Literary Reimaginings of Argentina's Independence Catriona McAllister, 2022-01-05 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library. As the moment of the birth of the patria, Independence enjoys a privileged role in the historical imaginary of many Latin American nations. In Argentina as in other countries, the period has been fundamental to state discourses of nation-building and identity, lending its figures and central narratives a powerful symbolic function. It has also attracted significant literary attention, and this book offers an innovative reading of texts that provide irreverent, metafictional, or self-reflexive retellings of this foundational moment. This type of fiction is usually read through well-established frameworks on the contemporary Latin American historical novel that emphasise its destabilising of knowledge and single truths. Instead, this work foregrounds the much more immediate, concrete political points at stake when we read these texts through both their direct engagement with contemporary circumstances and the politics of the history they evoke. It therefore argues for a new approach to reading contemporary Latin American historical fiction that showcases its response to politically urgent questions.

Almanaque Histórico Argentino 1880-1916 Guillermo Máximo Cao, 2021-07-23 ¿Por qué un Almanaque Histórico Argentino? Porque creemos que la historia, como ciencia, reconstruye y analiza el pasado, interpretando las fuentes desde el presente. Y los presentes son todos distintos. Hoy, a dos décadas de iniciado el siglo XXI, siguen vigentes las preguntas sobre qué nación somos y sobre qué país queremos ser. La Generación del 80 pretendió instalar un modelo a seguir o a retomar por las generaciones futuras. El país ideal, el granero del mundo, el crisol de razas, un país europeo en América del Sur, el que se diferencia del resto del continente. Este grupo minoritario, cerrado, elitista, europeizante y liberal en lo económico inicia un gobierno de 36 años en el que Argentina se incorpora definitivamente a la división internacional del trabajo, incentivando

y recibiendo un importantísimo aporte migratorio, modernizando sus sistemas de comunicación con los ferrocarriles y los puertos, todo para consolidar un modelo agroexportador y un orden conservador, cuya contracara fue tanto la exclusión política como la desigualdad social. Este Almanaque -denominación que pretende rescatar esas antiguas publicaciones que trataban distintos aspectos sobre un mismo tema- puede leerse por capítulos y no necesariamente de principio a fin. Cada uno de ellos aborda un aspecto del período de la historia argentina comprendido entre el 12 de octubre de 1880 y fines de 1916.

El lenguaje de los argentinos II Carlos V. Cicottino,2024-06-10 El lenguaje de los argentinos II, de Carlos V. Cicottino, comprende un estudio único sobre el lenguaje español argentino, llevado a cabo durante más de dos décadas de meticulosa investigación, que ofrece una mirada íntima sobre cómo el lenguaje refleja la cultura, la historia y la identidad de Argentina. Por medio de la exploración de expresiones y neologismos, este libro no solo captura la esencia única del hablar argentino, sino que también se constituye por ley de atracción en una guía del saber. El autor invita a sumergirse en la profundidad de los tres conceptos claves que subtitulan el libro y encuadran esa concepción: el pensamiento como conductor del obrar y el sentir, el acontecer que abraza lo relevante del transcurrir, y la palabra que une y define. Esta obra es un llamado a todos, sin excepción, a descubrir y valorar el lenguaje de la cultura argentina como fuerza y modelo de su existencia.

Concordancias y fundamentos del Código civil argentino Argentina,1874

El siglo XIX en la narrativa argentina reciente Barbara Jaroszuk,2025-04-03 Why does the Argentinian narrative of the early 21st century return so insistently to the 19th century, the country's founding era? Why does it focus so intensely on the political agency of the popular sectors – the people? How do the dozens of literary texts analysed in this book represent the relationship between the people and the elites in early Argentinian history? How do they engage in dialogue with its earlier visions? This book seeks to answer these questions, proposing that the prominence of these themes in recent Argentinian culture is closely tied to increasing social inequalities and the resurgence of (anti)populist movements in the contemporary world. ¿Por qué la narrativa argentina de principios del siglo XXI vuelve con tanta insistencia al siglo XIX, la época fundacional del país? ¿Por qué centra su interés en la agencia política de "los de abajo"? ¿De qué manera las decenas de textos literarios comentados en este libro representan las relaciones entre el pueblo y las élites de turno a lo largo de la historia argentina? ¿Cómo reescriben sus versiones ya existentes? Este libro trata de responder a todas las preguntas formuladas arriba planteando que la fuerte presencia de dichos temas en la cultura argentina reciente tiene mucho que ver con las crecientes desigualdades y la fuerte reemergencia de (anti)populismos que se observan hoy no solo en la Argentina.
