. The nightly news is being replaced by carefully orchestrated propaganda. Our iPhones are monitored as are our laptops and our landlines. As for social media, that too is ripe for spying by men in black suits. No wonder, then, that the last few years have seen an incredible rise in conspiracy theories about deceptions and cover-ups. They range from the controversial to the shocking and from the nightmarish to the downright terrifying. And you can find all of them in the pages of *Cover-Ups & Secrets: The Complete Guide to Government Conspiracies, Manipulations & Deceptions*. From the dark agendas to restrict our access to the Internet and even ban books to suppressing cancer cures to ensure the pharmaceutical industry continues to reap gigantic profits and the murder of politicians, scientists, world leaders, and even Princess Diana in the name of national security. *Cover-Ups & Secrets* reveals dozens of nefarious conspiracies, plots, hidden agendas, and betrayals, including ... Amazon's Alexa, the secret spy in the home NASA misdirections The classified Pentagon program on alien life Clandestine plans for nuclear and bacteriological warfare NSA's penetration of cell-phones, email, Facebook, Twitter, and Skype messages Suspicious deaths The Bilderbergers, the Illuminati, and the Bohemian Club Secrets of the Philadelphia Experiment Reptilian Aliens and the British Royal Family The Patriot Act and the government's monitoring of reading habits And much, much more!!!

Surveillance and microchips. Where is the world heading? Just who has control, and what are their goals? Russian Social Bonds Liam Hall, AI, 2025-02-20 *Russian Social Bonds* explores the critical roles of friendship customs and social trust in shaping contemporary Russian society. It argues that to truly understand Russia, one must examine the deep emotional bonds characterizing friendship, often involving reciprocal obligations and mutual support networks and the prevailing levels of social trust, which significantly impact everything from economic development to political stability. The book uniquely combines sociological insights with historical context, revealing how collectivism and post-Soviet transitions influence these social dynamics. The book begins by defining core concepts like social capital and progresses through original research based on sociological surveys across Russia, uncovering regional variations and demographic trends affecting perceptions of trustworthiness. For example, the legacy of collectivism during the Soviet era continues to shape how Russians view social connections. Further analysis delves into the influence of socio-economic factors, media narratives, and historical experiences on trust, providing a nuanced understanding of social cohesion. This study adopts a mixed-methods approach, integrating quantitative survey data with qualitative insights from interviews, allowing for a comprehensive view of Russian social dynamics. The book's value lies in its ability to offer practical insights for anyone seeking to navigate or understand modern Russian society.

Father James Page Larry Eugene Rivers, 2021-02-02 This first-of-its-kind biography tells the story of Rev. James Page, who rose from slavery in the nineteenth century to become a religious and political leader among African Americans as well

as an international spokesperson for the cause of racial equality. Winner of the Rembert Patrick Award by The Florida Historical Society, Florida Non-Fiction Book Award by the Florida Book Awards, Harry T. and Harrietter V. Moore Award by the Florida Historical Society James Page spent the majority of his life enslaved—during which time he experienced the death of his free father, witnessed his mother and brother being sold on the auction block, and was forcibly moved 700 miles south from Richmond, VA, to Tallahassee, FL, by his enslaver, John Parkhill. Page would go on to become Parkhill's chief aide on his plantation and, unusually, a religious leader who was widely respected by enslaved men and women as well as by white clergy, educators, and politicians. Rare for enslaved people at the time, Page was literate—and left behind ten letters that focused on his philosophy as an enslaved preacher and, later, as a free minister, educator, politician, and social justice advocate. In *Father James Page*, Larry Eugene Rivers presents Page as a complex, conflicted man: neither a nonthreatening, accommodationist mouthpiece for white supremacy nor a calculating schemer fomenting rebellion. Rivers emphasizes Page's agency in pursuing a religious vocation, in seeking to exhibit manliness in the face of chattel slavery, and in pushing back against the overwhelming power of his enslaver. Post-emancipation, Page continued to preach and to advocate for black self-determination and independence through black land ownership, political participation, and business ownership. The church he founded—Bethel Missionary Baptist Church in Tallahassee—would go on to be a major political force not only during Reconstruction but through today. Based upon numerous archival sources and personal papers, as well as an in-depth interview of James Page and a reflection on his life by a contemporary, this deeply researched book brings to light a fascinating life filled with contradictions concerning gender, education, and the social interaction between the races. Rivers' biography of Page is an important addition, and corrective, to our understanding of black spirituality and religion, political organizing, and civic engagement.

