Taken By Bear in Glacier National Park Kathleen Snow, 2020-05-01 The first-person accounts in *Taken by Bear* in Glacier National Park provide a you-are-there perspective on human and grizzly bear encounters since the park's founding in 1910. Most of these encounters have ended peacefully, but many have not. In order to most accurately tell the stories of those involved in the more deadly incidents, Kathleen Snow went directly to the source: the National Park Service archives. With help from personnel at park headquarters, Snow has collected more than 100 years' worth of harrowing true stories that read like crime scene investigations and provide hard-learned lessons in outdoor safety. A must-read for fans of *Taken by Bear* in Yellowstone and the classic *Bear Attacks: Their Causes and Avoidance* by Stephen Herrero.

Bears in Love TJ Bell, 2025-06-11 This duet of shifter romance novels proves that you should always choose the bear.

Book one – Bear With Me: This bear shifter tried to leave his roots, only to discover that what he left behind was exactly what he needed. Peter Karhu left his bear shifter pack to live among the humans over a decade ago, and he's not once regretted the decision. Until the one he left behind, Winona Orzo, shows up and rattles his perfectly crafted life. Her unexpected return to his life should evoke all sorts of negative emotions, but instead, he's feeling desires he shouldn't have. Especially not for someone who is fated to be with another. Scandals and threats of exposure to shifters everywhere seem small when it's all he can do to keep from claiming Winona as his own. Book two – Bear it All: There's a new bear in town, and he's tired of being alone. Four years ago, bear shifter Remy Ibhere found his fated mate. Four years ago, he was forced to let her go. His bear has never forgiven him. Now his bear refuses to stay away any longer, so Remy devises a plan to conquer the demons from her past in order to win her over. When his plan is unexpectedly thwarted, suddenly, Remy and Mallory are charging across country in a race against time, against their enemy—and her past demons. When they make it to their destination, will Mallory walk away again? Will Remy let her this time?

Taken by Bear in Yellowstone Kathleen Snow, 2016-03-07 Humans and grizzly bears have been coming into contact in Yellowstone National Park ever since it was founded in 1872. Most of these encounters have ended peacefully, but many have not. In order to most accurately tell the stories of those involved in the more deadly incidents, Kathleen Snow went directly to the source: the National Park Service archives. With help from personnel at park headquarters, Snow has collected more than 100 years' worth of hair-raising stories that read like crime scene investigations and provide hard-learned lessons in outdoor safety. A must-read for fans of Death in Yellowstone and anyone fascinated by human-animal interactions.

Bears in the Bird Feeders Jim Poling, 2013-03-30 Going to the cottage can be like travelling to your own tiny piece of the world. Cottage country whispers messages to us through the call of the loon, the wind sighing in the trees, and the hammering of a pileated woodpecker on a tree. But urban lifestyles block both adults and children from the lessons of nature. Our increasingly nature-deficient youth need more opportunities to see, hear, and feel the natural world, and to understand that all of us are part of it. After all, bush country is Canada's heritage. As family places for fun and relaxation, cottages provide time and solitude to reflect on how to make the world a calmer, less argumentative place. This book will bring you on a journey through the four seasons and teach you that nature has a remarkable power to heal itself ? it just needs the human race to give it a helping hand.

Gummy Bears In the Toilet - Who's Your Jamie Lolley? Chris Ward,2015-06-05 Student ministry (or Youth Ministry) may literally be the hardest job in the world. Only those who have not been called to lead or volunteer would disagree (and maybe some lead pastors). But, there is no greater reward, and no greater way to make a lasting change in the next generation than what youth and student pastors set out to do. The adventure is not in the job, but in the relationships we form together as we follow Jesus.

If you wonder where we've been or where we're going in America, you'll profit from it. —Roger Alestrom A good read for young or old, for different reasons. —C. K. Never Look a Polar Bear in the Eye Zac Unger, 2013-01-29 In this humorous mix of travelogue and memoir, a writer temporarily moves his California family north to Canada's Polar Bear Capital of the World. Welcome to Churchill, Manitoba. Year-round human population: 943. Yet despite the isolation and the searing cold here at the arctic's edge, visitors from around the globe flock to the town every fall, driven by a single purpose: to see polar bears in the wild. Churchill is "The Polar Bear Capital of the World." And for one unforgettable "bear season," Zac Unger, his wife, and his three children moved from Oakland, California, to make it their temporary home. But they soon discovered that it's really the polar bears who are at home in Churchill, roaming past the coffee shop on the main drag, peering into garbage cans, scratching their backs against fence posts and front doorways. Where kids in other towns receive admonitions about talking to strangers, Churchill schoolchildren get "Let's All Be Bear Aware" booklets to bring home. (Lesson number 8: Never explore bad-smelling areas.) Zac Unger takes readers on a spirited and often wildly funny journey to a place as unique as it is remote, a place where natives, tourists, scientists, conservationists, and the most ferocious predators on the planet converge. In the process he becomes embroiled in the controversy surrounding "polar bear science"—and finds out that some of what we've been led to believe about the bears' imminent extinction may not be quite the case. But mostly what he learns is about human behavior

in extreme situations . . . and also why you should never even think of looking a polar bear in the eye.
