## Katy Sara Culling

Suicide Nils Retterstøl, 1993-06-17 A sensitive and enlightening account of the problem of suicide and attempted suicide in today's societies.

Screaming in Silence Katy Sara Culling, 2011-06-01 Description A serious pro-survival, pro-recovery book, written because I have been the survivor of many suicide attempts, not to forget also the person left behind after actual suicides, and the victim of serious self-harm in myself and those I love. I haven't attempted suicide or self-harmed for 8 years and I don't plan to do so again, but I always have my plan to hand. Starting at the age of 11, I have attempted suicide 443 times (sometimes barely surviving, twice dying, only to be revived) and for fifteen years I was a person who self-harmed - cutting and bloodletting, sometimes as self-harm, sometimes as a suicide attempt. The two are definitely linked but not all self-harm is suicidal, not all suicide attempts are meant to kill, and sadly about one million people kill themselves every year, not all of them meaning to. As I have also been the victim left behind when someone I loved took their own life, I really can see the issue from all perspectives. Allow me to fill you in on my personal experience first of all, so you know you are 'talking' to someone who really has been there before herself. Pull up a chair, or sit back in bed, and we will talk. About the Author Katy Sara Culling was born in Liverpool, North England, in January 1975, sharing her birth date rather aptly with Virginia Woolf. Daughter of Sue and Paul Culling, her family moved back to its roots in Derbyshire, where she grew up along with her younger sister Beth, in the village of Castle Donington, on the Derbyshire-Leicestershire border. However, even as young as 5 she exhibited symptoms of bipolar disorder (manic depression) - leading her to be loud and talkative, often in trouble. She also worried a great deal about death to an extent that is very unusual in one as young as she was. Not just her own death either. She attended a private school for girls, Loughborough High School, where she was an extremely high achieving student. Unfortunately, due to bullying and also to numb her rampant mania and depression, she developed anorexia nervosa and began to self-harm. She found that the anorexia and self-harming took over her life and made coping with mood swings easier because she did not feel their full effect anymore. Katy Sara then went to The University of Nottingham, where she studied Biochemistry and Nutrition. She did her (1st class) thesis on alcohol and metabolism, interested in the psychology of alcoholism. All this was done despite considerable illness including over 60 suicide attempts and purging-type anorexia - and yet more bullying. She was bullied for being anorexic by her fellow floor-mates. However her good academic work at

Nottingham lead to an offer of a place at The University of Oxford, where she studied for a PhD (DPhil) in Clinical Medicine. Here she was a full time member of Linacre College Oxford and was never bullied. Linacre is a graduate only college. She took part in many cycling events for charity. In her final year she became so ill with anorexia and bipolar depression that she agreed to take time off her PhD (the worst decision of her life) and go into hospital (first as a day patient, then an inpatient on the general ward, and eventually a sectioned inpatient on the general ward). During those two years she attempted suicide over 300 times, dying twice, only to be revived. She also made several trips to the Emergency Room to be treated for either suicide attempts or self-harm. She finally, at the age of 28 got a diagnosis of bipolar I disorder and the correct medication, and had been mostly fine ever since. Her eating disorder spontaneously recovered when her bipolar disorder became more controlled. She later wrote up her PhD thesis and published her results. Katy Sara now works for the Bipolar Foundation - Equilibrium, an independent, international, non-governmental organisation dedicated to improving treatment and understanding of the causes and effects of bipolar disorder ('manic-depression'). Suicide as a Dramatic Performance David Lester, Steven Stack, 2015-09-30 Each suicide is as unique as the individuals involved, especially if one examines the nature of the act and to what extent these acts can be viewed as a theatrical performance. Focusing on the dramatic aspects of suicide may seem tangential to the physical and mental pain experienced by those who try to kill themselves, but dramatic aspects often provide important clues for understanding the mental state of suicidal individuals. David Lester and Steven Stack investigate what happens in the weeks, days and hours before a suicide when the suicidal individual must make decisions and formulate the script for his or her suicidal act. The editors argue that these choices may help us understand and prevent other suicides and stimulate new and innovative research in this important area. Through twenty-five substantive chapters, including both quantitative and qualitative analyses, this book offers insights into suicide as a dramatic act, with chapters on the intended audience, the suicide note, the location and method chosen, and cultural scripts, including suicide-by-cop, sati, seppuku, and duels. The contributors to this volume argue that psychological, social, and cultural factors influence these choices and that the decisions made by the individual are important for understanding the mental state of the person choosing to die by suicide.

