Should it be 10 US\$ or US\$ 10? - English Language & Usage ... May 21, 2011 · Which is correct to use in a sentence, 10 US\$ or US\$ 10. Perhaps USD should be used instead or even something else? **"a 100" vs "100" - English Language & Usage Stack Exchange** Aug 24, 2016 · The flow rate increases 100-fold (one hundred-fold) Would be a more idiomatic way of saying this, however, the questioner asks specifically about the original phrasing. The above Ngram search would suggest that a one hundred has always been less frequently used in written language and as such should probably be avoided. Your other suggestion of by one hundred times is definitely better than a ... "6-foot tall" or "6-feet tall"? - English Language Learners Stack ... I have heard/seen people say/write "She is 5 feet 10 inches tall" and "She is 5-foot-10." But in formal writing, is there a convention? I found both "8-foot-tall" and "nine-feet tall" in online sou... **Does a percentage quantity take singular or plural verb ...** Sep 12, 2015 · Does a percentage require a singular or plural verb, for example, do we say ten percent "go" or "goes"? **Why is "a 100% increase" the same amount as "a two-fold ...** Nov 15, 2012 · 24 Yes, the correct usage is that 100% increase is the same as a two-fold increase. The reason is that when using percentages we are referring to the difference between the final amount and the initial amount as a fraction (or percent) of the original amount. *Is it proper to state percentages greater than 100%?* [closed] People often say that percentages greater than 100 make no sense because you can't have more than all of something. This is simply silly and mathematically ignorant. A percentage is just a ratio between two numbers. There are many situations where it is perfectly reasonable for the numerator of a fraction to be greater than the denominator. Origin of the phrase, "There's more than one way to skin a cat." Jun 30, 2011 · I couldn't find any use of the phrase earlier than the 1840 Money Diggers reference, but I did find some background to which the saying might refer. Apparently the debate on cat-skinning boiled down to whether or not it was done while the cat was still alive. Here's a clip from the disturbing House of Commons' Minutes of Evidence Taken Before Committee on Bill for Prevention of Cruelty to ... *Mixing use of K for thousands and MM for millions* Jul 3, 2014 · In the general environment of municipal government, for dollars we use K for thousands, M for millions and B for billions. However, I often see where those who are dealing with financing (banks and investment houses for bonds) use the MM for millions of dollars. That being said, I think the most appropriate usage is using one alpha symbol consistently so that would lead to using K, M and B. **How to write numbers and percentage? - English Language** May 20, 2019 · [Relevant examples:] 1% [;] 45% [;] 100% In

discussions involving infrequent use of numbers you may spell out a percentage or an amount of money if you can do so in three words or fewer (five dollars, forty-five percent, two thousand dollars, sixty-eight cents). **Correct usage of lbs. as in "pounds" of weight** May 4, 2013 · Assuming it's not casual usage, I'd recommend "All items over five pounds are excluded," instead. Most style guides recommend spelling out numbers of ten or less, and in such a case I'd spell out the unit, too.
