Twentieth-century Italian Literature in English Translation Robin Healey, 1998-01-01 This bibliography lists English-language translations of twentieth-century Italian literature published chiefly in book form between 1929 and 1997, encompassing fiction, poetry, plays, screenplays, librettos, journals and diaries, and correspondence.

Italian Locations Noa Steimatsky, 2008 Fascism and the Second World War left Italy indelibly changed, and cinema was arguably the art that most rigorously confronted the devastated nation. In this examination of four Italian filmmakers, Noa Steimatsky brilliantly maps their forceful negotiation of Italy's identity and posits that the cinematic forms they employ constitute an imaginary reinhabiting of Italy-one that is inextricably linked with the political, physical, and symbolic predicament of reconstruction. A dynamic intersection of pictorial and photographic, architectural and literary discourses inform Steimatsky's revisionist interrogation of exemplary works from the 1940s to the mid-1960s. From the earliest documentary work of Michelangelo Antonioni on the River Po to Pier Paolo Pasolini's re-siting of the Gospel in the arid, peripheral landscape of the Italian south, and from Roberto Rossellini's tracing of a neorealist project in ruinous Berlin to Luchino Visconti's wrought grandeur visited upon a humble Sicilian fishing village, *Italian Locations* probes the historical experience of displacement, anachronism, and a thoroughly contemporary anxiety in the cinematic arena. For Steimatsky, Antonioni's modernist achievement, informed by his native landscape, Rossellini's neorealist image of Italy as a nation of ruins, Visconti's reaching back to the nineteenth century and even more archaic pasts, and Pasolini's ambivalence about modernity-all partake in a search for a politically and culturally redeemed Italy. Noa Steimatsky is associate professor of the history of art and film studies at Yale University.

The Classic Short Story, 1870-1925 Florence Goyet, 2014-01-13 The ability to construct a nuanced narrative or complex character in the constrained form of the short story has sometimes been seen as the ultimate test of an author's creativity. Yet during the time when the short story was at its most popular - the late nineteenth and early twentieth centuries - even the

greatest writers followed strict generic conventions that were far from subtle. This expanded and updated translation of Florence Goyet's influential *La Nouvelle, 1870-1925: Description d'un genre à son apogée* (Paris, 1993) is the only study to focus exclusively on this classic period across different continents. Ranging through French, English, Italian, Russian and Japanese writing - particularly the stories of Guy de Maupassant, Henry James, Giovanni Verga, Anton Chekhov and Akutagawa Ryunosuke - Goyet shows that these authors were able to create brilliant and successful short stories using the very simple 'tools of brevity' of that period. In this challenging and far-reaching study, Goyet looks at classic short stories in the context in which they were read at the time: cheap newspapers and higher-end periodicals. She demonstrates that, despite the apparent intention of these stories to question bourgeois ideals, they mostly affirmed the prejudices of their readers. In doing so, her book forces us to re-think our preconceptions about this 'forgotten' genre.

Luchino Visconti and the Alchemy of Adaptation Brendan Hennessey, 2021-09-01 Since the beginning, much of Italian cinema has been sustained by transforming literature into moving images. This tradition of literary adaptation continues today, challenging artistic form and practice by pressuring the boundaries that traditionally separate film from its sister arts. In the twentieth century, director Luchino Visconti is a keystone figure in Italy's evolving art of adaptation. From the tumultuous years of Fascism and postwar Neorealism, through the blockbuster decade of the 1960s, into the arthouse masterpieces of the 1970s, Visconti's adaptations marked a distinct pathway of the Italian cinematic imagination. *Luchino Visconti and the Alchemy of Adaptation* examines these films together with their literary antecedents. Moving past strict book-to-film comparisons, it ponders how literary texts encounter and interact with a history of cultural and cinematic forms, genres, and traditions. Matching the major critical concerns of the postwar period (realism, political filmmaking, cinematic modernism) with more recent notions of adaptation and intermediality, this book reviews how one of Italy's greatest directors mined literary ore for cinematic inspiration.

Antifascisms David Ward, 1996 This book is an in-depth analysis of three of the most crucial years in twentieth-century Italian history, the years 1943-46. After more than two decades of a Fascist regime and a disastrous war experience during which Italy changed sides, these years saw the laying of the political and cultural foundations for what has since become known as Italy's First Republic. Drawing on texts from the literature, film, journalism, and political debate of the period, *Antifascisms* offers a thorough survey of the personalities and positions that informed the decisions taken in this crucial phase of modern Italian history.

Figuring Women Susan Amatangelo, 2004-10 The fact that Verga's most rebellious heroines die violently at the hands of men has led to accusations of misogyny or, at the very least, of excessive social and artistic conventionality. Yet it is precisely Verga's awareness of convention that enriches his portrayal of women. The reaction of his female characters to social custom

at a particular moment in their lives defines them as individuals. With rare insight, Verga depicts the female experience as both personal and universal, showing that different kinds of women are linked by the experience of being female in a male-centered culture. At the same time, however, he reveals the isolation in which women grow and live, separated from men and other women by social and cultural barriers.--BOOK JACKET.

Italian Women at War Susan Amatangelo, 2016-08-03 Italian Women at War: Sisters in Arms from Unification to the Twentieth Century offers diverse perspectives on Italian women's participation in war and conflict throughout Italy's modern history, contributing to the ongoing scholarly conversation on this topic. Part one of the book focuses on heroines who fought for Italy's Unification and on the anti-heroines, or brigantesse, who opposed such a momentous change. Part two considers exceptional individuals, such as Eva Kühn Amendola, who combatted both with her body and her pen, as well as collective female efforts during the world wars, whether military or civilian. In part three, where the context is twentieth-century society, the focus shifts to those women engaged in less conventional conflicts who resorted to different forms of revolt, including active non-violence. All of the women presented across these chapters engage in combat to protest a particular state of affairs and effect change, yet their weapons range from the literal, like Peppa La Cannoniera's cannon, to the metaphorical, like Letizia Battaglia's camera. Several of the essays in this volume discuss fictional heroines who appear in works of literature and film, though all are based on actual women and reference real historical contexts. Italian Women at War furthers the efforts begun decades ago to recognize Italian women combatants, especially in light of the recent anniversary of the Unification in 2011 and global discussions regarding the role of women in the military. Its aim is not to glorify violence and war, but to celebrate the active role of Italian women in the evolution of their nation and to demystify the idea of the woman warrior, who has always been viewed either as an extraordinary, almost mythical creature or as an affront to the traditional feminine identity.