**Scripting Suicide in Japan** Kirsten Cather, 2024-10-15 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more. Japan is a nation saddled with centuries of accumulated stereotypes and loaded assumptions about suicide. Many pronouncements have been made about those who have died by their own hand, without careful attention to the words of the dead themselves. Drawing upon far-ranging creations by famous twentieth- and twenty-first-century Japanese writers and little-known amateurs alike--such as death poems, suicide notes, memorials, suicide maps and manuals, works of literature, photography, film, and manga--Kirsten Cather interrogates how suicide is scripted and to what end. Entering the orbit of suicidal writers and

readers with care, she shows that through close readings these works can reveal fundamental beliefs about suicide and, just as crucially, about acts of writing. These are not scripts set in stone but graven images and words nonetheless that serve to mourn the dead, straddling two impulses: to put the dead to rest and to keep them alive forever. These words reach out to us to initiate a dialogue with the dead, one that can reveal why it matters to write into and from the void.

*Forensic Linguistics: Second Edition* John Olsson, 2008-05-31 A revised and updated edition of John Olsson's practical introduction to Forensic Linguistics. Provides essential reading for students and researchers approaching this branch of linguistics for the first time.

*Suicide in the Middle Ages, Volume 2* Alexander Murray, 2011-03-03 A group of men dig a tunnel under the threshold of a house. Then they go and fetch a heavy, sagging object from inside the house, pull it out through the tunnel, and put it on a cow-hide to be dragged off and thrown into the offal-pit. Why should the corpse of a suicide – for that is what it is – have earned this unusual treatment? In *The Curse on Self-Murder*, the second volume of his three-part *Suicide in the Middle Ages*, Alexander Murray explores the origin of the condemnation of suicide, in a quest which leads along the most unexpected byways of medieval theology, law, mythology, and folklore – and, indeed, in some instances beyond them. At an epoch when there might be plenty of ostensible reasons for not wanting to live, the ways used to block the suicidal escape route give a unique perspective on medieval religion.

**Forensic Psychology For Dummies** David V. Canter, 2012-04-03 A fascinating guide on the psychology of crime Thinking of a career that indulges your CSI fantasies? Want to understand the psychology of crime? Whether studying it for the first time or an interested spectator, *Forensic Psychology For Dummies* gives you all the essentials for understanding this exciting field, complemented with fascinating case examples from around the world. Inside you'll find out why people commit crime, how psychology helps in the investigative process, the ways psychologists work with criminals behind bars - and how you too can become a forensic psychologist. You'll discover what a typical day is like for a forensic psychologist, how they work with the police to build offender profiles, interview suspects or witnesses, and detect lies! Covers the important role psychology plays in assessing offenders Explains how psychology is applied in the courtroom Explains complicated psychology concepts in easy-to-understand terms If you're a student considering taking forensic psychology or just love to learn about the science behind crime, *Forensic Psychology For Dummies* is everything you need to get up-to-speed on this fascinating subject.

*Forensic Linguistics* John Olsson, 2004-01-01 This book contains detailed studies of all the major areas of the discipline, including the detection of plagiarism, the observation of style change, and an analysis of all of the most important types of forensic text, including ransom demands, suicide notes, hate mail, smear mail, trick mail and terrorist mail. Perhaps one of the greatest assets of the book is its discussion of specific forensic texts including the 'stalker text' from John Hinckley, an

excerpt from the Unabomber case, several 17th century Salem witch trial 'confessions', Susan Smith's confession, and ransom notes from the Lindbergh kidnapping and Carlos the Jackal's ransom demand at Vienna.

