Voices of Mental Health Martin Halliwell, 2017-10-02 This dynamic and richly layered account of mental health in the late twentieth century interweaves three important stories: the rising political prominence of mental health in the United States since 1970; the shifting medical diagnostics of mental health at a time when health activists, advocacy groups, and public figures were all speaking out about the needs and rights of patients; and the concept of voice in literature, film, memoir, journalism, and medical case study that connects the health experiences of individuals to shared stories. Together, these three dimensions bring into conversation a diverse cast of late-century writers, filmmakers, actors, physicians, politicians, policy-makers, and social critics. In doing so, Martin Halliwell's *Voices of Mental Health* breaks new ground in deepening our understanding of the place, politics, and trajectory of mental health from the moon landing to the millennium.

Italian Giallo in Film and Television Roberto Curti, 2022-06-14 Since the release in 1929 of a popular book series with bright yellow covers, the Italian word giallo (yellow) has come to define a whole spectrum of mystery and detective fiction and films. Although most English speakers associate the term giallo with the violent and erotic thrillers popular in the 1960s and 1970s from directors like Mario Bava, Dario Argento, Lucio Fulci and others, the term encompasses a wide range of Italian media such as mysteries, thrillers and detective stories--even comedies and political pamphlets. As films like *Blood and Black Lace* (1964) and *Deep Red* (1975) have received international acclaim, giallo is a fluid and dynamic genre that has evolved throughout the decades. This book examines the many facets of the giallo genre --narrative, style, themes, and influences. It explores Italian films, made-for-TV films and miniseries from the dawn of sound cinema to the present, discussing their impact on society, culture and mores.

Hollywood Remaking Kathleen Loock, 2024-03-26 From the inception of cinema to today's franchise era, remaking has always been a motor of ongoing film production. *Hollywood Remaking* challenges the categorical dismissal in film criticism of remakes, sequels, and franchises by probing what these formats really do when they revisit familiar stories. Kathleen Loock argues that movies from Hollywood's large-scale system of remaking use serial repetition and variation to constantly negotiate past and present, explore stability and change, and actively shape how the film industry, cinema, and audiences imagine themselves. Far from a simple profit-making exercise, remaking is an inherently dynamic practice situated between the film industry's economic logic and the cultural imagination. Although remaking developed as a business practice in the United States, this book shows that it also shapes cinematic aesthetics and cultural debates, fosters film-historical knowledge, and promotes feelings of generational belonging among audiences.

Amelie and Janet are in love with the same man: Janet's husband. One knows it; the other doesn't. Or does she? As bestselling novelist Amelie Ferrar knows, an affair with a married person is like a work of fiction: a kind of spy story with its rules and customs, negotiations and compromises, and many private rituals. But like any spy story, there will inevitably be a betrayal: something will slip, someone else will find out, someone may even die. As Amelie falls deeper into her obsession with the man she loves—and his wife—the line between the fiction she writes and the reality she lives begins to blur...and the twisted ending to this story is one that not even she could have seen coming.
