

Pink Floyd Need No Education

Matthew Etherington

Guitar World Presents Pink Floyd Alan Di Perna, Jeff Kitts, Brad Tolinski, 2002-06 Pink Floyd's extraordinary career has now spanned four decades, from their early days pushing the cutting edge of British psychedelic pop to their massive successes with moody, conceptual masterpieces like *Dark Side of the Moon*, *Wish You Were Here* and *The Wall*, to their acrimonious split with Roger Waters and finally, the immense stadium tours that followed. Throughout, Pink Floyd has influenced everyone from David Bowie to Nine Inch Nails to Radiohead, and their albums continue to have timeless appeal. Now, premier interview journalist Alan di Perna and the editors of *Guitar World* have collected penetrating interviews and insights into Roger Waters, David Gilmour, Nick Mason, and Rick Wright to create a vivid portrait of a notoriously reclusive band.

Pink Floyd and Philosophy George A. Reisch, 2011-04-15 With their early experiments in psychedelic rock music in the 1960s, and their epic recordings of the 1970s and '80s, Pink Floyd became one of the most influential and recognizable rock bands in history. As *The Pink Floyd Sound*, the band created sound and light shows that defined psychedelia in England and inspired similar movements in the Jefferson Airplane's San Francisco and Andy Warhol's New York City. The band's subsequent recordings forged rock music's connections to orchestral music, literature, and philosophy. *Dark Side of the Moon* and *The Wall* ignored pop music's ordinary topics to focus on themes such as madness, existential despair, brutality, alienation, and socially induced psychosis. They also became some of the best-selling recordings of all time. In this collection of essays, sixteen scholars expert in various branches of philosophy set the controls for the heart of the sun to critically examine the themes, concepts, and problems—usually encountered in the pages of Heidegger, Foucault, Sartre, or Orwell—that animate and inspire Pink Floyd's music. These include the meaning of existence, the individual's place in society, the interactions of knowledge and power in education, the contradictions of art and commerce, and the blurry line—the tragic line, in the case of Floyd early member Syd Barrett (died in 2006)—between genius and madness. Having dominated pop music for nearly four decades, Pink Floyd's dynamic and controversial history additionally opens the way for these authors to explore controversies about intellectual property, the nature of authorship, and whether wholes—especially in the case of rock bands—are more than the sums of their parts.

Brainwashing Kathleen Taylor, 2006-07-27 Throughout history, humans have attempted to influence and control the

thoughts of others. Since the word 'brainwashing' was coined in the aftermath of the Korean War, it has become part of the popular culture, served as a topic for jokes, and been exploited to create sensational headlines. It has also been the subject of learned discussion from many disciplines: including history, sociology, psychology, and psychotherapy. But until now, a crucial part of the debate has been missing: that of any serious reference to the science of the human brain. Descriptions of how opinions can be changed, whether by persuasion, deceit, or force, have been almost entirely psychological. In *Brainwashing*, Kathleen Taylor brings the worlds of neuroscience and social psychology together for the first time. In elegant and accessible prose, and with abundant use of anecdotes and case-studies, she examines the ethical problems involved in carrying out the required experiments on humans, the limitations of animal models, and the frightening implications of such research. She also explores the history of thought-control and shows how it still exists all around us, from marketing and television, to politics and education.

Foundations Matthew Etherington, 2025-05-16 This book is for undergraduate and graduate students, teachers, school administrators, organizational leaders, theologians, researchers, and education practitioners. It uncovers topics exclusive to education in general, particularly Christian education, while highlighting the experiences and perspectives of individual scholars in various contexts. This tenth-anniversary volume focuses on language, community, agency, and identity topics. Each chapter ends with discussion questions that offer the reader freedom of thought and expression and an opportunity to engage with others, preferably in smaller groups.

The Dialogical Self Theory in Education Frans Meijers, Hubert Hermans, 2017-10-20 This edited volume offers cross-country and cross-cultural applications of Dialogical Self Theory within the field of education. It combines the work of internationally recognized authors to demonstrate how theoretical and practical innovations emerge at the highly fertile interface of external and internal dialogues. The Theory, developed by Hubert Hermans and his colleagues in the past 25 years, responds fruitfully to the issue of educational experts hitherto working in splendid isolation and does so by combining two aspects of Dialogical Self Theory: the dialogue among individuals as well as dialogical processes within individuals, in this context students and teachers. It is the first book in which Dialogical Self Theory is applied to the field of education. In

13 chapters, authors from different cultures and continents produce theoretical considerations and a wide variety of practical procedures showing that this interface is an ideal ground for the production of new theoretical, methodological, and practical approaches that enrich the work of educational researchers and specialists. Academics, practitioners, and postgraduate students in the field of education, particularly those who are interested in the innovative and community-enhancing potentials of dialogue, will find this book valuable and informative. Ultimately the work presented here is intended to inspire more self-reflection and creative ways to engage in new conversations that can respond to real-world issues and in which education can play a more vital role.

