The Test of Lionhood Kevin Sorbo,2023-08-29 BRAVE Books has partnered with Kevin Sorbo to write The Test of Lionhood, a Christian children's book that teaches kids about masculinity.

The Test of Lionhood BRAVE Books,Kevin Sorbo,2023-09

Real Men Don't Go Woke Dr. Gilda Carle,2024-11-22 Men are an endangered species. They are four times more likely to die by suicide than women, their life expectancy is declining, and their depression and loneliness are skyrocketing. Testosterone levels in young men are plummeting, the male Y chromosome is shrinking, and ninety percent of workplace deaths belong to men. These threats to manhood aren't just occurring in the United States; they are life-threatening emergencies in Europe, China, Japan, Sweden, and India. Our culture pushes men to reject traditional masculinity as “toxic” while offering a “woke” alternative that demands weakness and silence. Women lament the loss of “Real Men,” yet why should men step up when the world castrates, cancels, and crushes their efforts? Men are struggling to define themselves. Real Men Don't Go Woke challenges the status quo, drawing wisdom from Sun Tzu's The Art of War. It provides a new brand of male strength that uses intellect and vulnerability. With a roadmap for emotional resilience and authentic expression, this book sparks a movement to proudly reclaim masculine identity and build a future where men will thrive.

Letters by an Odd Boy. With Rhymes by Ditto Letters,1866

Ronald Dworkin Stephen Guest,2012-11-28 Ronald Dworkin is widely accepted as the most important and most controversial Anglo-American jurist of the past forty years. And this same-named volume on his work has become a minor classic in the field, offering the most complete analysis and integration of Dworkin's work to date. This third edition offers a substantial revision of earlier texts and, most importantly, incorporates discussion of Dworkin's recent masterwork Justice for Hedgehogs. Accessibly written for a wide readership, this book captures the complexity and depth of thought of Ronald Dworkin. Displaying a long-standing commitment to Dworkin's work, Stephen Guest clearly highlights the scholar's key theories to illustrate a guiding principle over the course of Dworkin's work: that there are right answers to questions of moral value. In assessing this principle, Guest also expands his analysis of contemporary critiques of Dworkin. The third edition includes an updated and complete bibliography of Dworkin's work.

The Boy's Yearly Book ,1863

Congressional Record United States. Congress,1969 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Literary Politics of Scottish Devolution Hames Scott Hames,2019-11-01 Provides a cultural history and political critique of Scottish devolutionProvides the first critical history of Scottish devolutionOffers the first multidisciplinary study of (UK or Scottish) devolution: engaging extensively with the work of historians, sociologists, political scientists and cultural theoristsCombines close attention to political and electoral factors with cultural issues and developments Draws on political theory which illuminates devolution from outside its terms This book is about the role of writers and intellectuals in shaping constitutional change. Considering an unprecedented range of literary, political and archival materials, it explores how questions of 'voice', language and identity featured in debates leading to the new Scottish Parliament in 1999. Tracing both the 'dream' of cultural empowerment and the 'grind' of electoral strategy, it reconstructs the influence of magazines such as Scottish International, Radical Scotland, Cencrastus and Edinburgh Review, and sets the fiction of William McIlvanney, James Kelman, Irvine Welsh, A. L. Kennedy and James Robertson within a radically altered picture of devolved Scotland.

Scenes from Shakespeare Harry Levin,2014-02-04 The late Harry Levin had an international reputation as the world's foremost comparatiste, and he was among the most knowledgeable Shakespeare scholars in the world. Before he died, Harry Levin had planned to publish this essay collection which examines key scenes in a number of Shakespeare's plays.

Neural Networks for Perception Harry Wechsler,2014-05-10 Neural Networks for Perception, Volume 2: Computation, Learning, and Architectures explores the computational and adaptation problems related to the use of neuronal systems, and the corresponding hardware architectures capable of implementing neural networks for perception and of coping with the complexity inherent in massively distributed computation. This book addresses both theoretical and practical issues related to the feasibility of both explaining human perception and implementing machine perception in terms of neural network models. The text is organized into two sections. The first section, computation and learning, discusses topics on learning visual behaviors, some of the elementary theory of the basic backpropagation neural network architecture, and computation and learning in the context of neural network capacity. The second section is on hardware architecture. The chapters included in this part of the book describe the architectures and possible applications of recent neurocomputing models. The Cohen-Grossberg model of associative memory, hybrid optical/digital architectures for neurocomputing, and electronic circuits for adaptive synapses are some of the subjects elucidated. Neuroscientists, computer scientists, engineers, and

researchers in artificial intelligence will find the book useful.

Shakespearean Criticism Various, 2021-06-23 Reissuing works originally published between 1984 and 1995, this set brings back into print early volumes from the Shakespearean Criticism Series originally edited by Joseph Price. The books present selections of renowned scholarship on each play, touching on performances as well as the dramatic literature. The pieces included are a mixture of influential historical criticism, more modern interpretations and enlightening reviews, most of which were published in wide-spread places before these compilations were first made. Companions to the plays, these books showcase critical opinion and scholarly debate.

Munsey's Magazine ,1924

Justice for Hedgehogs Ronald Dworkin, 2011-01-11 The fox knows many things, the Greeks said, but the hedgehog knows one big thing. In his most comprehensive work, Ronald Dworkin argues that value in all its forms is one big thing: that what truth is, life means, morality requires, and justice demands are different aspects of the same large question. He develops original theories on a great variety of issues very rarely considered in the same book: moral skepticism, literary, artistic, and historical interpretation, free will, ancient moral theory, being good and living well, liberty, equality, and law among many other topics. What we think about any one of these must stand up, eventually, to any argument we find compelling about the rest. Skepticism in all its forms—philosophical, cynical, or post-modern—threatens that unity. The Galilean revolution once made the theological world of value safe for science. But the new republic gradually became a new empire: the modern philosophers inflated the methods of physics into a totalitarian theory of everything. They invaded and occupied all the honorifics—reality, truth, fact, ground, meaning, knowledge, and being—and dictated the terms on which other bodies of thought might aspire to them, and skepticism has been the inevitable result. We need a new revolution. We must make the world of science safe for value.

The Californian ,1880

Gabriel's Wing Annemarie Schimmel, 1963 This book presents the views of Muhammad Iqbal in regards to the essentials of Islam. This includes the five Pillars of Earth, and the Creed which is taught to every Muslim child. The author aims to present Iqbal's way of thinking, arguing, suffering, and the finding of mental peace in the security of his religion.

Gabriel's Wing Schimmel, 1963-12-01 This book presents the views of Muhammad Iqbal in regards to the essentials of Islam. This includes the five Pillars of Earth, and the Creed which is taught to every Muslim child. The author aims to present Iqbal's way of thinking, arguing, suffering, and the finding of mental peace in the security of his religion.