**Doing Qualitative Desk-Based Research** Barbara Bassot, 2022-02-22 Are you planning a desk-based qualitative research project, but aren't sure how to get started? This essential book provides all the guidance and advice you'll need to complete your project. Using two key visual pedagogical tools, the Metaphorical Tent and the Research Triangle, the book shows you how to produce vibrant and stimulating in-depth qualitative research that draws on high-quality data readily available via the internet. The book • takes you through the research process step-by-step, from choosing a topic to writing up conclusions; • examines a wide range of written, visual and audio data sources; • includes helpful case studies to demonstrate the practical application of concepts. Concise, practical and jam-packed with valuable tips, features and examples, this book will enable you to complete a successful desk-based research project you can be proud of.

**XIV Mediterranean Conference on Medical and Biological Engineering and Computing 2016** Efthymou Kyriacou, Stelios Christofides, Constantinos S. Pattichis, 2016-03-31 This volume presents the proceedings of Medicon 2016, held in Paphos, Cyprus. Medicon 2016 is the XIV in the series of regional meetings of the International Federation of Medical and Biological Engineering (IFMBE) in the Mediterranean. The goal of Medicon 2016 is to provide updated information on the state of the art on Medical and Biological Engineering and Computing under the main theme "Systems Medicine for the Delivery of Better Healthcare Services". Medical and Biological Engineering and Computing cover complementary disciplines that hold great promise for the advancement of research and development in complex medical and biological systems. Research and development in these areas are impacting the science and technology by advancing fundamental concepts in translational medicine, by helping us understand human physiology and function at multiple levels, by improving tools and techniques for the detection, prevention and treatment of disease. Medicon 2016 provides a common platform for the cross fertilization of ideas, and to help shape knowledge and scientific achievements by bridging complementary disciplines into an interactive and attractive forum under the special theme of the conference that is Systems Medicine for the Delivery of Better Healthcare Services. The programme consists of some 290 invited and submitted papers on new developments around the Conference theme, presented in 3 plenary sessions, 29 parallel scientific sessions and 12 special sessions.

**Police Suicide** Richard Armitage, 2017-06-21 This text makes an informed contribution to the under-researched subject of police suicide by offering an analysis of UK case studies of officers and staff who either have completed suicide or experienced suicide ideation. The text then examines current and potential intervention measures and support mechanisms. Designed for criminal justice professionals and affected laypeople, including the families of those in police service, Police

Suicide is a crucial text for any who have an interest in the holistic and psychological welfare of police officers and staff.

**Bulletin of Suicidology**, 1969

*Bulletin of Suicidology* National Clearinghouse for Mental Health Information (U.S.), 1967

**Approaches to Research in Child and Youth Care** Priscilla Bengo, 2024-07-12 *Approaches to Research in Child and Youth Care in Canada* is a fundamental text for child and youth care programs with the aim of making research methods more approachable to students. Priscilla Bengo breaks down foundational research methods in an accessible way and explores the roles of objectivity and logic in sound decision making in child and youth care practices. Opening with the core functions of scientific inquiry in the field, Bengo introduces students to the ethical, political, and cultural contexts of child and youth care research and provides the tools to become a culturally competent researcher. Students will gain a thorough understanding of problem formulation, measurement, and data collection methods for large data sources, and how to work with both qualitative and quantitative data. Grounded with practical examples and exercises throughout, *Approaches to Research in Child and Youth Care in Canada* is a must-read for research methods courses in child and youth care programs that will build integral research skills for students in child and youth care, social work, and the programs focused on the helping professions.

