The Story Behind the Holocaust Natalie Silverman,2013 Just as Hitler wanted a New World Order, we now have a new world order, also called Globalism taking shape. We must all face the challenges of giving up our national sovereignty, many of our constitutionally guaranteed freedoms, peace, and prosperity. We must consider the reality of One World Government and One World Religion. We must consider The European Union, The North American Free Trade Agreement, The World Trade Organization Agreement, and numerous other such little discussed Agreements. We must consider The United Nations Report of the Commission on Global Governance, along with its Agenda 21, sustainability and population reduction because it is easier for the powers that be, like the Trilateral Commission and their associates, to control a population of 1.5 billion rather than 8 or more billion people. The Global 2000 Report, The Charter of Economic Right and Freedoms, are largely being dismissed. Why? Herein we discuss the almost inexplicable ethical and philosophical reasons much of the world has long hated the Jewish peoples, the Gypsy peoples, the Aborigines, and the disabled, of any and all nations. This book is a thought provoking attempt to reveal how money and power become concentrated in the hands of a few well known, well respected, evil beings, their families, their secret societies, and often their religious organizations. These same families and organizations, have through psychological conditioning of populations, through the centuries maintained control of societies, policies, and history.

*States of Crisis and Post-Capitalist Scenarios* Heiko Feldner,Fabio Vighi,2017-05-15 *States of Crisis and Post-Capitalist Scenarios* engages with the crisis of our capitalist world, with a view to explaining its origins, unravelling its symptoms, and demystifying the anodyne corrective solutions so far proposed. At the same time, it endorses the necessity for utopian interventions aimed at drastically rethinking our social order. Organised around the themes of economy and politics, critical theory, and culture in order to offer an impressive range of thematic perspectives and critical angles, the book delves into the most pressing of today's quandaries by combining stringent critical analysis with creative foresight. A rigorous examination of the current crisis of late-capitalist society, *States of Crisis and Post-Capitalist Scenarios* develops paradigms that promise to rekindle the desire to move beyond capitalism towards a different social order. As such, it will appeal to scholars and students across the humanities and social sciences with particular interests in social and political theory, contemporary philosophy and the crises faced by the current capitalist order.