Protest Votes Power Amelia Khatri, AI, 2025-02-15 *Protest Votes Power* explores the phenomenon of protest voting, examining why voters choose to cast ballots for alternative candidates or engage in electoral dissent. It delves into the history of protest votes, highlighting their impact on major political races and their role in signaling voter dissatisfaction. The book argues that even seemingly wasted votes can shape political discourse, forcing mainstream parties to address neglected issues. By understanding the motivations behind protest votes, we can gain insights into issues of democratic representation and the potential for political realignment. The book uses case studies and a comparative approach, drawing on examples from different countries and political systems to identify common patterns in electoral dissent. It analyzes specific elections where protest votes have had a notable impact, using electoral data, public opinion surveys, and qualitative interviews. *Protest Votes Power* is structured in three parts, first introducing theoretical frameworks, then presenting case studies, and finally examining the broader implications for democratic governance, offering a nuanced and evidence-based understanding of this form of political expression.

Nehemiah: The Builder's Blueprint Dr Ken Baker,2018-03-20 When I came to preach and teach on the book of Nehemiah, a friend of mine -David Crawford-Bixby- suggested the word Blueprint and I've found it an illuminating suggestion. For not only was Nehemiah a capable project manager who must have dealt with some ancient version of the blueprint in his construction work, but the word itself forms a parable of how God dealt with him. As we shall see, the character of Nehemiah is at the heart of the book that bears his name. He is the orchestrator, the midwife, the warrior... but in all he does he seeks only to replicate the pattern given to him by God. So, finally, it is his integrity and faithfulness that shine through. He is God's blueprint, enshrined in Holy Scripture to encourage us to see just how it's done.

The Assassination of President John F. Kennedy: The Final Analysis David W. Mantik, M.D., Ph.D.,Jerome R. Corsi, Ph.D.,Douglas P. Horne, In this decisive analysis of the JFK assassination, medical expert Dr. David W. Mantik and New York Times bestselling author Jerome R. Corsi definitively validate the observations of the physicians at Parkland Hospital, who

recognized immediately that the wound in JFK's throat and the massive, avulsed blow-out in the back of his head both involved frontal shots. What distinguishes this book from the myriad of books written on the JFK assassination is that Dr. Mantik's optical density measurements of the JFK skull X-rays in the National Archives leave no doubt the X-rays were altered to disguise evidence of the two frontal shots. With over four decades of experience reading X-rays, Dr. Mantik has examined the JFK assassination materials more than anyone else. Mantik and Corsi present overwhelming testimonial and documentary evidence that proves the Bethesda surgeons performed pre-autopsy surgery on JFK's head to remove evidence of the forehead bullet, as well as to gain access to his brain and thus "sanitize the crime scene" by removing bullet fragments and bullet tracks in the brain tissue. "The world is starving for objective science. This book contains objective forensic science for which the world will never be ready. If the X-rays were doctored, the CIA, the FBI, and the US Secret Service have some questions to answer. The public deserves the final analysis of these issues." —James Lyons-Weiler, PhD, The Institute for Pure and Applied Knowledge

Hamilton Heights and Sugar Hill Davida Siwisa James, 2024-04-02 Explores four centuries of colonization, land divisions, and urban development around this historic landmark neighborhood in West Harlem. It was the neighborhood where Alexander Hamilton built his country home, George Gershwin wrote his first hit, a young Norman Rockwell discovered he liked to draw, and Ralph Ellison wrote *Invisible Man*. Through words and pictures, *Hamilton Heights and Sugar Hill* traces the transition of this picturesque section of Harlem from lush farmland in the early 1600s to its modern-day growth as a unique Manhattan neighborhood highlighted by stunning architecture, Harlem Renaissance gatherings, and the famous residents who called it home. Stretching from approximately 135th Street and Edgecombe Avenue to around 165th, all the way to the Hudson River, this small section in the Heights of West Harlem is home to so many significant events, so many extraordinary people, and so much of New York's most stunning architecture, it's hard to believe one place could contain all that majesty. Author Davida Siwisa James brings to compelling literary life the unique residents and dwelling places of this Harlem neighborhood that stands at the heart of the country's founding. Here she uncovers the long-lost history of the transitions to Hamilton Grange in the aftermath of Alexander Hamilton's death and the building boom from about 1885 to 1930 that made it one of Manhattan's most historic and architecturally desirable neighborhoods, now and a century ago. The book also shares the story of the LaGuardia High School of Music & Art, one of the first in the nation to focus on arts and music. The author chronicles the history of the James A. Bailey House, as well as the Morris-Jumel Mansion, Manhattan's oldest surviving residence and famously known as George Washington's headquarters at the start of the American Revolution. By telling the history of its vibrant people and the beautiful architecture of this lovely, well-maintained historic landmark neighborhood, James also dispels the misconception that Harlem was primarily a ghetto wasteland. The book also touches upon the Great Migration of Blacks leaving the South who landed in Harlem, helping it become the mecca for African

Americans, including such Harlem Renaissance artists and luminaries as Thurgood Marshall, Count Basie, Duke Ellington, Mary Lou Williams, Paul Robeson, Regina Anderson Andrews, and W. E. B. Du Bois.