Full Gospel, Fractured Minds? Rick M. Nañez, 2005 Rick Nañez outlines the anti-intellectual pattern that has been a part of the Pentecostal-Charismatic movement and demonstrates the God-given responsibility all believers have to use their minds to understand and defend the Bible as God's Word.

World Beyond Reason: The Orwellian Factor James C. Lewis, 2020-08-10 World Beyond Reason: The Orwellian Factor By: James C. Lewis World Beyond Reason: The Orwellian Factor is the product of several years of focused research and investigation prompted by national and world occurrences. There is a movement in this country to change the United States from a merit-based, market-economy typically referred to as “capitalism” to a Marxist nation by a group called “Progressives.” These Progressives claim they believe collectivist thought under a “Democratic Socialism” ideology would best serve the nation and world. James C. Lewis’s research has revealed that these Marxists fail to grasp they are being manipulated by a force whose ultimate goal is not socialism at all, but a totalitarian ideology under the misleading title of “New World Order.” But, this goal is not merely for the United States but will cover the entire world. Lewis’s research reveals that many events that are occurring today, such as the COVID-19 virus, the coming activation of the 5G network, Islamic terrorism, the “Deep State” or “shadow government,” failing countries, millions of displaced “refugees,” even the Progressive movement, are all calculated to destabilize the Western world enough that the “remedial” outcome will allow those NWO forces to take over and usher in a one-government world. My goal is to expose all of this so the American people get a full understanding that this is all very serious and dangerous to our very existence as a country and as a free people. Lewis, as a (retired) paralegal, spent his career in a field requiring careful legal and factual research, an understanding about human nature, criminal and constitutional law. He brings those skills to the research of this book.

Pink Floyd Hugh Fielder, 2023-10-24 Pink Floyd: Behind the Wall is a comprehensive history of the legendary band featuring photos, album covers, and posters as well as insight into their iconic songs and albums.

Defending the Resurrection Ed James Patrick Holding, 2010-08 Did Jesus rise from the dead? The question is one on which the truth of the Christian faith turns (1 Cor. 15). If Jesus did not rise, you may as well close down your church! In this volume, prominent Internet apologist James Patrick Holding and a team of Christian authors provide a series of essays

defending the Resurrection as a historical event, taking on criticisms from every angle - from that which is scholarly to that which is plain lunacy! With this book, you'll be prepared to meet many of today's greatest challenges to the core event of the Christian faith. Both the interested reader and especially the student of this subject should find many worthwhile discussions that are easily worth the price of the book. - from the Foreword by Dr. Gary Habermas

Synthesis Green Metrics John Andraos, 2018-12-07 Green chemistry promotes improved syntheses as an intellectual endeavour that can have a great impact both on preserving and utilizing our planet's finite resources and the quality of human life. This masterful accomplishment provides an evaluation of environmental impact metrics according to life cycle assessment analysis based on the Mackay compartment environmental model and Guinée environmental impact potentials formalism. Assumptions, limitations, and dealing with missing data are addressed. Best literature resources for finding key toxicological parameters are provided and applied to individual reactions as well as entire synthesis plans, in order to target molecules of interest. Key Features: Provides an evaluation of environmental impact metrics according to life cycle assessment analysis Summarises safety-hazard metrics according to the same model as life cycle assessment including occupational exposure limits, risk phrases, flammability, and other physical parameters The book will be useful in a range of chemistry courses, from undergraduate to advanced graduate courses, whether based in lectures, tutorials or laboratory experiments

Educating About Social Issues in the 20th and 21st Centuries Vol. 3 Samuel Totten, Jon Pedersen, 2014-01-01 EDUCATING ABOUT SOCIAL ISSUES IN THE 20th and 21st Centuries: A Critical Annotated Bibliography, Volume 3 is the third volume in a series that addresses an eclectic host of issues germane to teaching and learning about social issues at the secondary level of schooling, ranging over roughly a one hundred year period (between 1915 and 2013). Volume 3 specifically addresses how an examination of social issues can be incorporated into the extant curriculum. Experts in various areas each contribute a chapter in the book. Each chapter is comprised of a critical essay and an annotated bibliography of key works germane to the specific focus of the chapter.

