United States. Congress. Commission on Security and Cooperation in Europe

Thank You for Not Reading Dubravka Ugrešić, 2003 In this collection of acerbic essays, Ugresic dissects the nature of the contemporary book industry, which she argues is so infected with the need to create and promote literature that will appeal to the masses--literally to everyone--that if Thomas Mann were writing nowadays, his books wouldn't even be published in the U.S. because they're not sexy enough. A playful and biting critique, Ugresic's essays hit on all of the major aspects of publishing: agents, subagents, and scouts, supermarket-like bookstores, Joan Collins, book fairs that have little to do with books, authors promoted because of sex appeal instead of merit, and editors trying to look like writers by having their photograph taken against a background of bookshelves. Thanks to cultural influences such as Oprah, The Today Show, and Kelly Ripa, best-seller lists have become just a modern form of socialist realism, a manifestation of a society that generally ignores literature in favor of the next big thing.

Grammatical Profiles Martin J. Ball, Paul Fletcher, David Crystal, 2019-07-15 This book brings together 12 previously unpublished language profiles based on the original Language Assessment, Remediation and Screening Procedure (LARSP). The languages featured are: Bangla, Croatian, Colombian Spanish, Inuktitut, Norwegian, Portuguese, Russian, Slovak, Slovenian, Swahili, Tamil and Turkish. Some of these languages are included as they are likely to be encountered as home languages of clients by speech-language therapists and pathologists working in the UK, the US, Australia and elsewhere. Others are included because they are languages found where speech-language pathology services are provided, but where no grammatical profile already exists. The collection will be an invaluable resource book for speech-language pathologists who wish to analyse and assess the grammatical abilities of their clients who speak one of these languages. This new collection complements previous books in this series on the same theme and together they cover 34 languages of the world.

Social Responsibility - Methods, Dilemmas and Hopes Robert G. Dyck, 2014-07-10 Current global economic crises call for social responsibility to replace neo-liberalistic, one-sided and short-term criteria causing monopolies of global enterprises. Humanity's existence is endangered under the threat of global capitalism, unless the positive concept 'everyone's social responsibility impacts everyone in society' becomes the basis of the new socio-economic order. This concept must be realized together with related concepts of 'interdependence' and 'holism,' embodying the principles of accountability, transparency, ethical behavior, and respect for stakeholders--to support the rule of law, international norms, and human rights. *Social Responsibility - Social Responsibility - Methods, Dilemmas and Hopes* explores the realm of social responsibility in the context of innovation, business practice and economic crises. Readers can apply related principles to their business practices and enhance their business prospects in a modern environment facing the challenges of socio-economic crises. The contents of this volume include chapters on ethics of interdependence, trust management by computer simulation, a new fractal metric for social responsibility, the syntax of autocratic systems based on social responsibility, implementation of corporate social responsibility and requisite personal holism as a basis of social responsibility. This volume is intended for graduates and professionals working in government organizations and commercial enterprises, to learn basic concepts about social responsibility and introduce holistic management practices in their daily and professional lives.
