Summary of the War of Art Instaread, 2016-03-23 Summary of The War of Art by Steven Pressfield | Includes Analysis Preview: Steven Pressfield's The War of Art: Break Through the Blocks and Win Your Inner Creative Battles is a book dedicated to helping writers and other artists overcome creative barriers and produce valuable and satisfying work. Pressfield discusses his own artistic struggles and uses examples of artists throughout history in order to inspire and guide other creators. The biggest barrier to artistic creation is Resistance. Resistance is a negative energy that intercedes whenever a person attempts to achieve a positive goal, such as painting a picture, exercising, or making a life change. Resistance is a combination of self-doubt, self-deception, fear of change, and fear of success. On a day-to-day basis, Resistance is expressed as procrastination, as when an artist cleans the house, gets a snack, or does anything rather than sit down to work. On a larger scale, Resistance can mean that an artist abandons his or her profession, or denies his or her creative dreams... The War of Art Philip Blackpeat,2005-11 I turned to the second photograph. It was Guernica again. It was vandalized again, but this time by someone who had charitably done his handiwork on the photo instead of the picture itself. Now a speech cloud with a tail, like those used in comics, emanated from the pointed tongue of the horse that dominates the work's central panel. It spanned most of the painting in length, this time covering the mother's face and sparing the child's. It contained seven words, written calligraphically in red: Equestrians know. I felt as if the espresso had exploded in my stomach, sending reconstituted coffee beans in all directions, like a napalm bomb... Murder. This is what little Marcel was telling me, not so subtly.

The War of Art Lauren O'Neill-Butler,2025-06-17 How artists have changed America through direct action Artists in America have long battled against injustices, believing that art can in fact “do more.” The War of Art tells this history of artist-led activism and the global political and aesthetic debates of the 1960s to the present. In contrast to the financialized art market and celebrity artists, the book explores the power of collective effort — from protesting to philanthropy, and from wheat pasting to planting a field of wheat. Lauren O’Neill-Butler charts the post-war development of artists’ protest and connects these struggles to a long tradition of feminism and civil rights activism. The book offers portraits of the key individuals and groups of artists who have campaigned for solidarity, housing, LGBTQ+, HIV/AIDS awareness, and against Indigenous injustice and the exclusion of women in the art world. This includes: the Black Emergency Cultural Coalition (BECC), Women Artists in Revolution (WAR), David Wojnarowicz’s work with ACT UP, Top Value Television (TVTV), Agnes Denes, Edgar Heap of Birds, Dyke Action Machine! (DAM!), fierce pussy, Project Row Houses, and Nan Goldin’s Prescription Addiction Intervention Now (PAIN). Based upon in-depth oral histories with the key figures in these movements, and illustrated throughout, *The War of Art* is an essential corrective to the idea that art history excludes politics.

Literature Journals in the War of Resistance against Japanese Aggression in China (1931-1938) Sunny Han Han, 2017-11-02 This book examines the development of Chinese literature journals and social ideologies from 1931 to 1938, combining first-hand historical materials, historical data and four important literature journals to study the competition and cooperation between various powers such as the Kuomintang, the CCP, the “Third Party”, and intellectuals. This book describes the most influential Chinese literature journals and their political background during that period, and explains the relations between disparate political and social powers, helping to decipher Chinese intellectuals’ cultural positions during this time. The author concludes with the provocative thesis that there was a progression in literature of the Nanjing Decade from an emphasis on class struggle to national salvation to a humanism that transcended these differences. —Arif Dirlik, author of *Culture and History in Postrevolutionary China: The Perspective of Global Modernity* The author looks into sources drawn from various camps and areas, identifies ideological and affective contestations, debates theoretical agendas, and ponders the consequences of literature as a unique manifestation of wartime engagements. Both historically informed and methodologically engaged, Han’s book is a most important source for anyone interested in the cultural and political dynamics of modern China in an extraordinary time. —David Der-wei Wang, Professor of Harvard University

The War of Nerves Martin Sixsmith, 2021-11-11 'Essential ... endlessly fascinating ... to read Sixsmith is to want to read more Sixsmith' Forbes More than any other conflict, the Cold War was fought on the battlefield of the human mind. And, nearly thirty years since the collapse of the Soviet Union, its legacy still endures - not only in our politics, but in our own thoughts, and fears. Drawing on a vast array of untapped archives and unseen sources, Martin Sixsmith vividly recreates the tensions and paranoia of the Cold War, framing it for the first time from a psychological perspective. Revisiting towering personalities like Khrushchev, Kennedy and Nixon, as well as the lives of the unknown millions who were caught up in the

conflict, this is a gripping account of fear itself - and in today's uncertain times, it is more resonant than ever.

G.S. Isserson and the War of the Future G.S. Isserson, 2016-07-25 Georgii Samoilovich Isserson (1898-1976) was one of the most prescient and prolific authors on military art in the years preceding World War II. His theories greatly influenced the Red Army's conduct of operations and were instrumental in achieving victory over Germany. This book gathers together for the first time English translations of Isserson's most influential works, including some that are still classified. His writings on the preparation and conduct of the deep offensive operation--the deployment of tanks, mechanized infantry, air power and airborne troops to penetrate deeply echeloned defenses--also serve as a primer on how to construct a position to defeat such an attack. His well argued defense of the deep operation based on an examination of recent wars and his reminiscences about the people and events that shaped Soviet military theory in the 1930s are included.

A War of Individuals Jonathan Atkin, 2002 This book draws together for the very first time examples of the 'aesthetic pacifism' practised during the Great War by such celebrated individuals as Virginia Woolf, Siegfried Sassoon and Bertrand Russell. In addition, the book outlines the stories of those less well-known who shared the mind-set of the Bloomsbury Group when it came to facing the first 'total war'. The research for this study took five years, gathering evidence from all the major archives in Great Britain and abroad. This is the first time that such wide-ranging evidence has been placed together in order to paint a complete picture.
