*Our Bravest Young Men* Corinne McConnell Brulé,2009-04

**Our Bravest Young Men, Vol. I** Corinne McConnell Brulé,2012-11-08 This is one volume of a two-volume book. This novel is a political statement set within a story in the Vietnam War. The purpose of this book is to entertain, to educate and to give a message about the Vietnam War. The author has kept historical accuracy and realism to make this book meaningful. Inspiration for writing this book came from the author's experience of living in America with the Vietnam War and from the author's recollections of Soldiers who were drafted and who fought in the war. This book contains historic and well-known quotations about war that have been used in the dialogue. Some battlefield-action has been added so the reader has a balance of action scenes and political discussions on the war.

**Signs of War: From Patriotism to Dissent** A. Obajtek-Kirkwood,E. Hakanen,2007-12-09 An analysis of Vietnam, 9/11 and the Iraq War from patriotism to dissent through various visual and written signs among which the US flag, ribbons, car-stickers, cartoons, movies, the media and presidential war rhetoric.

**Man's Fate and God's Choice** Bhimeswara Challa,2021-06-29 Stagnate as a 'creepy caterpillar' or transform into a 'beauteous butterfly'-this path-breaking book of a rare genre suggests-is the seminal choice before mankind, and every one of us. In this setting, the book raises some fundamental questions: What is man's rightful place in the cosmos and his manifest destiny on earth? Why are we so self-righteously self-destructive? Are we a doomed species? Or 'divine' beings struggling to overcome the hubris of the human intellect? Is God getting weary of mankind? How should we synergize human effort and Divine Grace? The book posits that any betterment in human behavior needs a cathartic change at the deepest levels. That requires diluting the dominance of the mind and reawakening the long-dormant intelligence of the human heart. To meet that challenge, we need minimum numbers, a 'critical mass' to create self-sustained momentum for transformation through

consciousness change. And every single human of this generation should behave in such a way that he or she is that single person whose transformation could make the decisive species-scale difference. The book offers a menu of ideas and an agenda of action. This book could be itself become an input to mobilize that very 'critical mass' it advocates for human transformation. Well-planned and cohesively written, the book is noteworthy for its delightful blend of information and arguments, and reveals the depth of the author's understanding of the human predicament... This is a closely argued and thought-provoking book... The Hindu, 13 Sept 2011 [This book] is a gripping exposition on human nature and self-transformation without preference to religion... Challa has critically provided a foundational argument for a deeper discussion of philosophical and practical ideals concerning self-transformation... harmonizing the head and the heart is the way for humans to function as spiritual beings. Recommended by the USR. The US Review of Books [The author] reflects upon the crisis of contemporary civilizations and outlines a blueprint for a new world order based on progressive spiritual values and change of human consciousness. The strength of this treatise is the sweep of Challa's reach and his treatment of a vastly complex set of issues that bedevil humankind today... India International Center Quarterly, Summer 2012 As a thinker and erudite scholar, [the author] has made a profound study of the world situation and the moral decadence of man... [This book] deserves to be on the shelves of university, college and public libraries... Triveni Magazine, July-Sept 2011 It is difficult to pigeon-hole this book as... a 'prophetic discourse', a 'journey into the human mind', a 'guide for human survival', a 'spiritual treatise'. It is an amalgam of all these and more... the volume reaches out to those who are already uneasy about the way we on this earth are progressing. The Book Review, India, June 2013

During the course of discussions, the Alien expresses its wrath on the greedy leaders and the ongoing Ukraine and Russia War. He highlights losses incurred due to major wars, offers various ideas to stop wars and also warns about impending natural calamities. He asks all the leaders to go through Self Appraisal Test and poses open challenge to them. He suggests for reduction in defence expenditure and divert funds for human welfare causes. He asks everyone to offer Global Prayers hoping for a Miracle and depute various delegations to warring nations for serious dialogues. He asks whether countries should go in for useless wars looking to the recurring natural calamities and disasters in the world?

**Hearts and Minds** Michael Bibby, 1996 The early 1960s to the mid-1970s was one of the most turbulent periods in

American history. The U.S. military was engaged in its longest, costliest overseas conflict, while the home front was torn apart by riots, protests, and social activism. In the midst of these upheavals, an underground and countercultural press emerged, giving activists an extraordinary forum for a range of imaginative expressions. Poetry held a prominent place in this alternative media. The poem was widely viewed by activists as an inherently anti-establishment form of free expression, and poets were often in the vanguards of political activism. *Hearts and Minds* is the first book-length study of the poems of the Black Liberation, Women's Liberation, and GI Resistance movements during the Vietnam era. Drawing on recent cultural and literary theories, Bibby investigates the significance of images, tropes, and symbols of human bodies in activist poetry. Many key political slogans of the period--black is beautiful, off our backs--foreground the body. Bibby demonstrates that figurations of bodies marked important sites of social and political struggle. Although poetry played such an important role in Vietnam-era activism, literary criticism has largely ignored most of this literature. Bibby recuperates the cultural-historical importance of Vietnam-era activist poetry, highlighting both its relevant contexts and revealing how it engaged political and social struggles that continue to motivate contemporary history. Arguing for the need to read cultural history through these underground texts, *Hearts and Minds* offers new grounds for understanding the recent history of American poetry and the role poetry has played as a medium of imaginative political expression.