Ode to Gen X Melissa Vosen Callens, 2021-03-01 Even for the casual viewer, the Netflix series *Stranger Things* will likely feel familiar, reminiscent of popular 1980s coming-of-age movies such as *The Goonies*, *E.T. the Extra-Terrestrial*, and *Stand by Me*. Throughout the series, nods to each movie are abundant. While *Stranger Things* and these classic 1980s films are all tales of childhood friendship and shared adventures, they are also narratives that reflect and shape the burgeoning cynicism of the 1980s. In *Ode to Gen X: Institutional Cynicism in Stranger Things and 1980s Film*, author Melissa Vosen Callens explores the parallels between iconic films featuring children and teenagers and the first three seasons of *Stranger Things*, a series about a group of young friends set in 1980s Indiana. The text moves beyond the (at times) non-sequitur 1980s Easter eggs to a common underlying narrative: Generation X's growing distrust in American institutions. Despite Gen X's cynicism

toward both informal and formal institutions, viewers also see a more positive characteristic of Gen X in these films and series: Gen X's fierce independence and ability to rebuild and redefine the family unit despite continued economic hardships. Vosen Callens demonstrates how *Stranger Things* draws on popular 1980s popular culture to pay tribute to Gen X's evolving outlook on three key and interwoven American institutions: family, economy, and government.

The Way of Wonder Jack Haas, 2002 This is a groundbreaking exploration of the mystery of existence, in that it both assimilates many divergent paths, showing how these proceed toward the same hallowed destination- wonder- and also by preparing the reader to walk along this way. There are over two-hundred and fifty individuals quoted in this work, from many disparate cultures, epochs, and paths. Though scholarly in nature, the book is intended to be inspirational, and is accessible to a vast range of readers. This is a book devoted to the miracle, awe, and beauty in all life. It is a book about the rapture of unknowing.

K-12 Education as a Hermeneutic Adventurous Endeavor Doron Yosef-Hassidim, 2017-10-19 Considering the role of compulsory mass education and schooling in a democratic society, this book introduces an alternative vision for K-12 education as an adventurous endeavour. Grounded in a strong theoretical framework, Yosef-Hassidim reveals the negative impact of instrumentalization of schools: when education is considered a social and political instrument, it serves dominant social forces' interests rather than students' or humanity as a whole. Offering conceptual and pragmatic frameworks to limit political influence on schooling, the author proposes a new hermeneutical structure that restores education's agency and separates it from external social forces, and provides the foundation for regarding K-12 education as a sovereign social sphere in its own right.

CineWorlding Michael B. MacDonald, 2023-01-12 Using cine-ethnomusicology as a focus, *CineWorlding* introduces readers to ways of thinking eco-cinematically. Screens are omnipresent, we carry digital cinema production equipment in our pockets, but this screen-based technological revolution has barely impacted social science scholarship. Mixing existential phenomenological fiction about social science digital cinema research practice followed by theoretical reflection and discussion of methods, this book has emerged from a decade-long inquiry into cineworlding and a desire to help others produce digital media to engage creatively with the digital networks that surround us.

A Generation of Radical Educational Change Richard Pring, Martin Roberts, 2015-12-14 How much have teachers and their pupils benefitted from the top-down Westminster-led control of policy held in place by a powerful national inspection regime? *A Generation of Radical Educational Change: Stories from the Field* is an exploration of the revolutionary impact of the greater and continuing involvement of central government in education policy-making which began in 1976 and was accelerated by the 1988 Education Act and subsequent legislation. In the book, a dozen distinguished contributors from a wide range of sectors explain and reflect on how they worked to do their best for their schools, teachers and pupils in these

years of great change. They understand the reasons, explained by Lord Baker in his early chapter, for a National Curriculum in 1988, and also the reasons for a more effective national inspection system. Yet their stories accumulate to become a powerful critique of the top-down policies of the last two decades. These policies have been too numerous, short-term, incoherent and partisan; governments have been indifferent to professional opinion and serious research, and have relied excessively on measurable outcomes and simplistic Ofsted judgments. Our current system is narrower and less democratic than it was, but evidence is hard to find that English pupils are doing any better in international comparisons. The combined reflections in this volume are timely in these years of lively educational debate as are the suggestions for future policy. A Generation of Radical Educational Change is an invaluable read for current and aspiring headteachers, policy makers and those with an interest in education policy and how it evolves.

