New perspectives in Audiovisual Translation Laura Mejías Climent,José Fdo. Carrero Martín,2022-03-01 The aim of this book is to contribute to the dissemination of current research carried out by young scholars who are starting to build promising careers in the field of audiovisual translation. Although it is by no means an exhaustive collection of state-of-the-art approaches to AVT, this publication offers a carefully chosen list of research perspectives that are worth exploring in the current technologised landscape that this area of translation has become. Therefore, it represents a select yet judicious group of studies, with the added strength that the contributions presented here are not limited to academic circles, but

rather offer different points of view from various angles, given the diverse profiles that characterizes the authors. Thus, each chapter deals with the subject of AVT from an academic, educational or professional perspective. As diverse as their approaches are, all the young authors who have collaborated to create this volume offer enriching perspectives that reflect the potential that AVT still has today and the prospective studies that are worth undertaking to continue enriching the field of AVT.