**More Wordcrime** John Olsson, 2018-08-23 Murders, cover-ups, infidelities, financial and political skulduggery: Dr. John Olsson has seen it all in his decades as one of the world's top forensic linguists specialising in authorship. Working on cases that range from accusations of genocide to domestic disputes gone bad to allegations of university plagiarism, Olsson turns the same tools to the task - the power, depth and precision of forensic linguistics. Grammatical curiosities, lexical quirks, typographic stylings and patterns of use can all give away even the most hard-bitten and careful of criminals. And Olsson doesn't stop there. From the giveaway compound nouns of heavy-handed police statements to the startling similarities displayed in what should be individual office accounts, officials in high places are given a run for their money too. *Wordcrime* is easy to commit - and hard to escape. *More Wordcrime* features a series of gripping cases involving murder, sexual assault, hate mail, suspicious death and criminal damage. In approachable and clear prose, Dr Olsson details how forensic linguistics helps the law beat criminals, and how even those in power can be held to account. This is fascinating reading for anyone interested in true crime, in modern, cutting-edge criminology and also where the study of language meets the law.

*Ancient Greek Letter Writing* Paola Ceccarelli, 2013-10-24 In this volume, Ceccarelli offers a history of the development of letter writing in ancient Greece from the archaic to the early Hellenistic period. Highlighting the specificity of letter-writing, as opposed to other forms of communication and writing, the volume looks at documentary letters, but also traces the role of embedded letters in the texts of the ancient historians, in drama, and in the speeches of the orators. While a letter is in itself the transcription of an oral message and, as such, can be either truthful or deceitful, letters acquired negative connotations

in the fifth century, especially when used for transactions concerning the public and not the private sphere. Viewed as the instrument of tyrants or near eastern kings, these negative connotations were evident especially in Athens where comedy and tragedy testified to an underlying concern with epistolary communication. In other areas of the Greek world, such as Sparta or Crete, the letter may have been seen as an unproblematic instrument for managing public policies, with inscriptions documenting the official use of letters not only by the Hellenistic kings, but also by some poleis.

*Reassembling the Republic of Letters in the Digital Age* Howard Hotson, Thomas Wallnig, 2019 Between 1500 and 1800, the rapid evolution of postal communication allowed ordinary men and women to scatter letters across Europe like never before. This exchange helped knit together what contemporaries called the 'respublica litteraria', a knowledge-based civil society, crucial to that era's intellectual breakthroughs, formative of many modern values and institutions, and a potential cornerstone of a transnational level of European identity. Ironically, the exchange of letters which created this community also dispersed the documentation required to study it, posing enormous difficulties for historians of the subject ever since. To reassemble that scattered material and chart the history of that imagined community, we need a revolution in digital communications. Between 2014 and 2018, an EU networking grant assembled an interdisciplinary community of over 200 experts from 33 different countries and many different fields for four years of structured discussion. The aim was to envisage transnational digital infrastructure for facilitating the radically multilateral collaboration needed to reassemble this scattered documentation and to support a new generation of scholarly work and public dissemination. The framework emerging from those discussions – potentially applicable also to other forms of intellectual, cultural and economic exchange in other periods and regions – is documented in this book.

**Encyclopedia of Life Writing** Margaretta Jolly, 2013-12-04 First published in 2001. Routledge is an imprint of Taylor & Francis, an informa company.

*Care of the Suicidal Person* John R. Cutcliffe, Chris Stevenson, 2007-01-01 This title is directed primarily towards health care professionals outside of the United States. This book is based on a three year qualitative study (a study that was funded by the United Kingdom Department of Health) that investigated how psychiatric nurses provided care for suicidal people. Drawing on service user data, this book contains and explains an evidence-based (empirically induced) theory of how to care for suicidal people. Far from being an esoteric theory with no clinical applicability, the findings captured in this book are grounded in the reality of day-to-day practice. Furthermore, in addition to tracing the role of nurses in caring for suicidal people, the authors use their findings to launch into formal level issues regarding future research, education and policy; as well as focusing on the ethical issues involved in care of the suicidal person. The authors close by shifting the focus on 'suicide survivors' and with the help of contributing authors. As the eminent suicidology scholars who have generously provided their Forewords note - this is a must-read book for anyone involved in the care of the suicidal person.
