Turkish Guest Workers in Germany Jennifer A. Miller, 2018-01-01 *Turkish Guest Workers in Germany* tells the post-war story of Turkish guest workers, whom West German employers recruited to fill their depleted ranks. Jennifer A. Miller's unique approach starts in the country of departure rather than the country of arrival and is heavily informed by Turkish-language sources and perspectives. Miller argues that the guest worker program, far from creating a parallel society, involved constant interaction between foreign nationals and Germans. These categories were as fluid as the Cold War borders they crossed. Miller's extensive use of archival research in Germany, Turkey and the Netherlands examines the recruitment of workers, their travel, initial housing and work engagements, social lives, and involvement in labour and religious movements. She reveals how contrary to popular misconceptions, the West German government attempted to maintain a humane, foreign labour system and the workers themselves made crucial, often defiant, decisions. *Turkish Guest Workers in Germany* identifies the Turkish guest worker program as a postwar phenomenon that has much to tell us about the development of Muslim minorities in Europe and Turkey's ever-evolving relationship with the European Union.

*The Guest Worker Question in Postwar Germany* Rita Chin, 2007-03-05 This book provides the first English-language history of the postwar labor migration to West Germany. Drawing on government bulletins, statements by political leaders, parliamentary arguments, industry newsletters, social welfare studies, press coverage, and the cultural production of immigrant artists and intellectuals, Rita Chin offers an account of West German public debate about guest workers. She traces the historical and ideological shifts around the meanings of the labor migration, moving from the concept of guest workers as a temporary labor supplement in the 1950s and 1960s to early ideas about multiculturalism by the end of the 1980s. She argues that the efforts to come to terms with the permanent residence of guest workers, especially Muslim Turks, forced a major rethinking of German identity, culture, and nation. What began as a policy initiative to fuel the economic miracle ultimately became a much broader discussion about the parameters of a specifically German brand of multiculturalism.

Turkish Germans in the Federal Republic of Germany Sarah Thomsen Vierra, 2018-10-25 As the largest national group of guest workers in Germany, the Turks became a visible presence in local neighbourhoods and schools and had diverse social, cultural, and religious needs. Focussing on West Berlin, Sarah Thomsen Vierra explores the history of Turkish immigrants

and their children from the early days of their participation in the post-war guest worker program to the formation of multi-generational communities. Both German and Turkish sources help to uncover how the first and second generations created spaces of belonging for themselves within and alongside West German society, while also highlighting the factors that influenced that process, from individual agency and community dynamics to larger institutional factors such as educational policy and city renovation projects. By examining the significance of daily interactions at the workplace, in the home, in the neighbourhood, and in places of worship, we see that spatial belonging was profoundly linked to local-level daily life and experiences.

**Turkish Berlin** Annika Marlen Hinze, 2013-08-01 The integration of immigrants into a larger society begins at the local level. Turkish Berlin reveals how integration has been experienced by second-generation Turkish immigrant women in two neighborhoods in Berlin, Germany. While the neighborhoods are similar demographically, the lived experience of the residents is surprisingly different. Informed by first-person interviews with both public officials and immigrants, Annika Marlen Hinze makes clear that local integration policies—often created by officials who have little or no contact with immigrants—have significant effects on the assimilation of outsiders into a community and a society. Focusing on the Turkish neighborhoods of Kreuzberg and Neukölln, Hinze shows how a combination of local policy making and grassroots organizing have contributed to one neighborhood earning a reputation as a hip, multicultural success story and the other as a rougher neighborhood featuring problem schools and high rates of unemployment. Aided by her interviews, she describes how policy makers draw from their imaginations of urban space, immigrants, and integration to develop policies that do not always take social realities into consideration. She offers useful examples of how official policies can actually exacerbate the problems they are trying to help solve and demonstrates that a powerful history of grassroots organizing and resistance can have an equally strong impact on political outcomes. Employing spatial theory as a tool for understanding the complex processes of integration, Hinze asks two related questions: How do immigrants perceive themselves and their experiences in a new culture? And how are immigrants conceived of by politicians and policy makers? Although her research highlights the German-Turk experience in Berlin, her answers have implications that resonate far beyond the city's limits.

*Turkey, Greece, and the "Borders" of Europe* Douglas Reynolds, 2012-10-01 The Republic of Turkey has long aspired to join Europe both politically and culturally. However, its attempts to do so have been met with scepticism, and there is no unequivocal answer to the question of whether or not Turkey is accepted and viewed as European. This question is of particular interest in the case of Germany, the engine of the European Union's economy which is not only home to millions of Turkish immigrants, but also has a history of cooperation with Turkey unique among European countries. With its analysis of West German prestige newspapers printed between 1950 and 1975, this study looks into how Germans viewed Turkey from a

cultural and political perspective during a critical period of Turkish integration with the West and Europe, and compares this with perceptions of Greece, whose path to Europe was far less problematic by virtue of its classical legacy and Christian heritage.

