Mecánica aplicada al diseño de los elementos de máquinas Ricardo M Amé, 2021-08-12 La presente obra esta organizada siguiendo los planes de estudio para la asignatura Elementos de máquinas de las carreras de Ingeniería Mecánica de las Facultades de Ingeniería de las Universidades Argentinas; no obstante, los temas, en uno u otro orden, son los mismos dictados en universidades de todo el mundo. Las características distintivas de este trabajo son, por un lado, la línea conductora del texto, que finaliza en el capítulo de diseño de árboles y ejes, a partir de la interpretación del fenómeno de la fatiga de los metales aplicada al diseño de los componentes de las maquinas; y el esmero en la escritura y explicación de los temas, resultado de mas de 20 años de experiencia docente en el dictado de ella. Cabe destacar, también, la presentación de resultados de algunas investigaciones en el campo de la concentración de tensiones, desarrollado por el autor y otros colegas, que han sido motivo de exposiciones en distintos eventos académicos nacionales e internacionales. La colaboración en la revisión, sugerencias y aportes, por una parte de un gran número de prestigiosos profesores universitarios, hacen de este texto un material de apoyo al conocimiento de significativo valor.

Universidad y cambio social Alberto C. Taquini (h), 2025-07-17 El Plan Taquini impulsó entre 1971 y 1975 la creación de 16 universidades, que se sumaron a las 10 existentes -iniciadas con Córdoba en 1613-. Esto permitió que miles de argentinos accedieran por primera vez a la educación superior, y se instaló en el país una demanda por universidades públicas que perdura hasta hoy. En este libro nos adentramos en el vínculo de la concepción del Plan Taquini con su tiempo político y analizamos distintos aspectos de su impacto para evaluar su alcance. Hoy, a la luz de las demandas que la pandemia aceleró en el sistema educativo, presentamos nuestra experiencia basada en el aprender a aprender y esbozamos algunos lineamientos que contribuyen al debate sobre la transformación para una nueva educación en todos los niveles, centrada en la potencia real de cada estudiante, con un fuerte componente virtual y visión global.

Dictadura y universidad Samanta Casareto,Graciela Daleo,2021-11-01 Esta investigación estudia los mecanismos de represión sobre la Universidad durante la última dictadura cívico-militar, y estudia específicamente el modo en que la práctica represiva se manifestó en la Facultad de Filosofía y Letras entre 1976 y 1983, desde una perspectiva amplia del sistema educativo universitario. El libro se compone de una primera parte que presenta un recorrido por las políticas educativas universitarias del régimen dictatorial a partir de las diferentes gestiones en el Ministerio de Cultura y Educación de la Nación y del análisis de reglamentaciones y normativas establecidas a nivel estructural, y cómo estas se hicieron manifiestas en la Universidad de Buenos Aires. La segunda parte reúne un conjunto de artículos que sitúan las prácticas del terrorismo de Estado en el espacio de la Facultad de Filosofía y Letras.

Qualitative Studies in Quality of Life Graciela Tonon,2015-01-14 This volume explores the use and relevance of qualitative methods for the study of quality of life. It analyzes the role of qualitative researcher and the role of the context and the culture in quality of life studies. It presents the use of qualitative methods in real projects carried out in specific fields: geography, health, community studies, labor life and yoga. Finally, the book proposes the use of mixed methods that are considered as the third methodological approach in social research. The main purpose of using qualitative methods is to understand what it means for participants to be involved in certain events, situations and actions. Such methods help understand the context in which participants act and the influence of that context on their actions. The decision to use a particular methodology implies a philosophic, theoretical and political decision. Qualitative methodology constitutes an approach that is essential for understanding people's experiences of well-being and discovering new issues related to quality of life.

