Revelation in a Chair Matt Rogers,2017-01-05 Revelation in a Chair by Matt Rogers Revelation in a Chair concerns delivering a vehicle to understand why God made us and whether we are using all we are (past and present) to deliver our best in HIS WORLD. The book creates a process for achieving our best by documenting who we come from, what relationships we have had, what jobs we have performed, and what activities we have engaged in. From there we can round

out a picture of where God is leading us, recognizing that EVERYTHING matters in building that picture. We can free ourselves with information about ourselves to paint ourselves with GOD'S BRUSH rather than the WORLD'S!

Creating High-quality Classroom Assignments Lindsay Clare Matsumura, 2005 Research indicates that the quality of classroom assignments makes a difference in student learning. Moreover, assignment quality varies between teachers even within the same school and there is room for improvement in many of the assignments that teachers provide to students. Assignment quality, as described in this book, puts into practice powerful research-based concepts for teaching. To support teachers in developing, reflecting on, and fine-tuning the assignments they create, this book presents a series of dimensions (or rubrics) with benchmark examples from elementary, middle, and high school classrooms. The purpose of these rubrics is to serve as diagnostic tools to assess the strengths and weaknesses of an assignment, as well as to guide the creation of new assignments for students. Questions also are included at the end of every chapter to guide reflection on a specific dimension of assignment quality. Topics cover: Choosing the right text, Setting clear and rigorous learning goals, Developing an assignment activity that gives students a chance to apply complex thinking skills, Developing clear and rigorous grading criteria, Communicating the expectations for high quality work to students, Writing high quality assignment directions, Providing comments that support student revision, Aligning the learning goals with the assignment activity and the grading criteria. Will be useful to teachers for self-assessment purposes, collaborative professional development settings, or as a basic text in teacher education courses.

Whilst specifically aimed at the newer counsellor, this book contains much that will be of interest to experienced practitioners both within and outside of TA... this book is an excellent guide to implementing TA techniques and treatment planning particularly from a process model perspective. It incorporates many new ideas which will make it refreshing and inspiring for both new and experienced counsellors and psychotherapists' - ITA News This concise workbook provides 30 practical suggestions to help practising counsellors develop and enhance their Transactional Analysis (TA) counselling skills. After a brief introductory section that summarizes the essentials of TA theory and technique, the book covers crucial aspects of best practice in current TA, many of them unavailable in book form until now. Presenting new and wide-ranging material, each of the 30 suggestions - which are supported by useful case examples - encourages both experienced and trainee counsellors to think carefully about their work and how it can be made even more effective. Ian Stewart provides much-needed practical guidance to such key areas as contract-making, time-frames and the Process Model.

Surviving in Biafra Alfred Obiora Uzokwe,2003 In 1966, several waves of rioting in northern Nigeria culminated in the brutal massacre of thousands of easterners by their northern Nigerian counterparts. Sensing that their safety could no longer be guaranteed, the easterners fled to the eastern region and established an independent nation called Biafra. Refusing to accept her sovereignty, Nigeria waged a thirty-month war against Biafra, targeting air assaults at civilian locations, which resulted in the deaths of thousands of children, women, and the elderly. Nigeria used land and sea blockade to prevent relief food from reaching hungry masses in Biafra and thousands of children died from a form of malnutrition called kwashiorkor. At the end of it all in 1970, two million people had perished.
