How to Be an Adult in Relationships David Richo, 2021-11-02 Most people think of love as a feeling, says David Richo, but love is not so much a feeling as a way of being present. In this book, Richo offers a fresh perspective on love and relationships—one that focuses not on finding an ideal mate, but on becoming a more loving and realistic person. Drawing on the Buddhist concept of mindfulness, *How to Be an Adult in Relationships* explores five hallmarks of mindful loving and how they play a key role in our relationships throughout life: 1. Attention to the present moment; observing, listening, and noticing all the feelings at play in our relationships. 2. Acceptance of ourselves and others just as we are. 3. Appreciation of all our gifts, our limits, our longings, and our poignant human predicament. 4. Affection shown through holding and touching in respectful ways. 5. Allowing life and love to be just as they are, with all their ecstasy and ache, without trying to take control. When deeply understood and applied, these five simple concepts—what Richo calls the five A's—form the basis of mature love. They help us to move away from judgment, fear, and blame to a position of openness, compassion, and realism about life and relationships. By giving and receiving these five A's, relationships become deeper and more meaningful, and they become a ground for personal transformation.

Becoming Adult, Becoming Christian James W. Fowler, 1999-12-02 In this updated reissue of his 1984 classic, James Fowler applies his groundbreaking research on the development of faith to Christianity. In his revised first chapter Fowler locates his approach to the study of human and faith development in relation to the contemporary conversation about identity and selfhood in postmodernity. Fowler invites readers to explore what it means to find and claim vocation: a purpose for one's life that is part of the purposes of God. Reclaiming covenant and vocation as ideals for responsible, mature, Christian selfhood, Fowler shows how a dynamic understanding of what vocation involves can both inform and transform lives.

Coming of Age in America Mary C. Waters, 2011-09-20 Much hand-wringing has occurred over the so-called failure of young people to grow up today. This volume persuasively shows the range of forces that shape the protracted transition to adulthood. An excellent and enjoyable read. --Deborah Carr, Professor of Sociology, Rutgers University, and editor of the *Encyclopedia of the Life Course and Human Development*. The essays in this volume are written with great verve and intelligence, grounded in extensive fieldwork and careful data analysis. --Frank Furstenberg, Professor of Sociology in the Population Studies Center at the University of Pennsylvania

Constructing Adulthood Ross Macmillan, 2006-11-21 *Advances in Life Course Research* publishes original theoretical analyses, integrative reviews, policy analyses and position papers, and theory-based empirical papers on issues involving all

aspects of the human life course. Adopting a broad conception of the life course, it invites and welcomes contributions from all disciplines and fields of study interested in understanding, describing, and predicting the antecedents of and consequences for the course that human lives take from birth to death, within and across time and cultures, regardless of methodology, theoretical orientation, or disciplinary affiliation. Each volume is organized around a unifying theme.

How to Become an Emotionally-Savvy Adult Jan Booth M.S.,2021-01-19 Imagine being at a turning point in life. Perhaps many wrong choices have been made which have resulted in failure in school or even incarceration. This program invites the learner to become tuned into their strengths and challenges, and to understand, at a deeper level, how important they are to family, friends, and community. The book includes forty lessons with compelling stories to teach a principle and provide activities to solidify the concept taught in a manner that is pertinent to the individual's life. The lessons are designed to enhance self-awareness, increase emotional intelligence, and encourage the learner in accountability to prepare them to become leaders for today's world. Instead of viewing life through the lens of "me" or "I" the new view will be how one can become an optimistic, emotionally savvy individual, leader, and mentor, who guide others to build bridges of peace and understanding.

