The Public Domain Code Book Tony Laidig, 2006-09-01 Imagine embarking on a fantastic journey-one of exploration and discovery-that will take you around the world to exotic locations and hidden portals. A journey that provides you with instant access to the secret wisdom of the ages...A journey that immerses you in incredible, breathtaking beauty...A journey that places you, the student of discovery, at the feet of the most brilliant minds from every imaginable field of expertise. Can you picture it? Now imagine being able to gain access to that limitless wisdom...boundless beauty...and inexhaustible knowledge...FOR FREE! And better still, what if you were given complete, undeniable permission to personally develop those treasures into any money-making opportunity you can imagine. No questions asked! No limitations! Talk about unlimited income potential! What would an opportunity of THAT magnitude be worth to you? Thousands of dollars? Tens of thousands? PRICELESS? Just think of it...right now: .You have your pick from over 85 million books, many written by the greatest authors to have ever walked the earth. .You have full rights to a private collection of art produced by the world's finest artists, illustrators and photographers. .You have the keys to a movie vault containing thousands of classics you know and love-all at your fingertips-from vintage movies to cartoons and documentaries. .You have unhindered access to the millions of reports, books, videos and images produced by our government every year at a cost of millions. All of it is waiting-hidden-like buried treasure...waiting to be discovered by someone with eyes to see the possibilities...the potential. This treasure is waiting for someone like YOU! Granted, you will need the courage to believe that anything is possible. You will need a map that shows you where to look. And you will need an expert to train you how to see the hidden gems. Are you ready for X-ray vision? What I am describing is not some far-flung fantasy or pie-in-the-sky pipe dream. It is not a get-rich-quick back alley scam or even a high-level, complex secret reserved for geniuses and gurus. NO! What I am describing is the mostly undiscovered world of Public Domain. It is a world of hidden riches and forgotten secrets that would make the best tomb raiders and treasure hunters salivate with excitement. And your key to it all is The Public Domain Code Book! About the Author Tony Laidig is a researcher, a graphic artist, a photographer, a teacher, a publisher and a treasure hunter. He has worked in the Printing and Publishing industries for over 25 years-with the past 14 years spent working specifically as a graphic designer for the Publishing Industry. With over 500 book covers to his credit, Tony is now turning his design talents toward creating his own information products. The Public Domain Code Book is his first major project. Tony and his wife,

Deborah, also serve as Directors of Healing the Land, a non-profit organization that addresses Native American issues through education, cultural presentations and publishing. Tony and Deborah's teenage daughters, Ashlea and Courtney, are also actively involved in all aspects of Healing the Land as well. The Laidig family resides in South-Central Pennsylvania.

iPads® in the Library Joel A. Nichols, 2013-06-13 Looking for a programming guide for computer tablet use in the library setting? This book provides detailed plans and instructions with specific literacy goals for child, teen, and adult audiences—exactly what librarians seeking to integrate iPad and other tablet use into their programs need. Tablet computers are fast becoming a ubiquitous technology. These devices also represent a unique opportunity for librarians and teachers because they are relatively affordable, easy to configure and maintain, and highly adaptable. Written by a practicing digital literacy instruction librarian who is also a trained children's librarian, this book offers 50 practical programming scenarios that librarians can use to integrate iPads or other tablet devices into their programming, offering different plans for toddlers and pre-K child, school-aged patrons, teenagers, adults, and even seniors. The plans provide easy-to-follow, step-by-step instructions and are designed to be easily adaptable to serve specific audiences. The book serves as a unique resource that helps librarians address digital literacy and bridge the digital divide by focusing on—and catering to—the needs of many age groups. Author Joel A. Nichols also provides annotated lists of apps that present librarians new to tablet computing simple and effective ways of integrating an iPad into their programs.

*Speaking in Styles* Jason Cranford Teague, 2009-06-30 *Speaking in Styles* aims to help Web designers learn the language that will be used to take their vision from the static comp to the live Internet. Many designers think that CSS is code, and that it's too hard to learn. Jason takes an approach to CSS that breaks it down around common design tasks and helps the reader learn that they already think in styles--they just need to learn to speak the language. Jason helps Web designers find their voice, walks them through the grammar of CSS, shows them how to write their design specs in CSS, and how to prepare it for screen, printer or handheld devices. Along the way designers will learn to optimize their code, make it accessible, optimize for search engines, mix it up with Flash, and more.
