Conflicted John Stamper, 2023-02-22 At what point can a Christian teacher no longer be part of a public education system that requires them to participate in teaching destructive ideologies and advancing immoral agendas on young children? John Stamper reached that tipping point as a teacher in the Chicago Public School System and made the decision to quit his job and pull back the curtain on what's happening in public schools today. You've seen the stories on the news - our national education system has an agenda, being implemented under the guise of fairness, equality, and racial justice to children. However, this book will open your eyes to: The indoctrination process through mandatory teacher training that implements these radical ideologies in schools without parental knowledge The danger and division created by critical race theory and gender theory being promoted in public schools How Marxist, socialist, and communist ideologies are dominating public schools, and how you move forward with homeschooling your children For generations, teachers have been excellent role models, investing their time and energy into fundamental lessons. However, today a growing number think they, the school board, and their school system know more than parents about what should be taught to students. You need to know what is going on in your child's school and be prepared for the conflict of values that you may have to face. You have options.

Hayek: A Collaborative Biography Robert Leeson, 2018-05-15 Funded by the tobacco and fossil fuel industries, the Mises- and Hayek-inspired 'free' market has adopted 'The Slogan of Liberty' - but should their faith-based assertions be accorded the same epistemological status as a science? If Austrian economics is a branch of divinely revealed 'knowledge' - as the epigone Godfather, Hans Sennholz, insists - what validity do its policy recommendations have? Should those who falsely claim to have PhDs be tax-funded as 'Post-Doctoral Fellows' and 'Professors'? This volume examines the consequences of the

'free' market colonisation of economics – climate change, financial crises and the corruption of academic discourse

The Discourse of Character Education Peter Smagorinsky, Joel Taxel, 2005-05-06 In this book Peter Smagorinsky and Joel Taxel analyze the ways in which the perennial issue of character education has been articulated in the United States, both historically and in the current character education movement that began in earnest in the 1990s. The goal is to uncover the ideological nature of different conceptions of character education. The authors show how the current discourses are a continuation of discourse streams through which character education and the national purpose have been debated for hundreds of years, most recently in what are known as the Culture Wars--the intense, often passionate debates about morality, culture, and values carried out by politicians, religious groups, social policy foundations, and a wide range of political commentators and citizens, in which the various stakeholders have sought influence over a wide range of social and economic issues, including education. The centerpiece is a discourse analysis of proposals funded by the United States Department of Education's Office of Educational Research and Improvement (OERI). Discourse profiles from sets of states that exhibit two distinct conceptions of character are examined and the documents from particular states are placed in dialogue with the OERI Request for Proposals. One profile reflects the dominant perspective promoted in the U.S., based on an authoritarian view in which young people are indoctrinated into the value system of presumably virtuous adults through didactic instruction. The other reflects the well-established yet currently marginal discourse emphasizing attention to the whole environment in which character is developed and enacted and in which reflection on morality, rather than didactic instruction in morality, is the primary instructional approach. By focusing on these two distinct regions and their conceptions of character, the authors situate the character education movement at the turn of the twenty-first century in the context of historical notions about the nature of character and regional conceptions regarding the nature of societal organization. This enlightening volume is relevant to scholars, practitioners, policymakers, and students across the field of education, particularly those involved in character education, moral development, discourse analysis, history and cultural foundations of education, and related fields, and to the wider public interested in character education.

The Many Worlds of American Communism Joshua Morris, 2022-09-08 This book explores the multifaceted dimensions that make up the American communist movement from its early years in the 1920s to its peak in the years leading up to World War II. The author argues that in order to effectively understand a social movement, it is necessary to take an approach that differentiates between the political-, social-, and labor-oriented motivations taken by the movement's participants. By exploring the political, community, and labor dimensions of American communism, the author helps convey the complex nature of social movements and the various ways they attempted to create agency in their society.

The postsocialist contemporary Octavian Esanu, 2021-11-23 The postsocialist contemporary joins a growing body of scholarship debating the definition and nature of contemporary art. It comes to these debates from a historicist perspective,

taking as its point of departure one particular art programme, initiated in Eastern Europe by the Hungarian-American billionaire George Soros. First implemented in Hungary, the Soros Center for Contemporary Art (SCCA) expanded to another eighteen ex-socialist countries throughout the 1990s. Its mission was to build a western 'open society' by means of art. This book discusses how network managers and artists participated in the construction of this new social order by studying the programme's rise, evolution, impact and broader ideological and political consequences. Rather than recounting a history, its engages critically with 'contemporary art' as the aesthetic paradigm of late-capitalist market democracy.

