Latinx Actor Training Cynthia Santos DeCure, Micha Espinosa, 2023-03-03 Latinx Actor Training presents essays and pioneering research from leading Latinx practitioners and scholars in the United States to examine the history and future of Latino/a/x/e actor training practices and approaches. Born out of the urgent need to address the inequities in academia and the industry as Latinx representation on stage and screen remains disproportionately low despite population growth; this book seeks to reimagine and restructure the practice of actor training by inviting deep investigation into heritage and identity practices. Latinx Actor Training features contributions covering current and historical acting methodologies, principles, and training, explorations of linguistic identity, casting considerations, and culturally inclusive practices that aim to empower a new generation of Latinx actors and to assist the educators who are entrusted with their training. This book is dedicated to creating career success and championing positive narratives to combat pervasive and damaging stereotypes. Latinx Actor Training offers culturally inclusive pedagogies that will be invaluable for students, practitioners, and scholars interested in the intersections of Latinx herencia (heritage), identity, and actor training.

Global Values and International Trade Law Csongor István Nagy, 2021-12-26 Exploring the relationship and interaction between economic interests and normative non-trade values, this book argues that the emergence and development of non-trade values is based on a complex dialectic interaction between selfish economic interests and normative values, and examines how their structural interdependence has given rise to a remarkable evolution in international trade. Conceiving this relationship as an intricate dialectic one that is neither purely value-driven, nor purely economic-interest-driven, it addresses the emergence, function, and role of non-trade values in international trade with a synthesizing approach and explores the results of their interaction in international economic intercourse. Approaching the non-trade issues of trade in a holistic manner, the book demonstrates that trade can operate smoothly only if it is framed by an architecture of normative value standards and international trade liberalization has reached the level where further development calls for cooperation also in fields that, at first glance, may appear to be non-trade in nature.

The Four Villains of Clinical Trial Agreement Delays and How to Defeat Them Débora S. Araujo, 2018-04-09 Fictional superheroes are often charged with the task of saving the world from villains such as the Joker, Lex Luthor, Doctor Doom,

and the Green Goblin. But superheroes cannot be effective if they only take out one of their villains and let the others roam free. In the same way, the pharmaceutical industry cannot effectively tackle the issue of delays in the execution of clinical trial agreements (CTAs) that leave patients lives hanging in the balance by only addressing one or two of the villains contributing to this broad challenge. Dora Araujo relies on seasoned experience in the pharmaceutical industry that includes consulting for Fortune 500 companies and driving practical change regarding the business aspects of clinical trials to share a comprehensive exploration of the four villains who contribute to CTA negotiation delays and provide practical ways to address each of them. While encouraging positive change that patients desperately need, Araujo examines the negative impacts of ineffective site-budget negotiations, poor outsourced negotiations, a lack of industry adoption and innovation, and other issues affecting CTA negotiations. Included are several checklists, a common language evaluation and reconciliation initiative, and general CTA country requirements. In this comprehensive study, a pharmaceutical professional creatively examines how to address the four villains that cause frustrating delays in the execution of clinical trial agreements.

Investment Treaty Law and Climate Change Tomás Restrepo Rodríguez, 2023-01-01 The book deals with the question whether the investment treaty law system could be harmonized with the climate change international legal framework and the climate interest that lies beyond. The answer to this research question is divided into three parts. The first examines the relevance of the climate change international legal framework in investment treaty disputes as a natural pre(logical)interpretative stage. The second focuses on the BIT's content-interpretation, which is the orthodox approach to solve the fragmentation between the system of investment treaty law and the system of international climate change law. Finally, the third part tackles this fragmentation through a heterodox approach that is grounded in the direct application of climate change principles through law ascertainment. Apart from concluding that harmonization between investment treaty law and international climate change law is possible through the orthodox approach to the expropriation and the FET standards, as well as through the direct application of the climate change precautionary principle and the CDRRC principle – heterodox approach, the book suggests that tribunals are expected soon to openly address climate change disputes in their rulings.

Multinational Enterprises and the Law Peter Muchlinski, 2021-02-18 Multinational Enterprises and the Law is the only

comprehensive, contemporary, and interdisciplinary account of the techniques used to regulate multinational enterprises (MNEs) at the national, regional, and multilateral levels. In addition, it considers the effects of corporate self-regulation, and the impact of civil society and community groups upon the development of the legal order in this area. The book has been thoroughly revised and updated for this third edition, making it a definitive reference work for students, researchers, and practitioners of international economic law, business, corporate and commercial law, development studies, and international politics. Split into four parts, the book first deals with the conceptual basis for MNE regulation. It explains the growth of MNEs, their business and legal forms, and the relationship between them and the effects of a globalized economy and society, now increasingly challenged by recently revived nationalist economic policies, upon the evolution of regulatory agendas in the field. In addition, the limits of national and regional jurisdiction over MNE activities are considered, a question that arises throughout the specialized areas of regulation covered in the remainder of the book. Part II covers the main areas of economic regulation, including controls over, and the liberalization of, entry and establishment, tax, company and competition law and the impact of intellectual property rights on technology diffusion and transfer. A specialized chapter on the regulation of multinational banks in the wake of the global financial crisis is new to this edition. Part III introduces the social dimension of MNE regulation covering labour rights, human rights, and environmental issues. Finally, Part IV deals with the contribution of international investment law to MNE regulation and to the control of investment risks, covering the main provisions found in international investment agreements, their interpretation by international tribunals, the process of investor-state arbitration, and how concerns over these developments are leading to reform proposals.

The Interpretation and Application of the Most-Favored-Nation Clause in Investment Arbitration Anqi

Wang, 2022-10-17 The open access publication of this book has been published with the support of the Swiss National Science Foundation. In *The Interpretation and Application of the Most-Favored-Nation Clause in Investment Arbitration*, Dr. Anqi Wang provides suggestions for MFN drafting in future international investment agreements (IIAs), as well as for MFN application by investor-state dispute settlement (ISDS) tribunals in case of ambiguity. Dr. Wang conducts a systemic review of MFN clause in history and maps all the relevant ISDS cases. She argues that ISDS tribunals should interpret the MFN clause according to the treaty text on a case-by-case basis, and that tribunals should also consider state consent as the foundation for the jurisdiction of international adjudication, current IIA reform, and essential treaty interpretive principles.