Young Adult and Canonical Literature Paula Greathouse,Victor Malo-Juvera,2021-03-10 In the last decade alone, the world has changed in seismic ways as marriage equality has been ruled on by the supreme court, social justice issues such as #metoo and BlackLivesMatter have arisen, and issues of immigration and deportation have come to the forefront of politics across the globe. Thus, there is a need for an updated text that shares strategies for combining canonical and young adult literature that reflects the changes society has - and continues to - experience. The purpose of our collection is to offer secondary (6-12) teachers engaging ideas and approaches for pairing young adult and canonical novels to provide unique examinations of topics that teaching either text in isolation could not afford. Our collection does not center canonical texts and most chapters show how both texts complement each other rather than the young adult text being only an extension of the canonical. Within each volume, the chapters are organized chronologically according to the publication date of the canonical text. The pairings offered in this collection allow for comparisons in some cases, for extensions in others, and for critique in all.

Case Studies and Activities in Adult Education and Human Resource Development Steven W. Schmidt,Kathleen P. King,2010-09-01 Case studies have become a widely-used instructional tool in many educational environments. The use of case studies began in the 1950s at Harvard Business School. Today, they may be used as part of a course of study, or as the main focus of a course, to which other material is added. While the use of case studies is prevalent in schools of business and medicine, they are not often used in adult education or human resource development. This may be because there are no current major publications that deal with the use of case studies in these disciplines; nor are there any major databases of

adult education or human resource development case studies for instructors to use. Good case studies can bring reality into the classroom. They can provide frameworks for discussion based on issues that must be faced in real life. Complex case issues can be broken down and examined for greater understanding, then pulled together again for resolution. Case studies can be used successfully in adult education. I propose a book based on the use of case-based learning in adult education and human resource development (HRD). The book could be positioned as a supplement to course textbooks for courses in adult education and HRD. I would write the cases and develop the exercises, but could also get others to contribute a case study or exercise to the book. Cases would each be a half-page to maybe 2-3 pages at the long end, and would include questions for students/readers. Supplementary information (possibly in the form of a DVD) could be put together for instructors. This information would include case study focal points and examples of possible responses for each study/exercise.

Adult Attachment Patterns in a Treatment Context Sarah Daniel, 2014-08-27 Attachment theory posits that the need for attachment is a life-long phenomenon that becomes especially relevant in times of crisis or trauma. When adults experience illness, accidents, assaults, psychological difficulties or losses, their attachment-behavioural systems are activated, motivating them to seek help and support from family and friends and/or from helping professionals. However, the resulting request for help is affected and shaped by earlier experiences regarding the support and trustworthiness of attachment figures. Can others be trusted? Is it safe to show vulnerability? How should one behave to increase the likelihood of receiving the help needed? *Adult Attachment Patterns in a Treatment Context* provides an integrated introduction to the subject of adult attachment. Research into adult attachment patterns offers professional helpers a theoretically sound insight into the dynamics underlying a range of client behaviours, including some of the more puzzling and frustrating behaviours such as denying obvious pain or continually pushing the professional for more personal involvement. Sarah Daniel shows how applying knowledge of attachment patterns to treatment settings will improve the way in which professionals engage with clients and the organization of treatments. This book will be relevant to a range of helping professionals such as psychotherapists, psychologists and social workers, both in practice and in training.

Challenging the Professionalization of Adult Education André P. Grace, Tonette S. Rocco, 2009-06-02 This is groundbreaking book examines the influence of the radical educator and social critic John Ohliger and provides a challenge to orthodox approaches to adult education. Ohliger's call to focus on the necessity of learning to democracy, and his critique of those that fail to keep freedom and responsibility at the center of the learning enterprise, provide rich material for the authors' reflections on the many ways in which Ohliger's work has influenced contemporary practice in the field. The book also includes his most influential works also allows the reader to engage with his ideas directly.

Adult Personality Development Lawrence S. Wrightsman, 1994-03-15 This stimulating book and its companion volume,

Adult Personality Development: Theories and Concepts, reflect an expansion of the coverage of Wrightsman's initial book, Personality Development in Adulthood. The luxury of greater length has permitted an exploration of new topics, including the use of a wider variety of sources including scholarly articles and books, biographies, and case studies. Increased attention is devoted to creativity in adulthood, to learning and memory, to marriage stability, and other topics. The book provides a focus for a Psychology of Adulthood course that encourages students to look at the evolving nature of their own lives. Particular attention is given to developing an extensive set of references (over 700 in this volume) as an aid to scholars. -- Publisher description.