The Invincible Family Kimberly Ells, 2020-07-21 In this shocking report, Kimberly Ells tells the story of earth's oldest institution—the family—in a way it has never been told before. The Invincible Family challenges current social doctrines, unmask the annihilation of womanhood in the name of women's empowerment, and exposes the efforts of United Nations agencies to advance sexual rights for children. The Invincible Family is both a call to arms to defend the most essential human institution in its darkest hour and a rich source of encouragement. Kimberly Ells is a researcher on family policy and has spoken at the United Nations and around the country on international threats to children and the family. A graduate of Brigham Young University, she is married and the mother of five children.

The Naked Australian Constitution Ian Killey, 2022-07-07 Despite the Australian Constitution having been one of the most stable since its commencement in 1901, it is becoming fatally flawed. The Naked Australian Constitution examines these flaws and the lack of public appreciation of those defects. This is due to several serious errors, including the racial basis of its origin, and the misleading nature of its text—with the High Court having interpreted it in a remarkably subjective manner, undermining the few express requirements and freedoms in the Constitution while also applying concepts that are not required by the constitutional text. As a result, the Constitution is now what the High Court says it is, instead of what it was expected to be by its drafters. Most Australians have no knowledge of the Constitution or its operation, but with the growing subjective application of the Constitution, this constitutional digression requires remedy by a Constitutional review. Ian Killey argues that without review, the Australian people will eventually see the Australian Constitution for what it is rapidly becoming—an Emperor with no clothes.

Why Did Yahweh and His Son Yahshuah Say What They Said? Dr. Justin G. Prock, 2020-05-07 YAHWEH (The LORD God) and His Son YAHSHUAH (Jesus Christ) made statements with regard to Eschatology that have been "Spiritualized" for over a Millennium, which has led to the belief in Universalism, the belief that YAHSHUAH died for EVERYONE. Well, after one studies the original languages of the Hebrew, Aramaic, and Greek, the message of the Kingdom of God was preached to and accepted by a certain House in the Bible. The other House rejected this message, and YAHSHUAH punished that House by taking the Kingdom away from them and giving It to another nation bringing forth fruit. There are only the House of Israel, the House of Judah, and the House of David, mentioned in the Bible. All three existed then, as they do today. However,

most of today's Babylonian Priesthood/Churchianity refuses to accept the secular historical position with regard to the House of Israel, and who they are today. The people groups, which YAHWEH and YAHSHUAH addressed, still exist today. However, these people are all mixed-up, and known by different names, but they DO exist. This book goes back to the origin of these people groups in the Bible, and brings them forward to the present using their old names, in order to understand Eschatology. This brings us to the major question of, "Is the Bible only about Israel?" And, if so, how does it affect our Eschatology today? This book answers these hard questions...

Handsomely Done Daniel Hoffman-Schwartz, 2019-04-15 Handsomely Done: Aesthetics, Politics, and Media after Melville brings together leading and emerging scholars from comparative literature, critical theory, and media studies to examine Melville's works in light of their ongoing afterlife and seemingly permanent contemporaneity. The volume explores the curious fact that the works of this most linguistically complex and seemingly most "untranslatable" of authors have yielded such compelling translations and adaptations as well as the related tendency of Melville's writing to flash into relevance at every new historical-political conjuncture. The volume thus engages not only Melville reception across media (Jorge Luis Borges, John Huston, Jean-Luc Godard, Led Zeppelin, Claire Denis) but also the Melvillean resonances and echoes of various political events and movements, such as the Attica uprising, the Red Army Faction, Occupy Wall Street, and Black Lives Matter. This consideration of Melville's afterlife opens onto theorizations of intermediality, un/translatability, and material intensity even as it also continually faces the most concrete and pressing questions of history and politics.

The Form of Ideology and the Ideology of Form Francesca Orsini, Neelam Srivastava, Laetitia Zecchini, 2022-02-23 This timely volume focuses on the period of decolonization and the Cold War as the backdrop to the emergence of new and diverse literary aesthetics that accompanied anti-imperialist commitments and Afro-Asian solidarity. Competing internationalist frameworks produced a flurry of writings that made Asian, African and other world literatures visible to each other for the first time. The book's essays examine a host of print culture formats (magazines, newspapers, manifestos, conference proceedings, ephemera, etc.) and modes of cultural mediation and transnational exchange that enabled the construction of a variously inflected Third-World culture which played a determining role throughout the Cold War. The essays in this collection focus on locations as diverse as Morocco, Tunisia, South Asia, China, Spain, and Italy, and on texts in Arabic, English, French, Hindi, Italian, and Spanish. In doing so, they highlight the combination of local debates and struggles, and internationalist networks and aspirations that found expression in essays, novels, travelogues, translations, reviews, reportages and other literary forms. With its comparative study of print cultures with a focus on decolonization and the Cold War, the volume makes a major contribution both to studies of postcolonial literary and print cultures, and to cultural Cold War studies in multilingual and non-Western contexts, and will be of interest to historians and literary scholars alike.