Atlantis and the Alien Presence Dr. David Klooz, 2019-11-26 The current world isn't just full of mysteries, it is made up of them. You could spend your life investigating the murders of the Kennedys, the identity of Jack the Ripper or studying UFOs, crop circles, cattle mutilations, ley lines, Atlantis or other strange phenomena. Each of these mysteries has its authorities and its counter-authorities, its supporters and its detractors, all of whom are full of information and expertise, but truly offer nothing more than opinions. Realistically, these people are myth makers with the object of establishing their own particular myth, gaining wide, 'official' acceptance for it as 'authorities', and thus, for a time making it the TRUTH. This has been mankind's biggest fault in this cycle of humankind's experiences on the Earth, that is, the belief that authority provides the truth, rather than the truth provides the authority. Even worse, it could be this has consistently been humankind's fault during all the previous cycles of humankind's existences on Earth - and those have been many. In Western society, while a very small minority of the current 'authorities' know what, or at least part of what, the truth is, the last thing they want to do is share it with the masses, the 99.99% of the human population they consider 'useless eaters' and 'subjects'. In general, everything we think we know is a lie, or a partial lie, perpetuated by this very small group of individuals. Since the earliest time of civilizations, this group has not shared Information with the individuals of the world. Since this current cycle of civilization began, following the cataclysm of 10,400 BCE, and the sinking of Atlantis, the most important information and knowledge concerning our true origins and history has been withheld. That which rightly belongs to us, has been destroyed, buried, ignored, suppressed, misrepresented, weaponized or purposely confused by disinformation, under the auspices of the so-called 'authorities'. In the West, the 'authorities' want to keep us occupied and non-thinking, with 'reality' television shows, televised sports, sixty-hour work weeks, alcohol and drug abuse, texting on our iPhones, believing in the lies or partial lies they want us to believe in and leave the thinking to them. Religious institutions, the educational system, the justice system, the economic system, the media, and even secret societies, have been infiltrated and usurped by these individuals and others with the same philosophy, at mankind's expense. These individuals have no empathy and no concern for the human condition. They seek only one thing, and that is power, the power to control. To them, power is more than an addiction, but a right. Knowledge is the form of their initial power. They use that to gain economic power, control and influence, and then infiltrate all levels of society until they infect the entire planet. Their religion is worshipping the 'self' and their 'ego', that they believe is their 'divine spark', with a motto of 'Do as thou wilt'. In my last book, *Adrift on a Sea of Lies*, I tried to identify who these individuals were or are, and how have they managed to do this over the past 12,000 years. Also, was there anything we can do that might reverse this during the next 12,000 years to ensure this doesn't happen again during the next cycle of our Earth, or will it repeat again and again, with only minor changes? This book is an examination of

the last 150 years, primarily focusing on a so-called myth, that I believe, is factual. In this case, the beginning of the story is about Atlantis and its growing association with part of the Antarctic continent. It describes and supports the evidence for Atlantis being located beneath the ice of Antarctica and describes the evidence in detail, including the following: the location of Atlantis within the 'world ocean; ancient mapping; evidence of dispersed civilizations; the rise of agriculture; and, Earth-crust displacement. It is also about the Nazis, UFOs and the US and their involvement with the Antarctic continent. I believe this disinformation plot will more than likely culminate in an upcoming US False Flag event unless the truth becomes known. Lastly, it is about the so-called 'alien' presence and the current attempt to keep it hidden and destroy it before the world knows how the Anglo-American Zionist Empire created and financed it, nearly 100 years ago.

Challenged: Living Our Faith in a Post Modern Age John King, 2019-12-03 My wife and I love our sons unconditionally and equally. Talking with one of them about his atheism has brought me to a new dimension in my relationship with him, to a review of my own christian beliefs, to a more critical examination of the church, and to a different understanding of ministry in today's world. As personal as I make this all sound, my family represents a thousand families, a hundred thousand and more, who have sat in painful silence because religious differences have taken away their voice. They tire of confrontation, angry discussions, verse hurling and jabbing one another with theories over every conceivable divisive issue. It is a powerful idea that those who do not share our faith should know that we do, not so much in our argument as in our love. It is time to listen.
