Serious Play Catherine Beavis,Michael Dezuanni,Joanne O'Mara,2017-05-08 Serious Play is a comprehensive account of the possibilities and challenges of teaching and learning with digital games in primary and secondary schools. Based on an original research project, the book explores digital games' capacity to engage and challenge, present complex representations and experiences, foster collaborative and deep learning and enable curricula that connect with young people today. These exciting approaches illuminate the role of context in gameplay as well as the links between digital culture, gameplay and identity in learners' lives, and are applicable to research and practice at the leading edge of curriculum and literacy development.

My Outdoor Life Ray Mears,2013-09-12 'If Ray Mears isn't a Great Living Englishman, then goodness me, who is? Ray is a persuader, pragmatist and populariser in the Durrell-Attenborough-Bellamy tradition.' - Robert Crampton, The Times Ray Mears is a household name through his television series Tracks, World of Survival, Bushcraft Survival, The Real Heroes of Telemark and many more. He is a private individual who shuns publicity whenever possible and would prefer to let his many skills tell their own tale - until now. In My Outdoor Life, Ray tells of his childhood and the formative years when he first developed a passion for both bushcraft and the martial arts skills that are central to his life. Having travelled the world several times over, he is no stranger to risk and has had more than his fair share of dangerous and life-threatening encounters to share with his readers. But his life is so much more than a tale of derring-do. Shortly after he returned to England having narrowly survived a serious helicopter crash, his father died. Just a year later, he had to face the death of his first wife Rachel. The book conveys the many sides of Ray Mears, taking us up to the present day - including the previously untold story of his involvement in the man-hunt for murderer Raoul Moat. My Outdoor Life gives us all a chance to share a life-story as rich and as inspirational as a walk in woods with the man himself, Ray Mears.

Killa Kevin Kilbane,2013-10-03 Kevin Kilbane is Ireland's third most capped player of all time, with 110 appearances for his country, including an incredible 66 consecutive matches. He played more than 600 matches at professional level, and in

Ireland is nothing less than a folk hero. But things could have been very different. Kilbane grew up the hard way, enduring a tough Lancashire childhood with his Irish immigrant family. It was only his prowess on the pitch, and subsequent signing with his childhood club Preston North End, that gave him the opportunity to escape poverty. Kilbane has since built a formidable reputation as an honest, dedicated professional who always gave his very best. He became a firm favourite with fans at the likes of West Bromwich Albion, Everton, Wigan and Hull, as well, of course, as Ireland, before he retired in 2012. Nowadays he is making a name for himself as a thoughtful analyst of the game on television and radio. But football is not the only passion in his life: as the parent of a daughter with Down's syndrome, he gives as much time and support as he can to the Down's Syndrome Association and Down's Syndrome Ireland, to which all the royalties from this book are being donated. Kilbane's autobiography is a genuinely inspiring story of a stalwart of the beautiful game.

Rules of Play Katie Salen Tekinbas, Eric Zimmerman, 2003-09-25 An impassioned look at games and game design that offers the most ambitious framework for understanding them to date. As pop culture, games are as important as film or television—but game design has yet to develop a theoretical framework or critical vocabulary. In *Rules of Play* Katie Salen and Eric Zimmerman present a much-needed primer for this emerging field. They offer a unified model for looking at all kinds of games, from board games and sports to computer and video games. As active participants in game culture, the authors have written *Rules of Play* as a catalyst for innovation, filled with new concepts, strategies, and methodologies for creating and understanding games. Building an aesthetics of interactive systems, Salen and Zimmerman define core concepts like play, design, and interactivity. They look at games through a series of eighteen game design schemas, or conceptual frameworks, including games as systems of emergence and information, as contexts for social play, as a storytelling medium, and as sites of cultural resistance. Written for game scholars, game developers, and interactive designers, *Rules of Play* is a textbook, reference book, and theoretical guide. It is the first comprehensive attempt to establish a solid theoretical framework for the emerging discipline of game design.

The Routledge Handbook of Language and Persuasion Jeanne Fahnestock,Randy Allen Harris,2022-09-30 This handbook provides a wide-ranging, authoritative, and cutting-edge overview of language and persuasion. Featuring a range of international contributors, the handbook outlines the basic materials of linguistic persuasion – sound, words, syntax, and discourse – and the rhetorical basics that they enable, such as appeals, argument schemes, arrangement strategies, and accommodation devices. After a comprehensive introduction that brings together the elements of linguistics and the vectors of rhetoric, the handbook is divided into six parts. Part I covers the basic rhetorical appeals to character, the emotions, argument schemes, and types of issues that constitute persuasion. Part II covers the enduring effects of persuasive language, from humor to polarization, while a special group of chapters in Part III examines figures of speech and their rhetorical uses. In Part IV, contributors focus on different fields and genres of argument as entry points for research into conventions of arguing. Part V examines the evolutionary and developmental roots of persuasive language, and Part VI highlights new computational methods of language analysis. This handbook is essential reading for those researching and studying persuasive language in the fields of linguistics, rhetoric, argumentation, communication, discourse studies, political science, psychology, digital studies, mass media, and journalism.

Reality TV Misha Kavka,2012-02-15 This book is a study of the 'Reality TV' format which, in less than a decade, has transformed network programming schedules, branded satellite and digital stations, become a favourite target for anti-

I'll Take Learning for 500 Dan Yaman, Missy Covington, 2006-04-20 I'll Take Learning for 500 shows you how to leverage the excitement and entertainment inherent in game shows by using them to increase participant involvement as well as information retention and comprehension. This book will help trainers and teachers to select, create, modify, and employ game shows as a powerful, effective learning tool. The authors illustrate all of the many different elements that are required to make an effective game show—from writing effective questions to changing pre-existing game show rules, hosting, and creating new games. They offer expert advice on selecting the best game to fit the purpose of the training, tailoring and customizing it for a specific situation, and effectively presenting it to create a dynamic and exciting learning experience. The CD that accompanies the book includes several valuable game show templates that trainers can immediately pick up and use as a hands-on resource.

Social Skills Training Jed Baker, 2023-08-01 Social Skills Training is the complete package: whether learning how long to look at somebody; how to shift topics, despite a desire to stick with that all-consuming special interest; how to say no to peer pressure; or dealing with sensitive topics—it's all here. In this comprehensive and user-friendly book, the author translates years of experience working with students with autism and social communication differences. This is not just another social skills curriculum, but instead, a manual that lays out the key components of effective social skills training. Detailed chapters contain critical elements of skills training, including how to collaborate with and motivate clients, target relevant skills, match teaching strategy to language ability, generalize skills, create accepting peer programs, and measure progress. This 20th anniversary edition includes more than twenty-five new skill lessons and new research.

Engaging the Brain Marcia L. Tate, 2024-08-26 Create unforgettable learning experiences for your students What can you do when students would rather socialize than pay attention to your lesson? When students appear to lack motivation, how do teachers ensure that learning sticks? How can you best respond to learning loss caused by the pandemic? In this new edition of Marcia Tate's wildly bestselling Worksheets Don't Grow Dendrites, 20 field-tested, brain-compatible instructional strategies designed to maximize memory are supported by new classroom applications and research. In each chapter devoted to an individual strategy, you'll discover: The latest research on how the brain benefits when the strategy is used How the strategy engages all students and addresses common behavior problems Sample classroom activities for various grade levels that teachers can implement immediately Action plans for incorporating each strategy to accelerate learning When students actively engage in learning, they stand a much better chance of retaining what we want them to know. As students face setbacks and learning gaps, it's imperative that we quickly bridge these divides by teaching them in the way their brains learn best.