Broken Promises? Edward Epstein,David Pion-Berlin,2006-02-27 Argentina is still reeling from the worst economic and political crisis to afflict the nation in its modern history. Since December 2001, the country has been through economic

depression and bankruptcy, the impoverishment of half the population, a presidency that changed four times in the span of two weeks, and social protests met by state repression that left dozens dead and hundreds injured. What brought on this state of affairs? What are the primary features of this crisis? Who are the key actors? And what are the potential ways out of the crisis? This volume brings together an assortment of experts to grapple with these questions. *Broken Promises?* traces the political and economic origins of the crisis, considers the reactions of Argentina's security forces during difficult times, reflects on the responses of Argentine society, and concludes with an analysis of Argentina's key relationships with Brazil and the U.S. This edited volume fills a gap in literature concerning the study of contemporary Argentine politics and will be of great interest to students of development, comparative politics, international politics, and Latin American studies.

El Tango y la evolución del estado, la sociedad y las organizaciones. 1860 Martín Oscar Adler, Lilia Noemí Pinasco, 2024-11-04 Este material consiste en estudiar el proceso de desarrollo del estado, la sociedad, las organizaciones y su consolidación, con simultaneidad al proceso de evolución del Tango, en el período comprendido entre el año 1860 y 1950, con la incorporación de algunas informaciones relacionadas con nuestro quehacer y antepasados, ya que tienen íntima vinculación con el tema en análisis. Para analizar todo lo relacionado con el Tango, nos referiremos a sus orígenes y al contexto en que el mismo ha nacido y se ha desarrollado, vinculándolo con los acontecimientos políticos, económicos y sociales en el mundo y en nuestro país, analizando la historia social, económica y política mundial y argentina en particular. Realizaremos el estudio comparado a partir del año 1860, ya que aunque la organización de nuestro país, de nuestra sociedad, de las organizaciones en general y los emprendimientos empresariales se remonta a tiempos anteriores, nos interesa el proceso a partir de movimientos o síntomas relacionados con el advenimiento del Tango, a la vez de coincidir con la fecha en que comienza la segunda etapa de la revolución industrial.

How Social Movements Imagine Bobby Luthra Sinha, 2024-08-30 This book examines how micro contextual issues inspire collective social action forms against everyday situations of crises and crimes through an inter-disciplinary, ethnographic, and comparative research conducted among Bishnois and Indian South Africans. Exploring the role of the publics that practise and mobilise their social movement imaginations, the work delves into peoples' ability to move beyond their immediate contexts and politicise multiple social spaces and discursive spheres around them to project their causes. Mapping an anti-poaching movement spearheaded by the Bishnois of Western Rajasthan in India and an anti-substance abuse movement led by the historical Indian diaspora of South Africa, the author argues that such contemporary forms of organised social action replete with alternative frames, symbols, and repertoires possess key requisites to be understood as the 'Newer Social Movements' of the Global South. The volume will be of great interest to scholars and researchers of social and protest movements, migration and diaspora studies, political science, social anthropology, and ethnography.

Vocabulario crítico de las Ciencias de la Comunicación Diego de Charras, Larisa Kejval, Silvia Hernández, 2024-05-01

Más de cien especialistas definen términos clave del campo de la comunicación que dan cuenta de los vínculos entre sociedad, medios y tecnologías; los problemas de los lenguajes y las significaciones; y las relaciones entre procesos culturales, identidades, política y economía. Los más de cien términos definidos aquí remiten a temas clave de la comunicación que van de los vínculos entre sociedad, medios y tecnologías a los lenguajes y las significaciones, pasando por las relaciones entre procesos culturales, identidades, política y economía. Este Vocabulario reinstala el debate, necesariamente polémico, sobre el objeto de la comunicación, sus fundaciones, sus límites y su irradiación sobre las ciencias sociales y humanas. En ese sentido conforma, hacia atrás, un gesto de historia intelectual, y hacia adelante, un espacio de interrogación sobre la vigencia de las preguntas clásicas y la emergencia de nuevos problemas. En el presente ofrece una cartografía de discusiones que pone en común tradiciones y disputas, mientras invoca una memoria y llama a la intervención crítica y fértil. Así, puede ser leído como material de consulta, pero también, y fundamentalmente, como propuesta polémica que busca inscripción en los debates e interrogantes clave de las ciencias sociales y humanas, pero sobre todo de nuestra época.
