

The Strange Death Of Europe

Gavin Murray-Miller

The Strange Death of Europe Douglas Murray, 2017-05-04 THE SUNDAY TIMES NUMBER ONE BESTSELLER A WATERSTONES POLITICS PAPERBACK OF THE YEAR, 2018 The Strange Death of Europe is a highly personal account of a continent and culture caught in the act of suicide. Declining birth-rates, mass immigration and cultivated self-distrust and self-hatred have come together to make Europeans unable to argue for themselves and incapable of resisting their own comprehensive change as a society. This book is not only an analysis of demographic and political realities, but also an eyewitness account of a continent in self-destruct mode. It includes reporting from across the entire continent, from the places where migrants land to the places they end up, from the people who appear to welcome them in to the places which cannot accept them. Told from this first-hand perspective, and backed with impressive research and evidence, the book addresses the disappointing failure of multiculturalism, Angela Merkel's U-turn on migration, the lack of repatriation and the Western fixation on guilt. Murray travels to Berlin, Paris, Scandinavia, Lampedusa and Greece to uncover the malaise at the very heart of the European culture, and to hear the stories of those who have arrived in Europe from far away. In each chapter he also takes a step back to look at the bigger issues which lie behind a continent's death-wish, answering the question of why anyone, let alone an entire civilisation, would do this to themselves? He ends with two visions of Europe - one hopeful, one pessimistic - which paint a picture of Europe in crisis and offer a choice as to what, if anything, we can do next.

The Douglas Murray Collection Douglas Murray, 2022-07-07 Enjoy two Sunday Times bestsellers in one in The Douglas Murray Collection, two controversial and devastatingly honest depictions of our world today. *The Strange Death of Europe*: This book is not only an analysis of demographic and political realities, but also an eyewitness account of a continent in self-destruct mode. It includes reporting from across the entire continent, from the places where migrants land to the places they end up, from the people who appear to welcome them in to the places which cannot accept them. Told from this first-hand perspective, and backed with impressive research and evidence, the book addresses the disappointing failure of multiculturalism, Angela Merkel's U-turn on migration, the lack of repatriation and the Western fixation on guilt. Murray travels to Berlin, Paris, Scandinavia, Lampedusa and Greece to uncover the malaise at the very heart of the European culture, and to hear the stories of those who have arrived in Europe from far away. He ends with two visions of Europe - one hopeful, one pessimistic - which paint a picture of Europe in crisis and offer a choice as to what, if anything, we can do next. *The Madness of Crowds: A TIMES AND SUNDAY TIMES BOOK OF THE YEAR* In this devastating book, Douglas Murray examines the twenty-first century's most divisive issues: sexuality, gender, technology and race. He reveals the astonishing new culture wars playing out in our workplaces, universities, schools and homes in the names of social justice, identity politics and 'intersectionality'. Readers of all political persuasions cannot afford to ignore Murray's masterfully argued and fiercely provocative book, in which he seeks to inject some sense into the discussion around this generation's most complicated issues. He ends with an impassioned call for free speech, shared common values and sanity in an age of mass hysteria.

When History Had Other Plans Allison McKenzie, 2025-01-28 *When History Had Other Plans* consists of 12 stand-alone chapters which immediately furnish the reader with attention-grabbing one-liners, as evidenced in its choice of chapter titles - Hitler Ended Racism; More Environmentalism, More CO2; The West Encouraged Putin by Discouraging Him - ensuring that it will pique interest and stir up debate. One line, one story, one chapter. There are no abstractions, no theories, no musings; just verifiable facts.

Save Europe Ted Kim,2021-02-11 Europe is a continent of ironies. There are beautiful, historic church buildings, but they are empty on Sunday mornings. Europeans have been surrounded by Christianity for centuries, but Christ is not in them. Is this the future of Christianity in Europe? May it never be! The author combines cultural analysis with a prophetic insight to propose a new direction for the European churches. The decline of Christianity in Europe has been necessary to shed excess baggage. The beautiful heritage of Christianity in Europe is truly wonderful, but that is not the essence of Christianity. Churches must return to the original priorities of the faith. Be a fisher of men. Do not assume that people already know about Christianity but are not interested. People may not be interested in religion, but Jesus has an irresistible appeal. Christianity cannot be reinvented, but churches can. If churches stop presuming that Europeans are already Christians and instead compete in the marketplace of ideas, they will be able to win back the hearts of the post-Christian Europeans. Europe is the most important mission field of the twenty-first century and the fiercest spiritual contest will take place in Europe. If you desire to be a servant of the Lord, ask him to send you into the harvest field of Europe. Exciting days are ahead of us.

