The World's Oldest Literature William W. Hallo,2010 Literature begins at Sumer, we may say. Given that this ancient crossroads of tin and copper produced not only bronze and the entire Bronze Age, but also by necessity, the first system of record-keeping and the technique of writing. Scribal schools served to propagate the new technique and their curriculum grew to create, preserve and transmit all manner of creative poetry. In a lifetime of research, the author has studied multiple aspects of this most ancient literary oeuvre, including such questions as chronology and bilingualism, as well as contributing fundamental insights into specific genres such as proverbs, letter-prayers and lamentations. In addition, he has drawn conclusions for the comparative or contextual approach to biblical literature. His studies, widely scattered in diverse publications for nearly fifty years, are here assembled in convenient one-volume format, made more user-friendly by extensive cross-references and indices.

Dictionary of Post-Classical Yemeni Arabic Part: 2 Moshe Piamenta,1990 This publication is a most comprehensive,

richly-documented dictionary which presents, in local Arabic dialects and in mostly assimilated Judaeo-Yemeni dialects, the natural, geo-political, economic, and socio-cultural history of Muslim Yemen. It is also an account of the religious inter- and intra-socio-cultural and economic everyday life of the ancient Jewish communities who lived as dhimm's under Muslim rule until their mass emigration to Israel in 1948, leaving behind 5,000 co-religionists. The dictionary is based on about 300 printed and ms sources painstakingly consulted in various libraries all over the world, and many Yemeni language informants now residing in Israel. The text of every single item is adduced, mostly in context, with reference to ms., or book, page, line, or note, and to classical and foreign etymologies. Particular attention has been paid to the dictionaries of Lane and Dozy. This is a milestone in Arabic lexicography, complementing Dozy's *Suppliment aux dictionnaires arabes*, and opening up a complete new area sorely missing in the field of Arabic Studies.