**Torch** Vincent O'Hara, 2015-09-15 World War II had many superlatives, but none like Operation Torch—a series of simultaneous amphibious landings, audacious commando and paratroop assaults, and the Atlantic's biggest naval battle, fought across a two thousand mile span of coastline in French North Africa. The risk was enormous, the scale breathtaking, the preparations rushed, the training inadequate, and the ramifications profound. Torch was the first combined Allied offensive and key to how the Second World War unfolded politically and militarily. Nonetheless, historians have treated the subject lightly, perhaps because of its many ambiguities. As a surprise invasion of a neutral nation, it recalled German attacks against countries like Belgium, Norway, and Yugoslavia. The operation's rationale was to aid Russia but did not do this. It was supposed to get Americans troops into the fight against Germany but did so only because it failed to achieve its short-term military goals. There is still debate whether Torch advanced the fight against the Axis, or was a wasteful dispersion of Allied strength and actually prolonged the war. *Torch: North Africa and the Allied Path to Victory* is a fresh look at this complex and controversial operation. The book covers the fierce Anglo-American dispute about the operation and charts how it fits into the evolution of amphibious warfare. It recounts the story of the fighting, focusing on the five landings—Port Lyautey, Fédala, and Safi in Morocco, and Oran and Algiers in Algeria—and includes air and ground actions

from the initial assault to the repulse of Allied forces on the outskirts of Tunis. Torch also considers the operation's context within the larger war and it incorporates the French perspective better than any English-language work on the subject. It shows how Torch brought France, as a power, back into the Allied camp; how it forced the English and the Americans to work together as true coalition partners and forge a coherent amphibious doctrine. These skills were then applied to subsequent operations in the Mediterranean, in the English Channel, and in the Pacific. The story of how this was accomplished is the story of how the Allies brought their power to bear on the enemy's continental base and won World War II.

**America and the War of 1812** Eugene M. Wait, 1999 This is a complete account of the war of 1812 in American history, with due attention to naval battles as well as land battles. It begins with the background of the war in interesting detail and covers the war itself for the majority of the book. Besides military events the book tells about people and events of domestic matters, particularly in relation to the war. Military actions are clearly given. The book introduces Andrew Jackson and other commanders on land and sea and the Cherokees and other Indians. Details of victories and defeats and the taking of Washington are covered.

**The Encarta Book of Quotations** Bill Swainson, 2000-09-30 Here are 25,000 quotations drawn from the history, politics, literature, religions, science, and popular culture of the world--ranging from the earliest Chinese sages through Shakespeare to the present day.

*Modern American Religion, Volume 3* Martin E. Marty, 1986 Vol. 1: The Irony of it all, 1893-1919; Vol. 2: The Noise of conflict, 1919-1941.

This new edition offers expanded coverage of web publishing and mobile media, giving students solid editing skills for today's evolving media and news forums. Features of the Third Edition: -Editing 2.0 boxes discuss the impact of digital technology and social media on editing. -Coverage of grammar problems and a new chapter on working with numbers provide students with a strong grasp of math and grammar, which are the underpinnings for all writing and editing. -An emphasis on editing for brevity prepares students to write and edit clearly and briefly, for print and for the web. -A chapter on the art of headline writing guides students through one of the editor's most important tasks, and introduces the task of search engine

optimization. -Examples of ethics and legal situations show students how issues arise in even the most basic stories, and how to address them. -Online exercises present additional practice for students, without needing to purchase a workbook.

Daschle vs. Thune Jon K. Lauck, 2016-04-18 The story behind the unseating of a Senate majority leader the race between Tom Daschle and John Thune in South Dakota was widely acknowledged as “the other big race of 2004.” Second in prominence only to the presidential race, the Daschle-Thune contest pitted the rival political ideologies that have animated American politics since the 1960s. In a sign of the ongoing strength of political conservatism, Daschle became the first Senate leader in fifty years to lose a re-election bid. Historian Jon K. Lauck, a South Dakotan who was an insider during that heated campaign, now offers a multilayered examination of this hard-fought and symbolically charged race. Blending historical narrative, political analysis, and personal reflection, he offers a close-up view of the issues that divide the nation—a case study of the continuing clash between liberalism and conservatism that has played out for more than a generation in U.S. politics. *Daschle vs. Thune* moves beyond the nitty-gritty of public policy to deftly show how the recent past continues to shape the ongoing political battles that animate pundits and bloggers. It is a compelling story told by a writer who knows both his home ground and how it fits into the wider U.S. context.

*US Foreign Policy* Michael Cox, Doug Stokes, 2018 Critical and connected: brings together diverse political perspectives from the world's leading experts, giving students the tools to critically evaluate America's ever-changing role in international politics and to connect theory to real events.

**They Never Said It** Paul F. Boller Jr., John George, 1990-06-14 Abraham Lincoln never said, You cannot fool all the people all the time. Thomas Jefferson never said, That government is best which governs least. And Horace Greeley never said, Go west, young man. In *They Never Said It*, Paul F. Boller, Jr. and John George examine hundreds of misquotations, incorrect attributions, and blatant fabrications, outlining the origins of the quotes and revealing why we should consign them to the historical trashcan. Many of the misquotes are quite harmless. Some are inadvertent misquotes that have become popular (Shakespeare actually said, The best part of valor is discretion), others, the inventions of reporters embellishing a story (Franklin Roosevelt never opened a speech to a DAR group with the salutation, My fellow immigrants). But some of the quotes, such as Charles Darwin's supposed deathbed recantation of evolution, falsify the historical record with their blatant dishonesty. And other chillingly vicious ones, filled with virulent racial and religious prejudices, completely distort the views of the person supposedly quoted and spread distrust and hatred among the gullible. These include the forged remarks attributed to Benjamin Franklin that Jews should be excluded from America and the fabricated condemnation of Catholics attributed to Lincoln. An entertaining and thought-provoking book, *They Never Said It* covers a great deal of history and sets it right. Going beyond a mere catalog of popular misconceptions, Boller and George reveal how rightists and leftists, and atheists and evangelists all have at times twisted and even invented the words of eminent figures to promote their own ends.

The ultimate debunking reference, it perfectly complements handbooks of quotations.
