As a work of Roman Law scholarship it fuses the vast volume of 20th century scholarship on the Roman law of obligations into a clear and very readable (and in many ways original) account of the law. As a work of comparative law it traces the transformation of the Roman law of obligations over the centuries into what is now modern German, English and South African law, presenting the reader with a contrast between these legal systems which is unique both in its scope and its depth. As a whole the book is written with a deep understanding of human nature and of many social, economic, and other forces that determine the face of the law.

*Landmark Cases in Consumer Law* Jodi Gardner, Iain Ramsay, 2024-01-11 This book analyses the history of the common law foundations of consumer law, and encourages readers to rethink the role that consumer law plays in our society. Consumer law is often constructed as purely statute-based law. However – as this collection will demonstrate – this is far from the truth. Much of the history of the common law concerns consumer transactions and markets. Case law has often established or modified the ground rules of consumer markets, has had a patterning effect on the economic organisation of markets, and has expressed cultural visions of the market and consumers. An analysis of landmark cases of consumer law allows many traditional cases to be viewed through a new and distinct lens, providing significant academic and intellectual value. The collection also includes a unique socio-legal perspective, considering the role that consumer law has played in addressing racial discrimination, LGBTQ challenges and the rights of women. This collection of landmark cases demonstrates the theoretical and practical significance of consumer law through a wide range of contributions by distinguished authors

from the United Kingdom, Europe, the United States and Australia.
