Music, Subcultures and Migration Elke Weesjes, Matthew Worley, 2024-03-26 This edited volume concentrates on the period from the 1940s to the present, exploring how popular music forms such as blues, disco, reggae, hip hop, grime, metal and punk evolved and transformed as they traversed time and space. Within this framework, the collection traces how music and subcultures travel through, to and from democracies, autocracies and anocracies. The chosen approach is multidisciplinary and deliberately diverse. Using both archival sources and oral testimony from a wide variety of musicians, promoters, critics and members of the audience, contributors from a range of academic disciplines explore music and subcultural forms in countries across Asia, Europe, Oceania, North America and Africa. They investigate how far the meaning of music and associated subcultures change as they move from one context to another and consider whether they transcend or blur parameters of class, race, gender and sexuality.

Why You Like It Nolan Gasser, 2019-04-30 From the chief architect of the Pandora Radio’s Music Genome Project comes a definitive and groundbreaking examination of why we respond to music the way we do. Everyone loves music. But what is it that makes music so universally beloved and have such a powerful effect on us? In this sweeping and authoritative book, Dr. Nolan Gasser—a composer, pianist, and musicologist, and the chief architect of the Music Genome Project, which powers Pandora Radio—breaks down what musical taste is, where it comes from, and what our favorite songs say about us. Dr. Gasser delves into the science, psychology, and sociology that explains why humans love music so much; how our brains process music; and why you may love Queen but your best friend loves Kiss. He sheds light on why babies can clap along to rhythmic patterns and reveals the reason behind why different cultures around the globe identify the same kinds of music as happy, sad, or scary. Using easy-to-follow notated musical scores, Dr. Gasser teaches music fans how to become engaged listeners and provides them with the tools to enhance their musical preferences. He takes readers under the hood of their favorite genres—pop, rock, jazz, hip hop, electronica, world music, and classical—and covers songs from Taylor Swift to Led

Zeppelin to Kendrick Lamar to Bill Evans to Beethoven, and through their work, Dr. Gasser introduces the musical concepts behind why you hum along, tap your foot, and feel deeply. Why You Like It will teach you how to follow the musical discourse happening within a song and thereby empower your musical taste, so you will never hear music the same way again.

Nostalgia, Song and the Quest for Home Paul Carr,2025-08-07 What does it mean to evoke a sense of home through song, or intentionally utilize nostalgia in songwriting? This book explores a neglected aspect of scholarship surrounding the study

of song-its relationship with nostalgia and notions of 'home,' in the broadest sense. Each essay in this collection studies these factors from the perspective of 'production', 'text' and 'reception,' either individually or in combination. Making use of frameworks such as Marxism, critical theory and hauntology, this is a propulsive study of the global cultural phenomena of nostalgia music. From the perspective of 'production,' authors explore nostalgia as technique and the commercialization of nostalgia. The section focused on 'text' features case studies of nostalgic songs or albums about home and musicological analyses of the nostalgic trends of songwriters, songs, albums. Finally, the 'reception' essays facilitate examination of nostalgic narratives from the subjective and varying perspectives of audiences or listeners. Whether identifying with Bruce Springsteen or ABBA, or hailing from Ukraine or New Zealand, the featured music speaks to a listener's sense of home and self. From music of the Serbian diaspora and Country 'n' Irish music, which speak of a nostalgia for a homeland (or time) to which one cannot return, to a song performed in the Wuhan dialect for listeners who could not leave their homes during COVID containment, these collected essays feature the music of artists whose audiences have found and clung to a version of themselves.