Europe in Upheaval Michaela Nicole Raß,Kay Wolfinger,2022-09-01 This volume on the term “Europe” is based on a conference that took place in the winter of 2018 at the Carl Friedrich von Siemens Foundation in Munich. Europe in its complexity, in its character of radical change and its power of fascination is of unbroken topicality. At the same time, European identity is endangered by current challenges such as populism and the rise of nationalism. The contributions to the conference address the question of the extent to which contemporary literature and also current films react to these upheavals and to what extent the talk of a crisis in Europe or European integration is perceptible in the areas of literature and film. This book is a translation of the original German 1st edition *Europa im Umbruch* edited by Michaela Nicole Raß and Kay Wolfinger, published by Springer-Verlag GmbH Germany, part of Springer Nature in 2020. The translation was done with the help of artificial intelligence (machine translation by the service DeepL.com). A subsequent human revision was done primarily in terms of content, so that the book will read stylistically differently from a conventional translation. Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors.

On Human Conflict Lou Marinoff,2019-02-13 *On Human Conflict* excavates the cavernous philosophical foundations of war and peace. The magnum opus is bracketed by the author's experience of the Cuban missile crisis as a schoolboy, and his witnessing of 9/11 as an adult. It studies the human species with an admixture of evolutionary insight, free-ranging horror, and heavily-guarded optimism. It is also the uncensored voice of a conservative philosopher who dares to speak his mind on contemporary conflicts—including the culture and gender wars, and Islamic jihad—in an age when political correctness has lowered an Ivy Curtain prohibiting freedom of expression on campus, and across Western civilization entire.

Key Controversies in European Integration Hubert Zimmermann,Andreas Dür,2021-03-03 Is the EU a success or a

failure? Should It Stay or Should It Go? Britain and the EU The Big Waste or Essential to Feed Europe? The Common Agricultural Policy Observers of the European Union could be forgiven in thinking that since its inception the EU project has been under threat from near constant crises. In recent years, controversial issues such as EU enlargement, the fallout from the Eurozone crisis, migration policies, Brexit and the Corona pandemic have tested the EU to its limits and divided public opinion in the process. The major third edition of this comprehensive textbook on the EU seeks to introduce the integration project by looking at the thorny debates politicians, European citizens and the media contend with on a daily basis. Well known for its unique and pedagogically-innovative key debates format, the editors have invited top names in the field to contribute a stirring contribution either 'for' or 'against' each of the toughest political questions the EU faces. In doing so, not only does it offer a broad introduction to all the key concerns of the Union, but it does so in a way that is contemporary, engaging and designed to spark controversy. New to this Edition: - All chapters fully revised and updated New chapter on the transatlantic partnership - All chapters now with key takeaway points - Across all controversies, more inclusion of mainstream gender and feminist approaches

Embattled Europe Konrad H. Jarausch, 2024-10-29 A bracing corrective to predictions of the European Union's decline, by a leading historian of modern Europe Is the European Union in decline? Recent history, from the debt and migration crises to Brexit, has led many observers to argue that the EU's best days are behind it. Over the past decade, right-wing populists have come to power in Poland, Hungary, and beyond—many of them winning elections using strident anti-EU rhetoric. At the same time, Russia poses a continuing military threat, and the rise of Asia has challenged the EU's economic power. But in *Embattled Europe*, renowned European historian Konrad Jarausch counters the prevailing pessimistic narrative of European obsolescence with a rousing yet realistic defense of the continent—one grounded in a fresh account of its post-1989 history and an intimate understanding of its twentieth-century horrors. An engaging narrative and probing analysis, *Embattled Europe* tells the story of how the EU emerged as a model of democratic governance and balanced economic growth, adapting to changing times while retaining its value system. The book describes the EU's admirable approach to the environment, social welfare, immigration, and global competitiveness. And it presents underappreciated European success stories—including Denmark's transition to a green economy, Sweden's restructuring of its welfare state, and Poland's economic miracle. *Embattled Europe* makes a powerful case that Europe—with its peaceful foreign policy, social welfare solidarity, and environmental protection—offers the best progressive alternative to the military adventurism and rampant inequality of plutocratic capitalism and right-wing authoritarianism.