Not on My Watch Elizabeth Johnston, 2019-02-12 The Activist Mommy, a social media sensation with over 70 million video views, leads the way for today's Christians in the culture war. News headlines point to a world that has gone stark-raving mad. Right is wrong and wrong is right. Religious liberty is under attack. Gender identity and fluidity is not only accepted but encouraged. Same-sex marriage is embraced by some churches. Deviant sexual practices are taught in schools. Hundreds of thousands of babies are aborted annually. No more! cries Elizabeth Johnston (aka The Activist Mommy), who has made Christian activism a calling for her life and her family. In *Not on My Watch*, Johnston courageously defends the timeless truths of God's Word and inspires and encourages other Christians to unite in winning this war for our children, our morals, our freedom, and our culture.

Legacies of Empire Sandra Halperin, Ronen Palan, 2015-11-26 This book reveals how the structures and practices of past empires interact with and shape contemporary 'national' ones.

Without a Shot Indeed David Risselada, 2021-06-24 Nikita Khrushchev proudly proclaimed the United States would one day awaken as a full-blown communist country. Americans are gullible, he said, the United States will be defeated without firing a shot. What did he mean by this? This book will attempt to answer this question by examining the social sciences used to study our behavior for the purpose of manipulating and changing it. The theories of B.F. Skinner, Cass Sunstein and others will be looked at along with scientific models from which our behavior is examined. Persuasive communication strategies designed to gain compliance will also be explored along with what is understood about the human reaction to fear. *Without a Shot Indeed: Inducing Compliance to Tyranny* will expose the reader to the reality that our behaviors, beliefs and attitudes are constantly under the microscope and the target of those seeking to change our nation.

The Pledge William J Murray, 2007 Filled with the records of those vital events and key individuals that have molded and shaped the history of the Christian Church, both for the good and the bad.

The Perilous Fight Ben Carson, M.D., 2024-05-14 Learn from one of our leading conservative voices how we can return to the biblical values our nation was founded upon, especially the vital importance of the family, in order to secure a prosperous future for generations to come. Does America no longer feel like home? Widespread divorce rates, the erosion of traditional marriage, the popular rise of radical ideologies, attacks on faith, and government interference are only a few of the factors contributing to the struggles of families in our culture. And because of the importance of healthy families to every part of our national life, the breakdown of the family threatens to rob us of the country we love. But it doesn't have to be this way. Like many of us, Dr. Ben Carson fears we are losing the country we love. In this provocative and ultimately hopeful book, he gives us the facts, inspiration, and theory-to-action answers we need to restore a key foundation of America: the family. *The Perilous Fight* equips us to understand: The hard data behind the breakdown of the family and its effects on our society, including poverty, crime, and deteriorating education The core biblical beliefs that led our nation into unprecedented

freedom and prosperity--and why abandoning those beliefs led to the social decline we see today The fresh ideas and public policy options that could reverse negative trends impacting the family while maintaining a balance between constitutional freedoms and governmental involvement This is a practical and inspiring book for anyone who: Feels discouraged about the state of our country and its institutions Needs hope that there are commonsense, attainable solutions that we all can practice Appreciates a conservative, Scripture-based approach to restoring faith, liberty, community, and life in America Strong families are the cornerstone of strong communities. Strong communities build a strong nation. Only when we prioritize the family as an institution established by God will we proudly remain the land of the free and the home of the brave.

A Time of Fear Albert Marrin, 2021-03-30 From National Book Award Finalist and Sibert Honor Author Albert Marrin, a timely examination of Red Scares in the United States, including the Rosenbergs, the Hollywood Ten and the McCarthy era. In twentieth century America, no power--and no threat--loomed larger than the communist superpower of the Soviet Union. America saw in the dreams of the Soviet Union the overthrow of the US government, and the end of democracy and freedom. Meanwhile, the Communist Party of the United States attempted to use deep economic and racial disparities in American culture to win over members and sympathizers. From the miscarriage of justice in the Scotsboro Boys case, to the tragedy of the Rosenbergs to the theatrics of the Hollywood Ten to the menace of the Joseph McCarthy and his war hearings, Albert Marrin examines a unique time in American history...and explores both how some Americans were lured by the ideals of communism without understanding its reality and how fear of communist infiltration at times caused us to undermine our most deeply held values. The questions he raises ask: What is worth fighting for? And what are you willing to sacrifice to keep it? Filled with black and white photographs throughout, this timely book from an award-author brings to life an important and dramatic era in American history with lessons that are deeply relevant today.