The Oxford Handbook of Reciprocal Adult Development and Learning Carol Hoare, 2011-09-06 One of the Best Books of 2011 from the Center for Optimal Adult Development The fields of adult development and the study of learning have traditionally been considered separate, with development falling under psychology and learning under education. However, recent ideas, research, and practices that have emerged in these fields of study effectively emphasize the inherent reciprocal relationship that exists between them: advances in development frequently lead to learning, and conversely, learning almost necessarily fuels development. In this second edition of The Oxford Handbook of Reciprocal Adult Learning and Development, the synchronicity between development and learning is explored further, as expert authors advance the latest theories to provide a rich foundation for this new area of study and practice for this interrelated field of study. At the border of two disciplines, this handbook focuses on the capacities of intelligence, meta-cognition, insight, self-efficacy, spirituality, interpersonal competence, wisdom, and other key adult attributes as they relate to positive changes and personal growth in

adults. Contexts for development and learning (e.g., the work role and environment) are also addressed, and mixed in throughout the volume are emanating implications for research, practice, and policy. What emerges is a thoughtful handbook for all who promote optimal aging, and is a must-read for academics, psychologists, and practitioners in adult development.

Young Adult Literature and Spirituality William Boerman-Cornell, Deborah Vriend Van Duinen, Kristine Alatheia Mensonides Gritter, Xu Bian, 2022-09-28 This book offers revolutionary approaches to in-class discussions about young adult literature. It shows teachers how to think more widely than the themes of a book to consider how they might operate as prayers of lament, yearning, anger, confession, thankfulness, reconciliation, joy, obedience, pilgrimage, contemplation, and equanimity. It also offers a variety of ways for classroom discussion to consider a representative sentence or two from a young adult novel, and from that allow students to connect to linked passages in the rest of the novel. These approaches for classroom discussion are drawn from a variety of contemplative traditions, including Jewish and Christian faith traditions and include florilegium, lectio divina, PaRDeS, Ignatian Imagination, havruta, and marginalia. Drawing from a range of in-class experiences, the authors explain each approach in the context of twelve popular and critically interesting young adult novels including *The Hate U Give*, *Long Way Down*, *Speak*, *The Poet X*, *The Fault in our Stars*, *Brown Girl Dreaming*, and others. This book will transform discussions that are disconnected from the book, lacking in relevance, or missing the energy that drives good conversation into meaningful and energetic class discussions that students and teachers alike will value.

Adult and Continuing Education: Vocational education Peter Jarvis, Colin Griffin, 2003 Depicting the ways that adult education has evolved as society has changed and how it has been incorporated into lifelong learning, this is a truly unique set that puts a stamp on an exciting field and important, far-reaching issues. These five volumes represent a great advance to scholars, as this is the first comprehensive overview of the field. The set draws on books, journals, reports and historical papers to map the vast field of education for adults. The writings included in the set have influenced the development of both the practice and the study of adult education from the Guilds to vocational education, distance learning and leisure learning. The collection also covers the recent emergence of corporations as new providers of education for adults with the corporate classroom, corporate universities and consultancies. A detailed index and new introduction by the editor will help the reader navigate this wealth of diverse material.

Adult Safeguarding Observed Jeremy Dixon, 2023-07-25 Chapters 1, 3 and 5 are available Open Access under CC-BY licence. Safeguarding adults at risk of abuse or neglect is a core area of social work practice but knowledge of how social workers make adult safeguarding decisions is limited. Applying recent sociological and ethnographic research to this area for the first time, this book considers how adult safeguarding practice is developing, with a focus on risk management. The author explores how social workers conduct safeguarding adults assessments, work with multiple agencies and involve service users in risk decisions. The book is essential reading for those wishing to understand how risk and uncertainty are

managed within frontline adult social work and how current practice can be improved.