*Ethnic Marketing for Turks in Germany - Influences on the attitude towards Ethnic Marketing* Kutay Erdem, 2007-01-21 Master's Thesis from the year 2006 in the subject Business economics - Offline Marketing and Online Marketing, grade: 1,0, Manchester Metropolitan University Business School, language: English, abstract: This master dissertation analyses the Turkish population in Germany and its attitude towards ethnic marketing. The Turkish population in Germany has special characteristics which are different from the mainstream German society as e.g. their language, culture and religion. However, the Turkish population in Germany cannot be characterised as one group. Different generations within this group show different characteristics and habits and therefore need to be evaluated solely. Consequently, it is important to know which generation of the Turks a company wants to appeal to with an ethnic marketing campaign. As ethnic marketing is the ideal way to appeal to those people of an ethnic minority who are connected to their culture, language and ethnic identity, the first generation Turks were analysed as being the most ideal target group among the Turks in Germany. The primary research showed that ethnic marketing is seen as rather positive by the first and second generation. Nonetheless, a closer

analysis indicates that because of the different classifications of both generations into acculturation levels, where the second generation shows a higher affinity to acculturation, the first generation has a quite more positive view of ethnic marketing. A further research emphasises the differences among the Turkish society with the analysis of the ethnic identity of the Turkish population in Germany and the different attitudes towards ethnic marketing, which arise due to differing strengths of ethnic identity. This analysis indicated that the Turks in Germany can be classified as having mostly a strong ethnic identity. Moreover, the correlation between the strength of ethnic identity and the attitude towards ethnic marketing can be stated as being positive. This emphasises the fact that those people who feel more connected to their ethnic identity have a much more positive view about ethnic marketing. However, a correlation between the ethnic identity and the acculturation progress is not evident as a strong ethnic identity is viable among all acculturation levels. This phenomenon indicates that regardless the development of the acculturation process it can be stated that the Turks in Germany are a group which has a strong connection to its ethnic identity. Overall, ethnic marketing is a good tool to appeal to the Turkish ethnic minority; however, a well thought-through plan regarding the choice of the desired target group is essential.

Global Diasporas Robin Cohen, 2022-07-08 Following its initial publication in 1997, *Global Diasporas: An Introduction* was central to the emergence of diaspora studies and quickly established itself as the leading textbook in the field. This expanded and fully-revised 25th anniversary edition adds two new chapters on incipient diasporas and diaspora engagement while carefully clarifying the changing meanings of the concept of diaspora and incorporating updated statistics and new interpretations seamlessly into the original text. The book has also been made more student-friendly with illustrations, thought-provoking questions, and guides to further reading. The book features insightful case studies and compares a wide range of diasporas, including Jewish, Armenian, African, Sikh, Chinese, British, Indian, Lebanese, Afghan and Caribbean peoples. This edition also retains Cohen's rich historical and sociological descriptions and clear yet elegant writing, as well as his modified concept of 'diasporic rope' linking different features of diasporas. This updated edition of the definitive textbook in the field will be an indispensable guide for students and instructors seeking to explore the complex issues of diaspora, migration and identity.

The handbook comprises six analytical parts: Contextualising Turkey's diasporas: past and present Localisation, transnational belongings, and identity Governing diasporas Micro-spaces and everyday practices Cultural production, aesthetics, and creativity Country-specific perspectives The volume offers insights into the debates and processes that structure each of these thematic clusters, but also provides a comprehensive overview of the dynamics shaping Turkey's diverse diaspora populations today. *Unwanted* Sandra M. Bucerius, 2014-08-20 The immigration of Muslims to Europe and the integration of later generations presents many challenges to European societies. *Unwanted* builds on five years of ethnographic research with a group of fifty-five second-generation Muslim immigrant drug dealers in Frankfurt, Germany to examine the relationship between immigration, social exclusion, and the informal economy. Having spent countless hours with these young men, hanging out in the streets, in cafes or bars and at the local community center, Sandra Bucerius explores the intimate aspects of one of the most discriminated and excluded populations in Germany. Bucerius looks at how the young men negotiate their participation in the drug market while still trying to adhere to their cultural and religious obligations and how they struggle to find a place within German society. The young men considered their involvement in the drug trade a response to their exclusion at the same time that it provides a means of forging an identity and a place within German society. The insights into the lives, hopes, and dreams of these young men, who serve as an example for many Muslim and otherwise marginalized immigrant youth groups in Western countries, provides the context necessary to understand their actions while never obscuring the many contradictory facets of their lives.