Muslim Europe Gavin Murray-Miller, 2024-12-15 Europe and the Islamic world have shared a long and conflicted history. From the Middle Ages to the global War on Terror, the image of two civilizations perpetually at war has endured. However, a closer look at the past suggests this was not always the case. *Muslim Europe* follows the lives of imperialists, journalists, and

Muslim activists who attempted to challenge the idea of two opposing civilizations locked in eternal conflict. Rich in detail, it tells the stories of English officials who once declared Britain the greatest “Muslim power” on the face of the earth and recounts the extraordinary political campaign that saw a French Muslim elected to the National Assembly against all odds. The “age of empire” brought Islam into European public life like never-before, inspiring Muslims on the continent to take to the press and mount political movements guided by desires for greater social recognition. In chronicling the forgotten history of Europe’s early Muslim communities across empires, Muslim Europe proposes a new history for Europe, highlighting the contributions made by Muslim subjects and citizens in search of a more just and tolerant society.

The European Union and Global Politics Richard Youngs, 2021-03-31 This accessible new textbook situates the European Union in a dramatically changed world order. Resisting a more traditional and abstract introduction to the institutions, structures and policy making processes of the EU, this innovative new text cuts through the jargon to demonstrate how hard the EU must work to retain its international influence. Taking into account the latest empirical developments, including the spread of war and violence in the East with Ukraine and the ongoing turbulent politics of North Africa and the Middle East, Richard Youngs – an expert in the field – introduces us to how the EU has been forced to act differently. The book is unique in offering an outside-in conceptual framework that inverts the way that the EU external action is studied and understood. It unpacks the different international challenges the EU has faced in recent years, including the weakening of global order, the need for more protective security, geo-economic competition, climate change and conflicts to its east and south. In each case the book examines how the EU has responded and how its core international identity has changed as a result, assessing whether the Union still retains strong global influence. This book is the ideal companion for students taking modules on the European Union's foreign policy, global politics, and for students of European Union Politics more broadly at both undergraduate and postgraduate levels.

The European Integration Crisis Marek Loužek, Luboš Smrčka, 2020-12-21 European integration is not a priori positive or negative: it results from the interaction between various interests. During the past few years, however, it has been impossible to ignore increasingly strident claims that the European Union is in the midst of a crisis. According to this perspective, European institutions do not function well, democracy in the Union is flawed, eurozone problems have reached a critical point, and inward migration, which European institutions seem incapable of handling, is escalating. This book demonstrates that public choice theory can be a suitable analytical tool to examine the European integration process. It is based on the assumption that consumers, politicians and even nations are similarly concerned with their own interests (economic, political, and so on). Public choice theory enables us to ‘de-idealize’ the European integration process and see the interests of individual actors in the process more realistically. European integration does not occur because the actors are altruistic; rather, it comes about due to their rational pursuit of individual or group self-interests. European integration and

other forms of globalization are not irreversible. For every action, there is an equal and opposite reaction. It remains a possibility that, after several decades of European integration, we are now entering an era of disintegration. This book will serve as a source of edification for academics, politicians, students, and experts, as well as the general public. It is designed to capture the interest of both graduate and postgraduate students of economics, political science and international relations.

The Member States of the European Union Simon Bulmer, Christian Lequesne, 2020 A unique overview of Europeanization which combines a thematic and country-by-country approach to understanding the relationship between member states and the EU.

