Police-community Relations in San Jose Thomas V. Pilla, United States Commission on Civil Rights. Western Regional Office, 1980 This report summarizes a 3-year monitoring effort by the staff of the Western Regional Office of the United States Commission on Civil Rights concerning police-community relations in San Jose, Calif. In 1976, San Jose minority community representatives alleged that law officers used abusive and threatening language, threats of arrest in individuals complained, and deadly force. All too often, they alleged, the victims were the city's minorities. The report describes the background of the problem and community perceptions and the police department response during the period of change between 1976 and 1979. The civil rights staff, which interviewed over 120 persons, including city and law enforcement officials, clergy, public and private agency representatives, and minority community representatives, found that the level of fear, mistrust, and hostility toward the police in San Jose in 1979 did not seem to approximate that of 1976. The staff also found that there was a police department administrative emphasis on courtesy and professional service, a recognizable and definable police-community relations program, and a decrease in the number of officer-involved shootings. Although minority community relations with police improved, incidents of abuse were still reported. In addition, interviews revealed an unresolved conflict within the police department over whether the department should emphasize law enforcement or service. Footnotes and tabular data are included. Appendixes contain letters from the president and vice-president of the San Jose Peace Officers' Association.

Japan and Asia Mariko Tanigaki, 2022-03-21 This book aims to review the postwar interactions of Japan with Asia. The Japanese factory production system, kaizen, has been shared in Asia. This book collects more diverse topics from Japan's interactions with China, the Philippines, Indonesia, and Hong Kong. Each chapter provides details on how the business, political, and cultural interactions enrich both sides. The findings are then used to suggest the possibility of a de-facto Asian Community and Japan's role in the present and post-COVID-19 world.

Russia's Provinces P. Kirkow,1998-01-12 This book focuses on the evolution of federalism and intragovernmental relations in Russia for the period 1992-95 following the dissolution of the Soviet Union. Its main question is whether under conditions of democratisation and marketisation in Russia an authoritarian approach of 'transformation from above' is more favourable to one of granting more autonomy to local governments. The author suggests a scale of various reform implementation policies based on two pioneering case studies of Russian provinces.