Infrastructures of Apocalypse Jessica Hurley, 2020-10-13 A new approach to the vast nuclear infrastructure and the apocalypses it produces, focusing on Black, queer, Indigenous, and Asian American literatures Since 1945, America has spent more resources on nuclear technology than any other national project. Although it requires a massive infrastructure that touches society on myriad levels, nuclear technology has typically been discussed in a limited, top-down fashion that clusters around powerful men. In *Infrastructures of Apocalypse*, Jessica Hurley turns this conventional wisdom on its head, offering a new approach that focuses on neglected authors and Black, queer, Indigenous, and Asian American perspectives. Exchanging the usual white, male "nuclear canon" for authors that include James Baldwin, Leslie Marmon Silko, and Ruth Ozeki, *Infrastructures of Apocalypse* delivers a fresh literary history of post-1945 America that focuses on apocalypse from below. Here Hurley critiques the racialized urban spaces of civil defense and reads nuclear waste as a colonial weapon. Uniting these diverse lines of inquiry is Hurley's belief that apocalyptic thinking is not the opposite of engagement but rather a productive way of imagining radically new forms of engagement. *Infrastructures of Apocalypse* offers futurelessness as a

place from which we can construct a livable world. It fills a blind spot in scholarship on American literature of the nuclear age, while also offering provocative, surprising new readings of such well-known works as *Atlas Shrugged*, *Infinite Jest*, and *Angels in America*. *Infrastructures of Apocalypse* is a revelation for readers interested in nuclear issues, decolonial literature, speculative fiction, and American studies.

A Covert Action Seth G. Jones, 2018-09-11 “A tale of victory for peace, for freedom, and for the CIA— a trifecta rare enough to make for required reading.” —Steve Donoghue, *Spectator USA* In 1981, the Soviet-backed Polish government declared martial law to crush a budding democratic opposition movement. Moscow and Washington were on a collision course. It was the most significant crisis of Ronald Reagan’s fledgling presidency. Reagan authorized a covert CIA operation codenamed QRHELPFUL to support dissident groups, particularly the trade union Solidarity. The CIA provided money that helped Solidarity print newspapers, broadcast radio programs, and conduct an information campaign against the government. This gripping narrative reveals the little-known history of one of America’s most successful covert operations through its most important characters—spymaster Bill Casey, CIA officer Richard Malzahn, Solidarity leader Lech Walesa, Pope John Paul II, and the Polish patriots who were instrumental to the success of the program. Based on in- depth interviews and recently declassified evidence, *A Covert Action* celebrates a decisive victory over tyranny for US intelligence behind the Iron Curtain, one that prefigured the Soviet collapse.

The Gavel and Sickle: The Supreme Court, Cultural Marxism, and the Assault on Christianity Anthony Walsh, 2018-01-15 This book addresses the benefits of Christianity for all, the degradation of our culture since the 1950s, the pernicious effects that cultural Marxism has had on Western cultures, and the loss of religious freedom as the Founders envisioned it due to a number of Supreme Court rulings. We cannot understand the culture war and cultural debasement until we understand cultural Marxism. Cultural Marxism has been hiding in plain sight since the 1930s with the immigration to the United States of a cadre of intellectuals from Germany who brought with them the folderol of critical theory, political correctness, gender neutrality, radical feminism, and moral relativism. This intellectual moonshine is designed to weaken family structure and individual morality, and it has worked. The ultimate purpose of cultural Marxism is to destroy Western civilization from within. This goal is clearly and unambiguously stated in their books and articles. In numerous places in these books and articles, cultural Marxists are adamant that if socialism is ever to come to America the two epicenters of Western morality, the family and Christianity, will have to be destroyed by slow, stealthy, and incremental attacks on them. They have been aided in their efforts by anti-Christian rulings by the United States Supreme Court since the 1940s. I do not claim in any sense that the Supreme Court is engaged in a conspiracy with cultural Marxists. Their rulings have been based on a reading of the Establishment Clause of the First Amendment that its authors would not recognize, and have used this clause to eviscerate the Free Exercise Clause—America’s “first freedom.” The Court has purged Christianity from the public square,

and in doing so it has unwittingly helped the cultural Marxist agenda by spiritually disarming America.
