**Ancestral Grimoire** Nancy Hendrickson,2022-09-01 “Hendrickson takes readers on a magical journey where they learn how to construct a personal Book of Shadows filled with ancestral wisdom.” —Theresa Reed, author of *Twist Your Fate* Most of us know our immediate family and maybe even a generation or two beyond, but few of us are attuned to those who lived earlier. Many of us have forgotten how to keep our own stories alive. This is where the ancestors come in and where this book begins. Ancestral Grimoire is a guide to reconnecting with your ancestors. It will show you how to access their unique wisdom—their magic!—and create your own personal ancestral grimoire, a spell book or Book of Shadows, unique to you and your heritage. Through divination, intuition, and sometimes a little luck, you will learn the magic of each ancestor and how you can use their gifts to make your life richer and more fulfilling. As you go through this book, you'll save your ancestral work in a journal or loose-leaf binder that will become the place to store the stories, spells, rituals, and everyday life, lore, and legend of twelve of your ancestors. At the end of a year, you will hold a personal Book of Shadows with every bit of ancestral knowledge within its pages unique to you. No two will ever be alike. In an age when family storytelling has been lost, you will have created a legacy—and a life—that the ancestors could only dream of.

Drawing on over twenty years of research on topics ranging from Navajo and Catholic Charismatic ritual healing to the cultural and religious implications of virtual reality in biomedical technology, *Body, Meaning, Healing* sensitively examines these questions about human experience and the meaning of being human. In recognizing the way that the meaningfulness of our existence as bodily beings is sometimes created in the encounter between suffering and the sacred, these penetrating ethnographic studies elaborate an experimental understanding of the therapeutic process, and trace the outlines of a cultural phenomenology grounded in embodiment.
