**Alchemy and Kabbalah in the Tarot** Samael Aun Weor, 2025-01-01 "...the tree of life [Kabbalah] also in the midst of the garden, and [Alchemy] the tree of knowledge of goodness and impurity." —Bereshit / Genesis 2 The most ancient sciences in the world are Alchemy and Kabbalah, knowledge hidden in the depths of every great religion and mystical tradition. Modern scientists are only recently discovering what these ancient teachings have always known: that we are a part of a multidimensional universe, and that our consciousness, our awareness, can expand to perceive matter and energy that are invisible to the flesh. Just as physics and chemistry illuminate our understanding of the physical world, their higher counterparts are Alchemy and Kabbalah, and offer a practical method to awaken the consciousness and fully develop the human being, opening the doors to vast worlds that are hidden from the physical senses. This awakening or alchemical birth requires a precise method, for everything depends upon causes and conditions. Hidden in centuries of mystical texts and obscure drawings are the specific instructions that lead towards the opening of their inner senses and the entrance into a higher life. The Philosopher's Stone, the secret of transmuting lead into gold, and many other sacred mysteries long restricted to initiates who had proven their trustworthiness were publicly revealed for the first time by the author Samael Aun Weor. These mystical sciences are hidden in the twenty-two Hebrew letters and primary Tarot cards. Now, see for yourself how these ancient traditions are all truly one science. Discover the keys to unlock the mysteries hidden in scriptures, mystical texts, and enigmatic images, and most importantly, the mysteries hidden within us.

**Heirs to Heresy: The Fall of the Knights Templar** Alan Bahr, 2021-10-28 You are one of the thirty Knights Templar who awoke on Friday, 13 October 1307, only to find themselves wanted criminals and branded heretics by the King of France. Abandoned by the Vatican and sent away early in the morning, you must leave Paris on a day of reckoning and try to find your way across a dark, mythic Europe to a mystical utopia where you can rebuild! Heirs to Heresy starts as a historical-fantasy roleplaying game, but is heavily influenced by Gnosticism, European Folklore, esotericism, and the myths and legends that surround the Templars. The game will ask you to craft the secrets of the Templar treasure, the enemies, and mysteries they will face, as your Knights undertake a mystical journey to the center of themselves along the road to Avallonis. The mechanics are a blend of narrative, storytelling rules, and classic adventure-gaming inspired roleplaying rules that work to create rich aspect-driven characters. As Templar Knights, your skill at arms is unquestionable, but it is the potential access to gnostic spells, unique powers, or intensely powerful faith sets you apart from your comrades. Can you tap into your potential, guarding the mysterious Templar treasure on this last quest you will take for the order and find the answer to the burning question: are the Templars Heirs to Heresy?