Musings of a Military Mind BRIG Suyash Sharma VSM, 2021-02-14 Take a peek into the “puntastic” (as one of the readers described the Musings of this Military Mind) collection of articles, anecdotes and topical commentary of global events. The range is huge starting from the US Presidential Elections and Covid 19 to the training regimen of the cadets in the Defence Academies. The author has captured his ruminations in a lucid and simple story narrative. “The Trump Card” The Trump(ets) of the world have heaved a sigh of relief after four years of having been blown non-stop, no wonder all that they produced these days was Vivekamunandan... When they were queried on their misery, they responded tongue in cheek that They were 'biden' their time. “Independence Day the NDA Way” 2475 ft. was one of the peaks of the small hills in Khadakwasla. Why was it called 2475? No one knows. The actual height was probably a couple of feet less. Corporal then explained the modus operandi of the day's climb; we had to front roll up the slope...? Now this was turning out to be literally a bolt from the blue... a royal kick in the derriere provided the much needed booster. So began our very own freedom struggle, we the wretched second and third termers... the very lowly creatures in the food chain bore the brunt. “Oh those Bats” Apart from the social distancing, lockdowns and migrant labours, cricketers and baseball players are up in arms; they have asked for a change in the nomenclature of their “Bats”, they would not like to touch anything so vile in their wildest imagination. “Ode to NDA Masters” Giving meaningful looks!” was how the charge read, forwarded by Dr (Mrs) SK Singh; the cadet was summoned to the squadron office and questioned. He was punished to be sent on liberty to Pune next Sunday to leave the instructor in question alone... “Quarantined” Covid 19 after all is a teen, adolescent, neither an adult nor a kid, quite confused, not taken seriously by the Americans nor by the Chinese. He is out to prove a point. How I wish the Chinks had waited for two more months before letting it loose, then it would have been christened Covid 20 and would probably have been more reasonable. “A Close Shave” Today's youngsters are all Virat Kohli look alikes... clones, same bearded chins with hardly any clean cut faces. I wonder why this reverse evolution has commenced in the men folk, where they have got so entangled in the facial hair that they have messed up Darwin's treatise itself. At this rate, soon they should be growing their

vestigial tails on their derriere! “Close Encounters of the Hairy Kind(!)” The reason why we start to dread the visit to the saloon may be a matter of research. But to me it appears as though the blame lies squarely with our age old ‘samskaras’, ‘mundan’ as we all are aware, is our first introduction with this species of barbers or hair dressers, as they are addressed these days. Naturally after the ignominy of making a public spectacle of being shorn of one’s precious locks, the relations with the barbers were destined to be acrimonious.

Insight Into a Bright Mind Nicole Tetreault, Ph.D.,2021-03-30 Are you bright? Do you know someone who is? Among the bright population, many social, emotional, and intellectual abilities are unrecognized. Bright people are misunderstood and mislabeled as awkward geeks, mad scientists, maladjusted poets, oversensitive artists, hyperactive clowns, or antisocial misfits. Do you want to understand the science behind why intelligent, sensitive, and highly creative brains are simply different? In *Insight into a Bright Mind*, Dr. Nicole Tetreault translates recent groundbreaking research examining the minds of the most highly intelligent, creative, and intense brains, and explores new directions for the neurodiverse experiences of humans. You will learn how your brain is as unique as your fingerprint, and how your experience is elevated because you are simply hard-wired differently! *Insight into a Bright Mind* is intensely argued in favor of neuroindividuality, superbly researched with the latest scientific data, and deeply invested in engaging with a myriad of bright minds capturing their essence through storytelling and voice. Be liberated to embrace your essence with greater self-compassion and awareness, and unlock your unconventional mind.

Taking Social-Emotional Learning Schoolwide Thomas R. Hoerr,2019-12-18 What's the secret to making schoolwide SEL work? Growing numbers of people recognize that social-emotional learning (SEL) is central to a well-rounded education and to success in life outside and beyond the school building. What's missing is the know-how and framework for weaving SEL into the fabric of the school. In this highly practical and eminently readable book, Thomas R. Hoerr shows teachers, administrators, and other school staff how to integrate the Formative Five success skills (empathy, integrity, self-control, embracing diversity, and grit) with school culture essentials by answering these questions: 1. How can you ensure that your school or district is helping students develop their SEL skills across disciplines? Address your values, vision, mission. 2. What effective programs and activities support student development of SEL skills at the classroom, school, and district levels? Consider your practices. 3. How can you leverage personal relationships within the school and in the community to cultivate students' appreciation of how the differences among us make us stronger? Involve your people. 4. How can you weave an SEL narrative into your school's culture? Live your narrative. 5. What can you do to establish and nurture a welcoming school environment as you strive to enhance students' SEL skills? Embrace your place. Replete with real-life examples from the author's years as a school leader, relevant findings from the research, and helpful strategies for use at all levels and with all K-12 populations, *Taking Social-Emotional Learning Schoolwide* is the ultimate blueprint for making sure students and staff

are equipped to thrive.
