**John C. Pierce, Brent S. Steel**

More of Us to the West Trinity Dunn, 2021-04-14 On a trip to reignite the spark in her marriage, Alaina Grace's upgraded first-class ticket places her far from her husband and next to the notorious Jack Volmer, a former teen actor who'd previously hung on posters in her childhood bedroom. When an unusual storm forces their plane out of the sky, her ticket will save her life and require her to question everything. Ripped from the comforts of her world and injured, Alaina finds herself on an island in the middle of the Pacific, completely separated from her husband among eleven strangers. Seeking comfort in the presence of the single familiar face, Alaina quickly finds herself torn between her past and her present; between two loves in two contrasting worlds. As they navigate life on the island, they uncover mystery around the storm they encountered and begin to question whether it was indeed a storm at all. In this new foreign place, as they search for signs of rescue, these strangers will find adventure, hidden secrets, and in each other: family.

**US-West European Relations During the Reagan Years** Steven K. Smith, Douglas A. Wertman, 1992-06-18 Using extensive survey data, the authors examine the major issues which dominated US-West European relations during the Reagan years. These include security issues, terrorism, economic relations, superpower relations, and American and Soviet images.

*Making a Modern U.S. West* Sarah Deutsch, 2022 To many Americans in the nineteenth and twentieth centuries, the West was simultaneously the greatest symbol of American opportunity, the greatest story of its history, and the imagined blank slate on which the country's future would be written. From the Spanish-American War in 1898 to the Great Depression's end, from the Mississippi to the Pacific, policymakers at various levels and large-scale corporate investors, along with those living in the West and its borderlands, struggled over who would define modernity, who would participate in the modern American West, and who would be excluded. In *Making a Modern U.S. West* Sarah Deutsch surveys the history of the U.S. West from 1898 to 1940. Centering what is often relegated to the margins in histories of the region--the flows of people, capital, and ideas across borders--Deutsch attends to the region's role in constructing U.S. racial formations and argues that the West as a region was as important as the South in constructing the United States as a white man's country. While this racial formation was linked to claims of modernity and progress by powerful players, Deutsch shows that visions of what constituted modernity were deeply contested by others. This expansive volume presents the most thorough examination to

date of the American West from the late 1890s to the eve of World War II.

**Prospects for Alternative Energy Development in the U.S. West** John C. Pierce,Brent S. Steel,2017-04-04 This book poses the question of whether identifiable individual-level attributes (e.g., values, interests, knowledge, demographic characteristics) lead to support for or opposition to the development and implementation of alternative energy technologies. In recent years, attempts to site alternative energy technologies (e.g., wind, solar, wave) have been met by intense opposition from a variety of sources, including many environmentalists from whom one might expect support for non-carbon based renewable energy initiatives. This volume argues that there are indeed such discernible attributes, and moreover that the identification and exploration are important for the development of support strategies for the well-informed and achievable siting of such technologies.

**West Africa and the U.S. War on Terror** George Kieh,Kelechi Kalu,2013-05-07 Since the terrorist attacks on the American homeland on September 11, 2001, fighting the menace has become the frontier issue on the U.S.' national security agenda. In the case of the African Continent, the United States has, and continues to accord major attention to the West African sub-region. This book : Evaluates where we can place West Africa within the broader crucible of the U.S. war on terrorism Establishes the key elements of the U.S.' counter-terrorism policy in West Africa? Examines the U.S. counter-terrorism strategies in West Africa, and evaluates if they are being pursued both at the bilateral and multilateral levels in the region Interrogates the relationship between stability in the sub-region and the waging of the U.S.' war on terrorism. Specifically, the book examines the crises of underdevelopment—cultural, economic, environmental, political, security and social—in the sub-region, especially their impact on shaping the conditions that provide the taproots of terrorism. Clearly, addressing these multidimensional crises of underdevelopment is pivotal to the success of the U.S. war on terrorism in the sub-region. This book will be of great interest to students and scholars of terrorism, homeland security, African Studies, conflict management, and political violence.

**Californios, Anglos, and the Performance of Oligarchy in the U.S. West** Andrew Gibb,2018-05-15 In *Californios, Anglos, and the Performance of Oligarchy in the U.S. West*, author Andrew Gibb argues that the mid-nineteenth-century encounter between Anglos and californios—the Spanish-speaking elites who ruled Mexican California between 1821 and 1848—resulted not only in the Americanization of California but also the “Mexicanization” of Americans. Employing performance studies methodologies in his analysis of everyday and historical events, Gibb traces how oligarchy evolved and

developed in the region. This interdisciplinary study draws on performance studies, theatre historiography, and New Western History to identify how the unique power relations of historical California were constituted and perpetuated through public performances—not only traditional theatrical productions but also social events such as elite weddings and community dances—and historical events like the U.S. seizure of the city of Monterey, the feting of Commodore Stockton in San Francisco, and the Bear Flag Revolt.