European Politics Paul Kubicek, 2020-12-20 European Politics expertly and accessibly surveys the history, institutions, and issues that are essential for understanding contemporary European politics. Exploring a central question—what is Europe?—this text's thematic approach helps students compare politics in individual countries and see the political big picture in the region. European Politics examines not only countries which are (or were) in the European Union but also those eligible to join, to give students the most comprehensive picture of Europe's evolution in a globalized world. Key changes for the new edition include: coverage of hot topics such as Brexit, Covid-19, rise of nationalist-populists, authoritarian developments in Hungary, Poland, and Turkey, separatism in Catalonia, refugees/migrants, environmentalism, Ukraine, Russia, US-European relations, recent elections, and security threats emanating within Europe and beyond; a consolidated presentation on the European Union; fully updated data and examples; and a new concluding chapter recapping the main ideas and suggesting scenarios for the European project moving forward. This timely, in-depth text will be essential reading for anyone interested in European politics.

What Catholics Need to Know About Islam William K. Kilpatrick, 2020-08-04 William Kilpatrick pulls no punches in courageously confronting the threats posed by Islam.

European Social Work After 1989 Walter Lorenz, Zuzana Havrdová, Oldřich Matoušek, 2020-09-01 This book presents a unique analysis of the learning derived from East-West contacts in social work and reflects on the discipline's inalienable trans-national dimensions, of high actuality in the face of the re-emergence of nationalisms. The fundamental transformations in Europe subsequent to the revolutions of 1989 had a profound impact on social work in terms of raising sharply the profession's relationship with politics. The exchanges between western schools of social work and the emergent academic partner institutions in former Communist countries formed a valuable testing ground for the essential principles and competences of social work in terms of their universal scientific basis on the one hand and their regard for cultural and national values and contexts on the other. The chapters in this contributed volume focus on lessons derived from fundamental social and political transformations, highlighted by East-West encounters and intra-national divisions, and thereby have important messages for mastering impending transformations in the light of the global COVID-19 health crisis.

They demonstrate how cultural and social divisions can be addressed constructively with direct implications for training and practice in dramatically changing contexts: Lithuanian social work's claim to professional autonomy vs. authoritarianism in popular and political culture Social work between civil society and the state – lessons for and from Hungary in a European context When Europe's East, West, North and South meet: learning from cross-country collaboration in creating an international social work master programme Nordic-Baltic cooperation in social work researcher education: A Finnish perspective on the impact on scientific, historical and linguistic similarities and differences Intra-national similarities and differences in social work and their significance for developing European dimensions of research and education Social work, political conflict and European society: reflections from Northern Ireland European Social Work After 1989: East-West Exchanges Between Universal Principles and Cultural Sensitivity is an invaluable resource for social work educators; social work practitioners confronted with national and international divisions; students of social work, of social administration and policy; and any policy researcher with a comparative focus.

Europe's Fault Lines Elizabeth Fekete, 2018-01-09 An expansive investigation into the relationship between contemporary states and the far-right It is clear that the right is on the rise, but after Brexit, the election of Donald Trump and the spike in popularity of extreme-right parties across Europe, the question on everyone's minds is: how did this happen? An expansive investigation of the ways in which a newly configured right interconnects with anti-democratic and illiberal forces at the level of the state, Europe's Fault Lines provides much-needed answers, revealing some uncomfortable truths. What appear to be "blind spots" about far-right extremism on the part of the state are shown to constitute collusion—as police, intelligence agencies and the military embark on practices of covert policing that bring them into direct or indirect contact with the far right, in ways that bring to mind the darkest days of Europe's authoritarian past. Old racisms may be structured deep in European thought, but they have been revitalised and spun in new ways: the war on terror, the cultural revolution from the right, and the migration-linked demonisation of the destitute "scrounger." Drawing on more than three decades of work for the Institute of Race Relations, Liz Fekete exposes the fundamental fault lines of racism and authoritarianism in contemporary Europe.

Storying Contemporary Migration Lena Englund, 2024-08-24 This book examines contemporary stories of migration belonging to multiple literary genres such as nonfiction, memoir, novel, and essay, and explores the futures they envision for migrants and their surrounding societies. The primary material ranges from personal experiences of migration for professional purposes and of being undocumented without access to citizenship, to novels that provide fictional representations of migrants and their complex lives. This study asks how migration, as portrayed in contemporary writing, addresses personal, social, and political consequences of being on the move. The book is organised around central themes such as the status of being undocumented, or aspirations and expectations of both migrants themselves as well as their new

environs. The material examined has been published from 2016 onwards, addressing the aftermath of the migrant crisis 2015-2016 as well as the Trump administration 2017-2021.
